2002 SESSION

022814986 1 HOUSE BILL NO. 91 2 AMENDMENT IN THE NATURE OF A SUBSTITUTE 3 (Proposed by the House Committee on Agriculture, Chesapeake and Natural Resources 4 on January 23, 2002) 5 6 (Patron Prior to Substitute—Delegate Welch) A BILL to amend and reenact § 62.1-44.15 of the Code of Virginia, relating to powers and duties of 7 the State Water Control Board. Be it enacted by the General Assembly of Virginia: 8 9 1. That § 62.1-44.15 of the Code of Virginia is amended and reenacted as follows: 10 § 62.1-44.15. Powers and duties. 11 It shall be the duty of the Board and it shall have the authority: 12 (1) [Repealed.] (2) To study and investigate all problems concerned with the quality of state waters and to make 13 14 reports and recommendations. 15 (2a) To study and investigate methods, procedures, devices, appliances, and technologies which could 16 assist in water conservation or water consumption reduction. 17 (2b) To coordinate its efforts toward water conservation with other persons or groups, within or without the Commonwealth. 18 (2c) To make reports concerning, and formulate recommendations based upon, any such water 19 20 conservation studies to ensure that present and future water needs of the citizens of the Commonwealth 21 are met. 22 (3a) To establish such standards of quality and policies for any state waters consistent with the 23 general policy set forth in this chapter, and to modify, amend or cancel any such standards or policies 24 established and to take all appropriate steps to prevent quality alteration contrary to the public interest or to standards or policies thus established, except that a description of provisions of any proposed standard 25 or policy adopted by regulation which are more restrictive than applicable federal requirements, together 26 with the reason why the more restrictive provisions are needed, shall be provided to the standing 27 committee of each house of the General Assembly to which matters relating to the content of the 28 29 standard or policy are most properly referable. The Board shall, from time to time, but at least once 30 every three years, hold public hearings pursuant to subsection B of § 2.2-4007 but, upon the request of 31 an affected person or upon its own motion, hold hearings pursuant to § 2.2-4009, for the purpose of 32 reviewing the standards of quality, and, as appropriate, adopting, modifying, or canceling such standards. Whenever the Board considers the adoption, modification, amendment or cancellation of any standard, it 33 34 shall give due consideration to, among other factors, the economic and social costs and benefits which 35 can reasonably be expected to obtain as a consequence of the standards as adopted, modified, amended 36 or cancelled. The Board shall also give due consideration to the public health standards issued by the 37 Virginia Department of Health with respect to issues of public health policy and protection. If the Board 38 does not follow the public health standards of the Virginia Department of Health, the Board's reason for 39 any deviation shall be made in writing and published for any and all concerned parties. 40 (3b) Except as provided in subdivision (3a), such standards and policies are to be adopted or modified, amended or cancelled in the manner provided by the Administrative Process Act (§ 2.2-4000 41 et seq.). 42 43 (4) To conduct or have conducted scientific experiments, investigations, studies, and research to 44 discover methods for maintaining water quality consistent with the purposes of this chapter. To this end the Board may cooperate with any public or private agency in the conduct of such experiments, 45 investigations and research and may receive in behalf of the Commonwealth any moneys which any 46 47 such agency may contribute as its share of the cost under any such cooperative agreement. Such moneys **48** shall be used only for the purposes for which they are contributed and any balance remaining after the 49 conclusion of the experiments, investigations, studies, and research, shall be returned to the contributors. 50 (5) To issue, revoke or amend certificates under prescribed conditions for: (a) the discharge of 51 sewage, industrial wastes and other wastes into or adjacent to state waters; (b) the alteration otherwise of the physical, chemical or biological properties of state waters; (c) excavation in a wetland; or (d) on and 52 53 after October 1, 2001, the conduct of the following activities in a wetland: (i) new activities to cause 54 draining that significantly alters or degrades existing wetland acreage or functions, (ii) filling or dumping, (iii) permanent flooding or impounding, or (iv) new activities that cause significant alteration 55 or degradation of existing wetland acreage or functions. 56 (5a) All certificates issued by the Board under this chapter shall have fixed terms. The term of a 57 58

