Referred to Committee on Education and Health

Be it enacted by the General Assembly of Virginia:

1. That §§ 22.1-298, 22.1-299, and 22.1-303 of the Code of Virginia are amended and reenacted, and that the Code of Virginia is amended by adding a section numbered 22.1-299.3 as follows:

§ 22.1-298. Regulations governing licensure.

A. The Board of Education shall, by regulation, prescribe the requirements for licensure of teachers. Regardless of the authority of any other agency of the Commonwealth to approve educational programs, only the Board of Education shall have the authority to license teachers to be regularly employed by school boards, including those teachers employed to provide nursing education.

B. Such regulations shall include a requirement that:

1. Every teacher seeking initial licensure take a professional teacher's examination prescribed by the Board.

2. Persons seeking licensure on and after July 1, 2000, complete study in attention deficit disorder and gifted education, including the use of multiple criteria to identify gifted students.

3. Persons seeking initial licensure on and after July 1, 2002, complete study in, among other things, (i) methods of improving communication between schools and families; (ii) ways of increasing family involvement in student learning at home and in school; and (iii) the Standards of Learning.

4. Persons seeking licensure with endorsements as teachers of the blind and visually impaired on and after July 1, 2000, demonstrate proficiency in reading and writing Braille;

5. A requirement that persons seeking initial licensure on and after July 1, 2003, complete study in instructional methods tailored to promote student academic progress and effective preparation for the Standards of Learning end-of-course and end-of-grade assessments;

6. A requirement that persons seeking licensure renewal on and after July 1, 2004, receive training in instructional methods tailored to promote student academic progress and effective preparation for the Standards of Learning end-of-course and end-of-grade assessments; and

7. A requirement that, on and after July 1, 2003, persons seeking initial licensure or license renewal as teachers demonstrate proficiency in the use of educational technology for instruction.

C. Notwithstanding any provision of law to the contrary, the Board may provide for the issuance of a provisional license, valid for a period not to exceed three years, to any person who does not meet the requirements of this section or any other requirement for licensure imposed by law.

D. The Board's licensure regulations shall also require that licensure for superintendents and principals, on and after July 1, 2000, be contingent upon acquiring the skills established in the Board's leadership standards.

E. Persons seeking initial licensure who graduate from Virginia institutions of higher education shall, on and after July 1, 2002, only be licensed as instructional personnel by the Board of Education if the endorsement areas offered at such institutions have been assessed by a national accrediting agency or by a state approval process, with final accreditation by the Board of Education.

F. The Board shall prescribe a professional teacher's examination for administration by Virginia's public institutions of higher education as provided in § 23-9.2:3.4 to persons seeking entry into teacher education programs in such public institutions and shall establish a minimum passing score for such examination. The examination shall be sufficiently rigorous and the minimum score set as necessary to ensure that candidates have adequate academic and professional preparation to teach.

Candidates who fail to achieve the minimum score established by the Board shall not be denied entrance into the relevant teacher education programs solely on the basis of such failure and shall have the opportunity to address any deficiencies if enrolled in such program. Before completing any approved teacher education program, candidates must achieve the minimum score on the test prescribed by the Board.

The Board of Education, in consultation with the State Council on Higher Education, shall develop guidelines for performance reports to be submitted by the public institutions of higher education pursuant to § 23-9.2:3.4. Such reports shall include annual data on the pass rates, by institution, of graduates of Virginia's institutions of higher education taking the state licensure examination and shall
