Referred to Committee on Education

**Be it enacted by the General Assembly of Virginia:**

**1. That § 22.1-253.13:3, as it is currently effective and as it shall become effective, of the Code of Virginia is amended and reenacted as follows:**

§ 22.1-253.13:3. (Effective until July 1, 2003) Standard 3. Accreditation, other standards and evaluation.

A. The General Assembly recognizes the need for the Board of Education to prescribe requirements to ensure that student progress is measured and that school boards and school personnel are accountable.

B. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 9-6.14:1 et seq.) which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, pupil personnel services, special education program standards, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

In establishing course and credit requirements for a high school diploma, the Board shall:

1. Provide for the selection of integrated learning courses meeting the Standards of Learning and approved by the Board to satisfy graduation credit requirements which shall include Standards of Learning testing, as necessary;

2. Establish the requirements for a standard or advanced studies high school diploma that shall include one credit in fine, performing, or practical arts and one credit in United States and Virginia history. The requirements for a standard high school diploma may include a concentration of courses selected from a variety of options that may be planned to ensure the completion of a focused sequence of elective courses, leading to further education or preparation for employment developed by the school division consistent with Board of Education guidelines and as approved by the local school board;

3. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or advanced studies diploma, that students completing elective classes into which the Standards of Learning for any required course have been integrated may take the relevant Standards of Learning test for the relevant required course and receive, upon achieving a satisfactory score on the specific Standards of Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the Board's requirement for verified credit for the required course;

4. Establish a procedure to facilitate the acceleration of students that allows qualified students, with the recommendation of the division superintendent, without completing the 140-hour class, to obtain credit for such class upon demonstration of mastery of the course content and objectives. Having received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall preclude relevant school division personnel from enforcing compulsory attendance in public schools; and

5. Authorize, as an elective in grades nine through twelve with appropriate credits toward graduation, a comparative religion class that focuses on the basic tenets, history, and religious observances and rites of world religions.

In the exercise of its authority to recognize exemplary academic performance by providing for diploma seals, the Board shall establish by July 1, 2000, criteria for awarding a diploma seal for advanced mathematics and technology for the standard and advanced studies diplomas. The Board shall consider including criteria for (i) technology courses; (ii) technical writing, reading, and oral communication skills; (iii) technology-related practical arts training; and (iv) industry, professional, and trade association national certifications.

The Board shall include in the student outcome measures which are required by the Standards for Accreditation, end-of-course or end-of-grade tests for various grade levels and classes, as determined by the Board, in accordance with the Standards of Learning. These Standards of Learning assessments shall include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics,

60 In revising the standards for accreditation, the Board shall seek to set pupil-teacher ratios for  
61 educable mentally retarded (EMR) pupils that do not exceed the pupil-teacher ratios for self-contained  
62 classes for pupils with specific learning disabilities. The Board shall review annually the accreditation  
63 status of all schools in the Commonwealth.

64 The Board's regulations on accrediting schools shall include in the minimum staffing requirements,  
65 according to the type of school and student enrollment, requirements for employment of (a) principals in  
66 elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle  
67 schools, one full-time, to be employed on a twelve-month basis; principals in high schools, one

83 board. A combined school, such as kindergarten through twelve, shall meet at all grade levels the  
84 staffing requirements for the highest grade level in that school; this requirement shall apply to all staff,  
85 except for guidance counselors, and shall be based on the school's total enrollment; guidance counselor  
86 staff requirements shall, however, be based on the enrollment at the various school organization levels,  
87 i.e., middle or high school. The Board of Education may grant waivers from these staffing levels upon  
88 request from local school boards seeking to implement experimental or innovative programs that are not  
89 consistent with these staffing levels.

90 C. The Board shall also establish requirements for licensure of teachers, principals, supervisors and  
91 other professional staff and determine eligibility for appointment as a local division superintendent.