HB91H1

Virginia Pollution Discharge Elimination System permit shall not exceed five years. The term of a Virginia Water Protection Permit shall be based upon the projected duration of the project, the length of

7/29/22 19:3

59

60 any required monitoring, or other project operations or permit conditions; however, the term shall not exceed fifteen years. The term of a Virginia Pollution Abatement permit shall not exceed ten years, 61 except that the term of a Virginia Pollution Abatement permit for confined animal feeding operations 62 63 shall be ten years. The Department of Environmental Quality shall inspect all facilities for which a 64 Virginia Pollution Abatement permit has been issued at least once every five years, except that the 65 Department shall inspect all facilities covered by the Virginia Pollution Abatement permit for confined 66 animal feeding operations annually. Department personnel performing inspections of confined animal feeding operations shall be certified under the voluntary nutrient management training and certification 67 program established in § 10.1-104.2. The term of a certificate issued by the Board shall not be extended 68 by modification beyond the maximum duration and the certificate shall expire at the end of the term 69 70 unless an application for a new permit has been timely filed as required by the regulations of the Board and the Board is unable, through no fault of the permittee, to issue a new permit before the expiration 71 72 date of the previous permit.

(5b) Any certificate issued by the Board under this chapter may, after notice and opportunity for a hearing, be amended or revoked on any of the following grounds or for good cause as may be provided by the regulations of the Board:

1. The owner has violated any regulation or order of the Board, any condition of a certificate, any provision of this chapter, or any order of a court, where such violation results in a release of harmful substances into the environment or poses a substantial threat of release of harmful substances into the environment or presents a hazard to human health or the violation is representative of a pattern of serious or repeated violations which, in the opinion of the Board, demonstrates the owner's disregard for or inability to comply with applicable laws, regulations, or requirements;

82 2. The owner has failed to disclose fully all relevant material facts or has misrepresented a material
83 fact in applying for a certificate, or in any other report or document required under this law or under the
84 regulations of the Board;

85 3. The activity for which the certificate was issued endangers human health or the environment and can be regulated to acceptable levels by amendment or revocation of the certificate; or

4. There exists a material change in the basis on which the permit was issued that requires either a temporary or a permanent reduction or elimination of any discharge controlled by the certificate necessary to protect human health or the environment.

90 (5c) Any certificate issued by the Board under this chapter relating to dredging projects governed 91 under Chapter 12 (§ 28.2-1200 et seq.) or Chapter 13 (§ 28.2-1300 et seq.) of Title 28.2 may be 92 conditioned upon a demonstration of financial responsibility for the completion of compensatory 93 mitigation requirements. Financial responsibility may be demonstrated by a letter of credit, a certificate 94 of deposit or a performance bond executed in a form approved by the Board. If the U.S. Army Corps of Engineers requires demonstration of financial responsibility for the completion of compensatory 95 96 mitigation required for a particular project, then the mechanism and amount approved by the U.S. Army 97 Corps of Engineers shall be used to meet this requirement.

98 (6) To make investigations and inspections, to ensure compliance with any certificates, standards, 99 policies, rules, regulations, rulings and special orders which it may adopt, issue or establish and to 100 furnish advice, recommendations, or instructions for the purpose of obtaining such compliance. In recognition of §§ 32.1-164 and 62.1-44.18, the Board and the State Department of Health shall enter into 101 102 a memorandum of understanding establishing a common format to consolidate and simplify inspections of sewage treatment plants and coordinate the scheduling of the inspections. The new format shall 103 104 ensure that all sewage treatment plants are inspected at appropriate intervals in order to protect water quality and public health and at the same time avoid any unnecessary administrative burden on those 105 106 being inspected.

107 (7) To adopt rules governing the procedure of the Board with respect to: (a) hearings; (b) the filing
108 of reports; (c) the issuance of certificates and special orders; and (d) all other matters relating to
109 procedure; and to amend or cancel any rule adopted. Public notice of every rule adopted under this
110 section shall be by such means as the Board may prescribe.

