 57 2. In the event that the cost of any of the foregoing capital projects shall exceed the amount
 58 appropriated therefor, the Director of the Department of Planning and Budget is hereby authorized,
 59 upon request of the affected agency or institution, to approve an increase in appropriation authority of
 60 not more than ten percent of the amount designated for such project, from any available nongeneral
 61 fund revenues, provided that such increase shall not constitute an increase in debt issuance
 62 authorization for such capital project. Furthermore, the Director of the Department of Planning and

 64 investment of bond proceeds in addition to the amount designated for such capital project.
