VIRGINIA ACTS OF ASSEMBLY -- 2001 SESSION

CHAPTER 641

An Act to amend and reenact §§ 24.2-629, 24.2-802, and 24.2-814 of the Code of Virginia, relating to electronic voting devices, election recount procedures, and ascertaining votes cast for candidates.

[H 1843]

Approved March 25, 2001

Be it enacted by the General Assembly of Virginia:

- 1. That §§ 24.2-629, 24.2-802, and 24.2-814 of the Code of Virginia are amended and reenacted as follows:
 - § 24.2-629. Authorized use of electronic systems and ballots.
- A. Any person, firm, or corporation hereinafter referred to as the "vendor," manufacturing, owning, or offering for sale any electronic voting or counting system and ballots designed to be used with such equipment may apply to the State Board, in the manner prescribed by the Board, to have examined a production model of such equipment and the ballots used with it. In addition to any other materials which may be required, a current statement of the financial status of the vendor, including any assets and liabilities, shall be filed with the Board; if the vendor is not the manufacturer of the equipment for which application is made, such a statement shall also be filed for the manufacturer. These statements shall be exempt from the provisions of the Virginia Freedom of Information Act (§ 2.1-340 et seq.). The Board shall also require, at a site of its choosing, a demonstration of such system and ballots and may require that a production model of the system and a supply of ballots be provided to the Board for testing purposes.
- B. The provisions of this title pertaining to mechanical voting devices and ballots shall be deemed applicable to such equipment and ballots provided that (i) the counting equipment used with punchcard or mark sense ballots shall not be required to prevent a voter from voting for a greater number of candidates than he is lawfully entitled to; (ii) the provisions of this title pertaining to ballot squares shall not be applicable to punchcard or mark sense ballots; and (iii) any system approved pursuant to this title shall segregate ballots containing write-in votes from all others. Every electronic voting system shall ensure voting in absolute secrecy, and systems requiring the voter to vote a ballot which is inserted in an electronic counting device shall provide for secrecy of the ballot and a method to conceal the voted ballot. Systems requiring the voter to vote a ballot that is inserted in an electronic counting device shall report, if possible, the number of ballots on which a voter voted for a lesser number of candidates for an office than the number he was lawfully entitled to vote and the number of ballots on which a voter voted for a greater number of candidates than the number he was lawfully entitled to vote. Electronic voting devices shall be programmable, if possible, to allow such undervoted and overvoted ballots to be separated when necessary.
- C. After its examination of the equipment, ballots, and other materials submitted by the vendors, the Board shall prepare and file in its office a report of its finding as to (i) the apparent capability of such equipment to accurately count, register, and report votes; (ii) whether the system can be conveniently used without undue confusion to the voter; (iii) its accessibility to voters with disabilities; (iv) whether the system can be safely used without undue potential for fraud; (v) the ease of its operation and transportation by voting equipment custodians and officers of election; (vi) the financial stability of the vendor and manufacturer; (vii) whether the system meets the requirements of this title; and (viii) whether, in the opinion of the Board, the potential for approval of such system is such as to justify further examination and testing.
- D. If the Board determines that there is such potential and prior to its final determination as to approval or disapproval of such system, the Board shall obtain a report by an independent electronics or engineering consultant as to (i) whether the system accurately counts, registers, and reports votes; (ii) whether it is capable of storing and retaining existing votes in a permanent memory in the event of power failure during and after the election; (iii) the number of separate memory capabilities for the storage of recorded votes; (iv) its mechanical and electronic perfections and imperfections; (v) the audit trail provided by the system; (vi) the anticipated frequency of repair; (vii) the ease of repair; (viii) the anticipated life of the equipment; (ix) its potential for fraudulent use; (x) its accessibility to voters with disabilities; (xi) the ease of its programming, transportation, and operation by voting equipment custodians and officers of election; and (xii) any other matters deemed necessary by the Board. Failure by an applicant to cooperate with the consultant by furnishing information and production equipment and ballots requested shall be deemed a withdrawal of the application, but nothing in this section shall require the disclosure of trade secrets by the applicant. If such trade secrets are essential to the proper analysis of the system and are provided for that reason, the consultant shall subscribe to an oath subject to the penalty for perjury that he will neither disclose nor make use of such information except as

necessary for the system analysis. The report of the consultant shall be filed in the office of the Board.

