**HOUSE BILL NO. 1478**

Offered January 24, 2000

*A BILL to amend and reenact § 54.1-2982 of the Code of Virginia, relating to the Health Care Decisions Act.*

Patrons—Robinson, Almand, Plum, Van Landingham and Van Yahres; Senators: Byrne and Edwards

Referred to Committee for Courts of Justice

**Be it enacted by the General Assembly of Virginia:****1. That § 54.1-2982 of the Code of Virginia is amended and reenacted as follows:**

§ 54.1-2982. Definitions.

As used in this article:

"Advance directive" means (i) a witnessed written document, voluntarily executed by the declarant in accordance with the requirements of § 54.1-2983 or (ii) a witnessed oral statement, made by the declarant subsequent to the time he is diagnosed as suffering from a terminal condition and in accordance with the provisions of § 54.1-2983.

"Agent" means an adult appointed by the declarant under an advance directive, executed or made in accordance with the provisions of § 54.1-2983, to make health care decisions for him, *including visitation directives*. The declarant may also appoint an adult to make, after the declarant's death, an anatomical gift of all or any part of his body pursuant to Article 2 (§ 32.1-289 et seq.) of Chapter 8 of Title 32.1.

"Attending physician" means the primary physician who has responsibility for the treatment and care of the patient.

"Declarant" means an adult who makes an advance directive, as defined in this article, while capable of making and communicating an informed decision.

"Durable Do Not Resuscitate Order" means a written physician's order issued pursuant to § 54.1-2987.1 to withhold cardiopulmonary resuscitation from a particular patient in the event of cardiac or respiratory arrest. For purposes of this article, cardiopulmonary resuscitation shall include cardiac compression, endotracheal intubation and other advanced airway management, artificial ventilation, and defibrillation and related procedures. As the terms "advance directive" and "Durable Do Not Resuscitate Order" are used in this article, a Durable Do Not Resuscitate Order is not and shall not be construed as an advance directive.

"Incapable of making an informed decision" means the inability of an adult patient, because of mental illness, mental retardation, or any other mental or physical disorder which precludes communication or impairs judgment and which has been diagnosed and certified in writing by his attending physician and a second physician or licensed clinical psychologist after personal examination of such patient, to make an informed decision about providing, withholding or withdrawing a specific medical treatment or course of treatment because he is unable to understand the nature, extent or probable consequences of the proposed medical decision, or to make a rational evaluation of the risks and benefits of alternatives to that decision. For purposes of this article, persons who are deaf, dysphasic or have other communication disorders, who are otherwise mentally competent and able to communicate by means other than speech, shall not be considered incapable of making an informed decision.

"Life-prolonging procedure" means any medical procedure, treatment or intervention which (i) utilizes mechanical or other artificial means to sustain, restore or supplant a spontaneous vital function, or is otherwise of such a nature as to afford a patient no reasonable expectation of recovery from a terminal condition and (ii) when applied to a patient in a terminal condition, would serve only to prolong the dying process. The term includes artificially administered hydration and nutrition. However, nothing in this act shall prohibit the administration of medication or the performance of any medical procedure deemed necessary to provide comfort care or to alleviate pain, including the administration of pain relieving medications in excess of recommended dosages in accordance with §§ 54.1-2971.01 and 54.1-3408.1. For purposes of §§ 54.1-2988, 54.1-2989, and 54.1-2991, the term also shall include cardiopulmonary resuscitation.

"Persistent vegetative state" means a condition caused by injury, disease or illness in which a patient has suffered a loss of consciousness, with no behavioral evidence of self-awareness or awareness of surroundings in a learned manner, other than reflex activity of muscles and nerves for low level conditioned response, and from which, to a reasonable degree of medical probability, there can be no recovery.

"Physician" means a person licensed to practice medicine in the Commonwealth of Virginia or in the

INTRODUCED

HB1478

60 jurisdiction where the treatment is to be rendered or withheld.

61 "Qualified patient" means a patient who has made an advance directive in accordance with this  
62 article and either (i) has been diagnosed and certified in writing by the attending physician and a second  
63 physician or licensed clinical psychologist after personal examination to be incapable of making an  
64 informed decision about providing, withholding or withdrawing a specific medical treatment or course of  
65 treatment, in accordance with § 54.1-2986 or (ii) has been diagnosed and certified in writing by the  
66 attending physician to be afflicted with a terminal condition.

67 "Terminal condition" means a condition caused by injury, disease or illness from which, to a  
68 reasonable degree of medical probability a patient cannot recover and (i) the patient's death is imminent  
69 or (ii) the patient is in a persistent vegetative state.

70 "Witness" means a person who is not a spouse or blood relative of the patient. Employees of health  
71 care facilities and physician's offices, who act in good faith, shall be permitted to serve as witnesses for  
72 purposes of this article.