111 (8a) To issue special orders to owners (i) who are permitting or causing the pollution, as defined by 112 § 62.1-44.3, of state waters to cease and desist from such pollution, (ii) who have failed to construct facilities in accordance with final approved plans and specifications to construct such facilities in 113 114 accordance with final approved plans and specifications, (iii) who have violated the terms and provisions of a certificate issued by the Board to comply with such terms and provisions, (iv) who have failed to 115 116 comply with a directive from the Board to comply with such directive, (v) who have contravened duly adopted and promulgated water quality standards and policies to cease and desist from such 117 contravention and to comply with such water quality standards and policies, (vi) who have violated the 118 119 terms and provisions of a pretreatment permit issued by the Board or by the owner of a publicly owned 120 treatment works to comply with such terms and provisions or (vii) who have contravened any applicable pretreatment standard or requirement to comply with such standard or requirement; and also to issue 121

HB91H1

such orders to require any owner to comply with the provisions of this chapter and any decision of theBoard.

124 (8b) Such special orders are to be issued only after a hearing with at least thirty days' notice to the 125 affected owners, of the time, place and purpose thereof, and they shall become effective not less than 126 fifteen days after service as provided in § 62.1-44.12; provided that if the Board finds that any such 127 owner is grossly affecting or presents an imminent and substantial danger to (i) the public health, safety 128 or welfare, or the health of animals, fish or aquatic life; (ii) a public water supply; or (iii) recreational, 129 commercial, industrial, agricultural or other reasonable uses, it may issue, without advance notice or 130 hearing, an emergency special order directing the owner to cease such pollution or discharge 131 immediately, and shall provide an opportunity for a hearing, after reasonable notice as to the time and 132 place thereof to the owner, to affirm, modify, amend or cancel such emergency special order. If an 133 owner who has been issued such a special order or an emergency special order is not complying with 134 the terms thereof, the Board may proceed in accordance with § 62.1-44.23, and where the order is based 135 on a finding of an imminent and substantial danger, the court shall issue an injunction compelling 136 compliance with the emergency special order pending a hearing by the Board. If an emergency special 137 order requires cessation of a discharge, the Board shall provide an opportunity for a hearing within 138 forty-eight hours of the issuance of the injunction.

(8c) The provisions of this section notwithstanding, the Board may proceed directly under
§ 62.1-44.32 for any past violation or violations of any provision of this chapter or any regulation duly
promulgated hereunder.

142 (8d) With the consent of any owner who has violated or failed, neglected or refused to obey any 143 regulation or order of the Board, any condition of a permit or any provision of this chapter, the Board 144 may provide, in an order issued by the Board against such person, for the payment of civil charges for 145 past violations in specific sums not to exceed the limit specified in § 62.1-44.32 (a). Such civil charges 146 shall be instead of any appropriate civil penalty which could be imposed under § 62.1-44.32 (a) and shall not be subject to the provisions of § 2.2-514. Such civil charges shall be paid into the state 147 148 treasury and deposited by the State Treasurer into the Virginia Environmental Emergency Response Fund pursuant to Chapter 25 (§ 10.1-2500 et seq.) of Title 10.1, excluding civil charges assessed for 149 150 violations of Article 9 (§ 62.1-44.34:8 et seq.) or 10 (§ 62.1-44.34:10 et seq.) of Chapter 3.1 of this title, 151 or a regulation, administrative or judicial order, or term or condition of approval relating to or issued 152 under those articles.

153 The amendments to this section adopted by the 1976 Session of the General Assembly shall not be 154 construed as limiting or expanding any cause of action or any other remedy possessed by the Board 155 prior to the effective date of said amendments.

(9) To make such rulings under §§ 62.1-44.16, 62.1-44.17 and 62.1-44.19 as may be required upon requests or applications to the Board, the owner or owners affected to be notified by certified mail as soon as practicable after the Board makes them and such rulings to become effective upon such notification.

(10) To adopt such regulations as it deems necessary to enforce the general water quality
management program of the Board in all or part of the Commonwealth, except that a description of
provisions of any proposed regulation which are more restrictive than applicable federal requirements,
together with the reason why the more restrictive provisions are needed, shall be provided to the
standing committee of each house of the General Assembly to which matters relating to the content of
the regulation are most properly referable.

166 (11) To investigate any large-scale killing of fish.