E. If the Board determines that there is potential for approval of the system and prior to its final determination, the Board shall also require that the system be tested in an actual election in one or more counties or cities. Its use at such election shall be as valid for all purposes as if it had been legally approved by the Board and adopted by the counties or cities.

F. If, following testing, the Board approves any electronic system and its ballots for use, the Board shall so notify the electoral boards of each county and city. Systems so approved may be adopted for use at elections as herein provided. No form of electronic system and ballots not so approved shall be adopted by any county or city. Any electronic system and ballots approved for use by the Board shall be deemed to meet the requirements of this title, and their use in any election shall be valid.

§ 24.2-802. Procedure for recount.

A. On or before September 1, 2001, the State Board of Elections shall promulgate standards for (i) the proper handling and security of voting and counting devices, ballots, and other materials required for a recount, (ii) accurate determination of votes based upon objective evidence and taking into account the counting device and form of ballots approved for use in the Commonwealth, and (iii) any other matters that will promote a timely and accurate resolution of the recount. The chief judge of the circuit court or the full recount court may, consistent with State Board of Elections standards, resolve disputes over the application of the standards and direct all other appropriate measures to ensure the proper conduct of the recount.

A. B. Within seven days of the filing of the petition, the chief judge of the circuit court shall call a preliminary hearing at which (i) motions may be disposed of and (ii) the rules of procedure may be fixed, both subject to review by the full court. As part of the preliminary hearing, the chief judge may permit the petitioner and his counsel, together with each other party and his counsel and at least two members of the electoral board and the custodians, to examine any mechanical or direct electronic voting device of the type that prints returns when the print-out sheets are not clearly legible. If the number of absentee votes cast in the election is sufficient to change the result of the election, the petitioner and his counsel and each other party and their counsel, under supervision of the electoral board and its agents, shall also have access to absentee ballots cast in the election for examination purposes. The petitioner and his counsel and each other party and their counsel under supervision of the electoral board and its agents shall also have access to pollbooks and other materials used in the election for examination purposes, provided that individual ballots cast in the election shall not be examined at the preliminary hearing. The chief judge during the preliminary hearing shall review all security measures taken for all ballots and voting devices and direct, as he deems necessary, all appropriate measures to ensure proper security to conduct the recount.

The chief judge, subject to review by the full court, may set the place or places for the recount and may order the delivery of election materials to a central location and the transportation of voting devices to a central location in each county or city under appropriate safeguards.

After the full court is appointed under § 24.2-801, it shall call a hearing at which all motions shall be disposed of and the rules of procedure shall be fixed finally. The court shall call for the advice and cooperation of the State Board or any local electoral board, as appropriate, and such boards shall have the duty and authority to assist the court. The court shall fix procedures that shall provide for the accurate determination of votes in the election. Commencing upon the filing of the recount, nothing shall prevent the discovery or disclosure of any evidence that could be used pursuant to § 24.2-803 in contesting the results of an election.

B. C. The court shall permit each candidate, or petitioner and governing body or chief executive officer, to select an equal number of the officers of election to be recount officials and to count ballots, or in the case of mechanical or direct electronic voting devices to redetermine the vote. The number shall be fixed by the court and be sufficient to conduct the recount within a reasonable period. The court may permit each party to the recount to submit a list of alternate officials in the number the court directs. There shall be at least one team of recount officials to recount paper ballots and to redetermine the vote cast on mechanical or direct electronic devices of the type that prints returns for the election district at large in which the recount is being held. There shall be at least one team from each locality in the election district to redetermine the vote on other types of mechanical voting devices. There shall be at least one team from each locality using electronic counting devices to insert the ballots into one or more counting devices. The counting devices shall be programmed to count only votes cast for parties to the recount or for or against the question in a referendum recount. Each team shall be composed of one representative of each party.

The court may provide that if, at the time of the recount, any recount official fails to appear, the remaining recount officials present shall appoint substitute recount officials who shall possess the same qualifications as the recount officials for whom they substitute. The court may select pairs of recount coordinators to serve for each county or city in the election district who shall be members of the county or city electoral board and represent different political parties. The court shall have authority to summon such officials and coordinators. On request of a party to the recount, the court shall allow each party to appoint one representative observer for each team of recount officials. The expenses of its

representatives shall be borne by each party.