92 D. The Superintendent of Public Instruction shall develop and the Board of Education shall approve  
93 criteria for determining and recognizing educational performance in the Commonwealth's public school  
94 divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation  
95 process and shall include student outcome measurements. One year following the approval by the Board  
96 of such criteria, the Superintendent of Public Instruction shall annually identify to the Board those  
97 school divisions and schools that exceed or do not meet the approved criteria. Such identification shall  
98 include an analysis of the strengths and weaknesses of public education programs in the various school  
99 divisions in Virginia and recommendations to the General Assembly for further enhancing student  
100 learning uniformly across the Commonwealth. In recognizing educational performance in the school  
101 divisions, the Board shall include consideration of special school division accomplishments, such as  
102 numbers of dual enrollments and students in Advanced Placement and International Baccalaureate  
103 courses, and participation in academic year Governor's Schools.

104 The Superintendent of Public Instruction shall assist local school boards in the implementation of  
105 action plans for increasing educational performance in those school divisions and schools that are  
106 identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor  
107 the implementation of and report to the Board of Education on the effectiveness of the corrective actions  
108 taken to improve the educational performance in such school divisions and schools.

109 The Department of Education shall conduct technical assistance visits for local school divisions.  
110 Schools accredited with a warning shall be given priority for such assistance, which shall include an  
111 analysis of relevant school data and the development and implementation of improvement plans to assist  
112 such schools in improving their accreditation status.

113 E. In order to assess the educational progress of students, the Board of Education shall also (i)  
114 develop appropriate assessments, which may include criterion-referenced tests and alternative assessment  
115 instruments which may be used by classroom teachers; (ii) prescribe and provide measures, which may  
116 include nationally normed tests, to be designated as the Virginia State Assessment Program, which shall  
117 be used to identify students who score in the bottom quartile at selected grade levels; and (iii) prescribe  
118 and provide literacy tests in reading, writing and mathematics which shall be administered to students in  
119 grade six and to students who have not successfully passed them in grades seven and eight. The Board  
120 of Education is authorized to pursue all available civil remedies for breaches in test security.

Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

*E1. The Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle and high school educators to submit recommendations for improvements relating to the Standards of Learning [ , when under review by the Board according to its established schedule, ] and related assessments required by the Standards of Quality pursuant to Chapter 13.2 of this Title (§ 22.1-253.13:1 et seq.). Such website shall facilitate the [ ~~anonymous~~ ] submission of recommendations by educators.*

F. Each local school board shall maintain schools that meet the standards of accreditation as prescribed by the Board of Education. The accreditation status of all schools in each local school division shall be reviewed annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the criteria for determining effectiveness as approved by the Board.

G. Each local school board shall also provide teachers and principals with (i) periodic in-service training in preparing tests and other assessment measures and (ii) methods for assessing the progress of individual students, including Standards of Learning assessment materials or other criterion-referenced tests that match locally developed objectives.

H. In order to assess the educational progress of students as individuals and as groups, each local school board shall require the administration of appropriate assessments, which may include criterion-referenced tests, teacher-made tests and alternative assessment instruments and shall include the Virginia State Assessment Program, the Virginia State Literacy Testing Program, the Standards of Learning Assessments, and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Virginia State Assessment Program, the Standards of Learning Assessments, and the Virginia State Literacy Testing Program to the public.

I. To assist school divisions in implementing those programs and practices that will enhance pupil academic performance and improve family and community involvement in the public schools, and from such funds as may be appropriated for such purpose, there shall be established within the Department of Education a unit to conduct evaluative studies and to provide the resources and technical assistance to increase the capacity of school divisions to deliver quality instruction. Such unit shall identify and analyze effective instructional programs and practices and professional development initiatives; evaluate the success of programs encouraging parental and family involvement; assess changes in student outcomes prompted by family involvement; and collect and disseminate among school divisions information regarding effective instructional programs and practices, initiatives promoting family and community involvement, and potential funding and support sources. Such unit may also provide resources supporting professional development for administrators and teachers. In providing such information, resources, and other services to school divisions, the unit shall give priority to those divisions demonstrating a less than seventy percent passing rate on (i) all three Literacy Passport tests by students taking these tests for the first time or (ii) the Standards of Learning assessment tests.
