81 consistent with these staffing levels.

95 courses, and participation in academic year Governor's Schools.

97 action plans for increasing educational performance in those school divisions and schools that are  
98 identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor  
99 the implementation of and report to the Board of Education on the effectiveness of the corrective actions  
100 taken to improve the educational performance in such school divisions and schools.

102 Schools accredited with a warning shall be given priority for such assistance, which shall include an  
103 analysis of relevant school data and the development and implementation of improvement plans to assist  
104 such schools in improving their accreditation status.

105 E. In order to assess the educational progress of students, the Board of Education shall also (i)  
106 develop appropriate assessments, which may include criterion-referenced tests and alternative assessment

113 F. Each local school board shall maintain schools which meet the standards of accreditation as  
114 prescribed by the Board of Education. The accreditation status of all schools in each local school  
115 division shall be reviewed annually in public session. Within the time specified by the Board of  
116 Education, each school board shall submit corrective action plans for any schools within its school  
117 division that have been designated as not meeting the criteria for determining effectiveness as approved  
118 by the Board.

119 G. Each local school board shall also provide teachers and principals with (i) periodic in-service  
120 training in preparing tests and other assessment measures and (ii) methods for assessing the progress of  
121 individual students, including Standards of Learning assessment materials or other criterion-referenced

tests which match locally developed objectives.

Each school board shall analyze and report annually, in compliance with any criteria which may be established by the Board of Education, the results from the Virginia State Assessment Program, the Standards of Learning Assessments, and the Virginia State Literacy Testing Program to the public.

I. To assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools, and from such funds as may be appropriated for such purpose, there shall be established within the Department of Education a unit to conduct evaluative studies and to provide the resources and technical assistance to increase the capacity of school divisions to deliver quality instruction. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than seventy percent passing rate on (i) all three Literacy Passport tests by students taking these tests for the first time or (ii) the Standards of Learning assessment tests.