167 (a) Whenever the Board shall determine that any owner, whether or not he shall have been issued a 168 certificate for discharge of waste, has discharged sewage, industrial waste, or other waste into state 169 waters in such quantity, concentration or manner that fish are killed as a result thereof, it may effect 170 such settlement with the owner as will cover the costs incurred by the Board and by the Department of 171 Game and Inland Fisheries in investigating such killing of fish, plus the replacement value of the fish 172 destroyed, or as it deems proper, and if no such settlement is reached within a reasonable time, the 173 Board shall authorize its executive secretary to bring a civil action in the name of the Board to recover 174 from the owner such costs and value, plus any court or other legal costs incurred in connection with 175 such action.

(b) If the owner is a political subdivision of the Commonwealth, the action may be brought in any circuit court within the territory embraced by such political subdivision. If the owner is an establishment, as defined in this chapter, the action shall be brought in the circuit court of the city or the circuit court of the county in which such establishment is located. If the owner is an individual or group of individuals, the action shall be brought in the circuit court of the county in which such establishment is located. If the owner is an individual or group of individuals, the action shall be brought in the circuit court of the county in which such person or any of them reside.

(c) For the purposes of this subsection the State Water Control Board shall be deemed the owner of

183 the fish killed and the proceedings shall be as though the State Water Control Board were the owner of184 the fish. The fact that the owner has or held a certificate issued under this chapter shall not be raised as185 a defense in bar to any such action.

(d) The proceeds of any recovery had under this subsection shall, when received by the Board, be
applied, first, to reimburse the Board for any expenses incurred in investigating such killing of fish. The
balance shall be paid to the Board of Game and Inland Fisheries to be used for the fisheries'
management practices as in its judgment will best restore or replace the fisheries' values lost as a result
of such discharge of waste, including, where appropriate, replacement of the fish killed with game fish
or other appropriate species. Any such funds received are hereby appropriated for that purpose.

(e) Nothing in this subsection shall be construed in any way to limit or prevent any other actionwhich is now authorized by law by the Board against any owner.

(f) Notwithstanding the foregoing, the provisions of this subsection shall not apply to any owner who
adds or applies any chemicals or other substances that are recommended or approved by the State
Department of Health to state waters in the course of processing or treating such waters for public water
supply purposes, except where negligence is shown.

198 (12) To administer programs of financial assistance for planning, construction, operation, and
 199 maintenance of water quality control facilities for political subdivisions in this Commonwealth.

(13) To establish policies and programs for effective area-wide or basin-wide water quality control
and management. The Board may develop comprehensive pollution abatement and water quality control
plans on an area-wide or basin-wide basis. In conjunction with this, the Board, when considering
proposals for waste treatment facilities, is to consider the feasibility of combined or joint treatment
facilities and is to ensure that the approval of waste treatment facilities is in accordance with the water
quality management and pollution control plan in the watershed or basin as a whole. In making such
determinations, the Board is to seek the advice of local, regional, or state planning authorities.

(14) To establish requirements for the treatment of sewage, industrial wastes and other wastes that
are consistent with the purposes of this chapter; however, no treatment shall be less than secondary or
its equivalent, unless the owner can demonstrate that a lesser degree of treatment is consistent with the
purposes of this chapter.

211 (15) To promote and establish requirements for the reclamation and reuse of wastewater that are 212 protective of state waters and public health as an alternative to directly discharging pollutants into waters 213 of the state. The requirements shall address various potential categories of reuse and may include 214 general permits and provide for greater flexibility and less stringent requirements commensurate with the 215 quality of the reclaimed water and its intended use. The requirements shall be developed in consultation 216 with the Department of Health and other appropriate state agencies. This authority shall not be construed 217 as conferring upon the Board any power or duty duplicative of those of the State Board of Health.

(16) To establish and implement policies and programs to protect and enhance the Commonwealth's wetland resources. Regulatory programs shall be designed to achieve no net loss of existing wetland acreage and functions. Voluntary and incentive-based programs shall be developed to achieve a net resource gain in acreage and functions of wetlands. The Board shall seek and obtain advice and guidance from the Virginia Institute of Marine Science in implementing these policies and programs.

223 2. That the State Water Control Board shall promulgate regulations to implement the provisions 224 of this act to be effective within 280 days of its enactment.
