House Bill 1500

February 6, 2011

REPORT OF THE SUBCOMMITTEE
on
Technology, Oversight, and Government Activities

Mr. Chairman and Members of the Committee:

The Technology, Oversight, and Government Activities Subcommittee is pleased to put before you a series of recommendations to improve the structural balance of Virginia's budget at a time when the economy is beginning to show some signs of recovery.

As we began our review, the need for improving the structural balance of Virginia's budget was an important concern. First among these concerns is the need to set aside funding for the required Rainy Day Fund deposit in the next biennial budget. Mr. Chairman, I want to extend my thanks to you for directing the resources necessary to this Subcommittee to address these issues.

I am pleased to report that this Subcommittee recommends an additional \$64 million dollars for the Revenue Stabilization Fund. This amount, coupled with the \$50 million set aside in the 2010 Session, will result in a total of \$114 million, or 50 percent of the required deposit for the 2012-2014 biennium. Making this important deposit now reduces the pressure we face in building the next biennial budget.

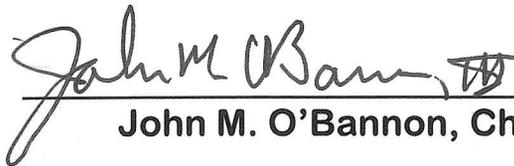

Likewise, when reviewing costs incurred by state agencies for services provided by the Virginia Information Technologies Agency, the Subcommittee concluded that in many instances these state agencies had not been adequately funded for these costs. These agencies cannot continue to avoid the charges they face, therefore, we recommend providing \$26.6 million the first year and \$28.7 million the second year to ensure these state agencies have the resources they need to pay for their information technology services.

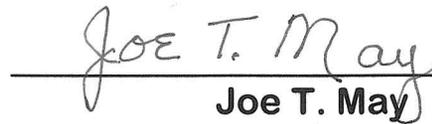

The Subcommittee also examined ways to restructure the manner in which Virginia does business. Included in the amendments before you is a recommendation that implements a 60 day freeze on all general fund positions in order to allow agencies to determine whether the position is actually needed. This action is expected to generate \$10.5 million in savings. In addition, the Subcommittee is recommending that \$500,000 in uncommitted balances within the productivity investment fund be reverted, and that a \$250,000 appropriation set aside for a review of agency savings proposals be eliminated. State agencies should be examining these savings proposals, many of which they have proposed. In other words, we don't need to spend money to save money.

Finally, Mr. Chairman, the Subcommittee is recommending a number of amendments to the General Provisions that may also alter how Virginia does business moving forward. The first would affect the reversion of unexpended general fund appropriations. Unexpended general fund appropriations would be reappropriated only as required by the Code of Virginia or in order to make payment of bills for preexisting orders for goods and services. The only exceptions are for those entities that are not under the purview of the Executive Branch and the institutions of higher education. The second is a the requirement that the Chief Information Officer and State Comptroller develop standards for the issuance of cell phones and telecommunication devices for the state agencies receiving their information technology services from VITA. The Auditor of Public Accounts estimated that the total spent on these devices was about \$6 million annually.

In closing, I would like to thank Chairman Putney and the members of the Subcommittee for their hard work and support during the Session in putting the Subcommittee budget together. Committee staff will review the report and the attached listing of our recommendations at this time, and I hope it will be your pleasure to adopt our Subcommittee Report.

Respectfully Submitted by the House Appropriations Subcommittee
on Technology Oversight & Government Activities:

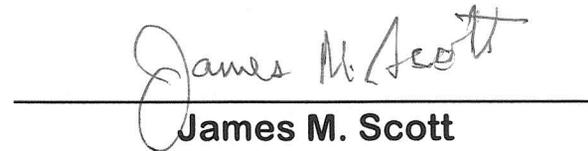

John M. O'Bannon, Chair

Joe T. May

Page 202, after line 10, insert:

"B. The Secretary of Finance shall convene a work group to outline the initial format and general content of a Citizen Friendly Budget, or easily understood on-line budget summary, to be available after each reconvened Session. The working group shall consist of representatives from the Department of Planning and Budget, the Department of Accounts, the Auditor of Public Accounts, the Joint Legislative Audit and Review Commission, staff of the House Appropriations Committee, and staff of the Senate Finance Committee. The working group shall complete its work by November 30, 2011."

Explanation:

(This amendment provides for the Secretary of Finance to convene a work group to outline the format and general content of a Citizen Friendly Budget, or similar on-line budget summary, that would be available after each reconvened Session.)

Virginia Information Technologies
Agency

Language

Language:

Page 352, line 36, strike the second "\$2,734,309" and insert "\$6,734,309".

Page 352, line 38, strike the second "\$30,540,251" and insert "\$27,740,251".