C. D. The court (i) shall supervise the recount and (ii) may require delivery of any or all pollbooks used, any or all ballots cast at the election, and absentee ballots sought to be cast but ruled invalid or may assume supervision thereof through the recount coordinators and officials. In the case of ballots voted by insertion into electronic counting devices, the court shall order that the devices be programmed, if possible, to identify ballots on which the device detected that a voter voted for a lesser number of candidates for an office than the number he was lawfully entitled to vote and ballots on which a voter voted for a greater number of candidates than the number he was lawfully entitled to vote, and that all ballots be reinserted in the counting device to separate such undervoted and overvoted ballots. The court shall permit the parties, recount officials, and counsel to examine all paper ballots cast in the election, including paper ballots, ballots cast on mechanical voting devices, undervoted and overvoted ballots counted on electronic counting devices, and all absentee ballots sought to be cast but ruled invalid, for the purpose of ascertaining the number of ballots cast for each of the party candidates or for or against the question. At the conclusion of the recount of each precinct, the recount officials shall write down (i) (a) in the case of mechanical or direct electronic voting devices the redetermination of the vote and (ii) (b) the number of valid ballots cast, this number being obtained from the ballots cast in the precinct, or from the ballots cast as shown on the statement of results if the ballots cannot be found, for each of the two candidates or for and against the question. They shall submit the ballots or the statement of results used, as to the validity of which questions exist, to the court. The written statement of any one recount official challenging a ballot shall be sufficient to require its submission to the court. If, on all mechanical or direct electronic voting devices, the number of persons voting in the election, or the number of votes cast for the office or on the question, totals more than the number of names on the pollbooks of persons voting on the devices, the figures recorded by the devices shall be

At the conclusion of the recount of all precincts, after allowing the parties to inspect the questioned ballots, and after hearing arguments, the court shall rule on the validity of all questioned ballots and votes. After determining all matters pertaining to the recount and redetermination of the vote as raised by the parties, the court shall certify to the State Board and the electoral board or boards (i) (1) the vote for each party to the recount and declare the person who received the higher number of votes to be nominated or elected, as appropriate, or (ii) (2) the votes for and against the question and declare the outcome of the referendum.

- D. E. Costs of the recount shall be assessed against the counties and cities comprising the election district when (i) the candidate petitioning for the recount is declared the winner; (ii) the petitioners in a recount of a referendum win the recount; or (iii) there was between the candidate apparently nominated or elected and the candidate petitioning for the recount a difference of not more than one-half of one percent of the total vote cast for the two such candidates as determined by the State Board or electoral board prior to the recount. Otherwise the costs of the recount shall be assessed against the candidate petitioning for the recount or the petitioners in a recount of a referendum. If more than one candidate petitions for a recount, the court may assess costs in an equitable manner between the counties and cities and any such candidate if both are liable for costs under this subsection. Costs incurred to date shall be assessed against any candidate or petitioner who defaults or withdraws his petition.
- E. The court shall determine the costs of the recount subject to the following limitations: (i) no per diem payment shall be assessed for salaried election officials; (ii) no per diem payment to officers of election serving as recount officials shall exceed two-thirds of the per diem paid such officers by the county or city for service on election day; and (iii) per diem payments to alternates shall be allowed only if they serve.
- F. G. Any petitioner who may be assessed with costs under subsection F G of this section shall post a bond with surety with the court in the amount of ten dollars per precinct in the area subject to recount. If the petitioner wins the recount, the bond shall not be forfeit. If the petitioner loses the recount, the bond shall be forfeit only to the extent of the assessed costs. If the assessed costs exceed the bond, he shall be liable for such excess.
 - G. H. The recount proceeding shall be final and not subject to appeal.

§ 24.2-814. Contest following recount.

A candidate in a primary or an election to office, who was originally declared a winner and subsequently loses as the result of a recount, may file either (i) notice of his intent to contest the result in accordance with § 24.2-803 or § 24.2-804 or (ii) a written complaint pursuant to § 24.2-805 or § 24.2-806. Such notice or complaint shall be filed within ten days following the date of the entry of the order of the recount court pursuant to subsection $\bigcirc D$ of § 24.2-802.

In the case of a contest pursuant to § 24.2-803 or § 24.2-804, the times for filing the answer, petition, and reply and for taking depositions and affidavits shall be set by the Committee on Privileges and Elections of the appropriate house. The Committee may consider the contestant's and contestee's recommendations for the procedural schedule.
