

1 VIRGINIA ACTS OF ASSEMBLY — CHAPTER

2 *An Act to amend and reenact § 32.1-229 of the Code of Virginia, relating to powers of the Board.*

3 [H 1487]

4 Approved

5 **Be it enacted by the General Assembly of Virginia:**6 **1. That § 32.1-229 of the Code of Virginia is amended and reenacted as follows:**

7 § 32.1-229. General powers of Board.

8 A. The Board is authorized to:

9 1. Establish a program of effective regulation of sources of radiation for the protection of the public
10 health and safety, including a program of education and technical assistance relating to radon which is
11 targeted to those areas of the Commonwealth known to have high radon levels.12 2. Establish a program to promote the orderly regulation of radiation within the Commonwealth,
13 among the states and between the federal government and the Commonwealth and to facilitate
14 intergovernmental cooperation with respect to use and regulation of sources of radiation to the end that
15 duplication of regulation may be minimized.16 3. Establish a program to permit maximum utilization of sources of radiation consistent with the
17 public health and safety.18 4. Adopt regulations providing for (i) licenses to use, manufacture, produce, transfer, receive, acquire,
19 own or possess quantities of, or devices or equipment utilizing, by-product, source, special nuclear
20 materials, or other radioactive material occurring naturally or produced artificially, (ii) registration of the
21 possession of a source of radiation and of information with respect thereto and (iii) regulation of
22 by-product, source and special nuclear material.23 5. Encourage, participate in and conduct studies, investigations, training, research and demonstrations
24 relating to control of sources of radiation.25 6. Develop programs for responding adequately to radiation emergencies and coordinate such
26 programs with the Department of Emergency Services.27 7. Maintain, revise as necessary, and make available to the public a list of persons that have been
28 listed by the United States Environmental Protection Agency as proficient to offer screening, testing or
29 mitigation for radon.30 8. Establish fee schedules, which shall not exceed comparable federal Nuclear Regulatory
31 Commission fees, for the licensure and inspection of radioactive materials.32 9. Adopt regulations for the imposition of civil penalties pursuant to § 32.1-27 C for violations of
33 law, regulation or licensure conditions by persons licensed for the use or possession of radioactive
34 materials.35 B. The Board shall require registration, inspection and certification for all diagnostic and therapeutic
36 X-ray machines used in the healing arts. In addition, the Board may require the registration, inspection
37 and certification of other machines emitting radiation or utilizing radiation for patients, consumers,
38 workers or the general public, except those machines operated by remote control which are not
39 accessible to human beings during operation.40 C. Pursuant to its powers enumerated in § 32.1-25, the Board shall provide for scheduled and
41 random unannounced inspections of facilities and physicians' offices that provide mammography services
42 to ensure compliance with laws, regulations or conditions specified by the Board.
