

2001 SESSION

INTRODUCED

016095544

SENATE BILL NO. 1007

Offered January 10, 2001

Prefiled January 9, 2001

A BILL to amend and reenact § 32.1-65 of the Code of Virginia, relating to required tests for infants.

Patrons—Ticer, Byrne, Couric, Miller, Y.B., Potts, Puller and Saslaw; Delegates: Albo, Brink and Plum

Referred to Committee on Education and Health

Be it enacted by the General Assembly of Virginia:

1. That § 32.1-65 of the Code of Virginia is amended and reenacted as follows:

§ 32.1-65. Infants to be subjected to tests.

In order to prevent mental retardation, permanent disability or death, every infant who is born in this Commonwealth shall be subjected to a screening test for biotinidase deficiency, phenylketonuria, hypothyroidism, homocystinuria, galactosemia, *congenital adrenal hyperplasia*, and Maple Syrup Urine Disease, and each infant determined at risk shall be subject to a screening test for sickle cell diseases effective July 1, 1989. Any infant whose parent or guardian objects thereto on the grounds that such test conflicts with his religious practices or tenets shall not be required to receive a screening test. The physician, nurse or midwife in charge of the delivery of a baby or, if none, the first attending physician shall cause such test to be performed. The screening tests shall be performed by the Division of Consolidated Laboratory Services or any other laboratory the Department of Health has contracted with to provide this service.

The program for screening infants for sickle cell diseases shall be conducted in addition to the programs provided for in Article 8 (§ 32.1-68 et seq.) of this chapter.