Page 352, line 42, strike the second "\$6,191,968" and insert "\$4,991,968".

Explanation:

(The introduced budget included an amendment to redistribute funds among three E-911 service areas in the second year. This was done to conform to recently established policy set by the Wireless Emergency-911 Services Board, where E-911 grant program funds are to be taken from the core service area rather than spread amongst the three service areas. Associated language changes were made, but erroneously, the changes to service area amounts were not reflected in the bill. This amendment correctly redistributes E-911 appropriations based on policy approved by the Wireless Emergency-911 Services Board. Though the redistributions result in a zero-sum, they will ensure the transparent allocation of service grants to E-911 service centers and wireless providers.)

"or enterprise-level endeavors".

Amendments to House Bill 1500, as Introduced

Explanation:

(This amendment provides the option for Executive Department agencies and institutions to enter into work agreements with private companies for services supporting enterprise level endeavors, such as financial management, human resource management, administrative management, supply chain management, and applications development and management. However, no such work may proceed if it would commit the Commonwealth to expanding or significantly altering any existing federal or state program without the review and approval of the Governor and General Assembly.)

Page 413, line 27, strike "c." and insert "d."

Page 413, line 30, strike "d." and insert "e."

Explanation:

(This amendment reduces the general fund support provided in the introduced budget to assist state agencies to address the impact of additional VITA charges for information technology services by \$1.5 million each year. The amendment also includes language to ensure that if any pro-ration of funding is necessary because of this reduction, that such pro-ration is limited to the 10 agencies receiving more than \$1.0 million in allocations from this Central Appropriations item. In the introduced budget, \$28.1 million general fund the first year and \$30.2 million general fund the second year was included to assist state agencies affected by increased VITA charges. 10 agencies receive about 87 percent of all funding provided.)

Language

Language:

Page 497, after line 21, insert:

"k. TELECOMMUNICATION SERVICES AND DEVICES:

1. The Chief Information Officer and the State Comptroller shall develop statewide requirements for the use of cellular telephones and other telecommunication devices by in-scope Executive Department agencies, addressing the assignment, evaluation of need, safeguarding, monitoring, and usage of these telecommunication devices. The

Amendments to House Bill 1500, as Introduced

requirements shall include an acceptable use agreement template clearly defining an employee's responsibility when they receive and use a telecommunication device. Statewide requirements shall require some form of identification on a device in case it is lost or stolen and procedures to wipe the device clean of all sensitive information when it is no longer in use.

2. In-scope Executive Department agencies providing employees with telecommunication devices shall develop agency-specific policies, incorporating the guidance provided in § 4-5.04 k 1 and shall maintain a cost justification for the assignment or a public health, welfare and safety need.

3. The Chief Information Officer shall determine the optimal number of telecommunication vendors and plans necessary to meet the needs of in-scope Executive Department agency personnel. The Chief Information Officer shall regularly procure these services and provide statewide contracts for use by all such agencies. These contracts shall require the vendors to provide detailed usage information in a useable electronic format to enable the in-scope agencies to properly monitor usage to make informed purchasing decisions and minimize costs.

4. The Chief Information Officer shall provide tools for in-scope Executive Department agencies to analyze usage and cost data to assist in determining the most cost effective plan combinations for the entity as a whole and individual users."

Explanation:

(This amendment requires the Chief Information Officer and State Comptroller to develop state-wide requirements for the issuance of cell phones and other telecommunications devices by in-scope Executive Department state agencies to employees, requires these in-scope Executive Department state agencies to develop agency-specific policies governing these devices and to maintain cost justifications for the assignment of such devices to their employees, and requires the Chief Information Officer to determine how many telecommunication vendors should be used and the types of plans that should be offered to meet state agency needs, and to establish a requirement that billings from telecommunication providers be provided in a useable electronic format so that the Commonwealth and state agencies can make decisions to minimize their costs. This language is a response to the Auditor of Public Accounts audit of telecommunication device usage in the Commonwealth.)

Special Conditions and Restrictions on Expenditures

Goods and Services

Language

Language:

Page 496, after line 10, insert:

"6. Notwithstanding any other provision of law, the Virginia Information Technologies Agency shall develop policies and procedures for the sale of surplus computers and laptops to in-scope Executive Department employees and officials. State agencies that do not receive computer services from the Virginia Information Technologies Agency may develop their own policies and procedures governing the sale of surplus computers and laptops to their employees or officials. Any proceeds from the sale of surplus computers or laptops shall be deposited into the general fund."

Explanation:

(This amendment permits the sale of surplus computers and laptops to state employees and agency officials. For in-scope Executive Department agencies, these policies and procedures will be developed by VITA. For other state agencies that do not receive their computer services from VITA, those agencies may develop such policies and procedures. All proceeds from the sale of these computers would be deposited to the general fund.)
