59 § 27-97. Adoption of Fire Prevention Code.

60 The Board of Housing and Community Development is hereby empowered to adopt and promulgate
61 a Statewide Fire Prevention Code which shall be cooperatively developed with the Fire Services Board
62 pursuant to procedures agreed to by the two Boards. The Fire Prevention Code shall prescribe
63 regulations to be complied with for the protection of life and property from the hazards of fire or
64 explosion and for the handling, storage, *sale* and use of *fireworks*, explosives or blasting agents, and
65 shall provide for the administration and enforcement of such regulations. The Fire Prevention Code shall
66 require manufacturers of *fireworks or* explosives, as defined in the Code, to register and report
67 information concerning their manufacturing facilities and methods of operation within the
68 Commonwealth in accordance with regulations adopted by the Board. In addition to conducting criminal
69 background checks pursuant to § 27-97.2, the Board shall also establish regulations for obtaining permits
70 for the manufacturing, storage, handling, use, or sales of *fireworks or* explosives. In the enforcement of
71 such regulations, the enforcing agency may issue annual permits for such activities to any state regulated
72 public utility. Such permits shall not apply to the storage, handling, or use of explosives or blasting
73 agents pursuant to the provisions of Title 45.1.

74 *The Fire Prevention Code shall prohibit any person, firm, or corporation from transporting,*
75 *manufacturing, storing, selling, offering for sale, exposing for sale, or buying, using, igniting, or*
76 *exploding any fireworks except for those persons, firms, or corporations that manufacture, store, market*
77 *and distribute fireworks for the sole purpose of fireworks displays permitted by an enforcement agency*
78 *or by any locality.*

79 The Fire Prevention Code shall supersede fire prevention regulations heretofore adopted by local
80 governments or other political subdivisions. Local governments are hereby empowered to adopt fire
81 prevention regulations that are more restrictive or more extensive in scope than the Fire Prevention Code
82 provided such regulations do not affect the manner of construction, or materials to be used in the
83 erection, alteration, repair, or use of a building or structure, including the voluntary installation of smoke
84 alarms and regulation and inspections thereof in commercial buildings where such smoke alarms are not
85 required under the provisions of the Code.

86 In formulating the Fire Prevention Code, the Board shall have due regard for generally accepted
87 standards as recommended by nationally recognized organizations including, but not limited to, standards
88 of the Southern Building Code Congress, the Building Officials and Code Administrators International,
89 Inc., the National Fire Protection Association, and recognized organizations issuing standards for the
90 protection of the public from the hazards of explosives and blasting agents. Such standards shall be
91 based on the companion document to the model building code referenced by the Uniform Statewide
92 Building Code.

93 The Fire Prevention Code shall require that buildings constructed prior to 1973 be maintained in
94 accordance with state fire and public building regulations in effect prior to March 31, 1986, and that any
95 building which is (i) more than seventy-five feet or more than six stories high and (ii) used, in whole or
96 in part, as a dormitory to house students by any public or private institution of higher education shall be
97 required to comply with the provisions of § 36-99.3. The Fire Prevention Code shall also require annual
98 fire drills in all buildings having floors used for human occupancy located more than seventy-five feet
99 above the lowest level of fire department vehicle access. The drills shall be conducted by building staff
100 personnel or the owner of the building in accordance with a plan approved by the appropriate fire
101 official and shall not affect other current occupants. The Board may modify, amend or repeal any Code
102 provisions as the public interest requires. Any such Code changes shall be developed in cooperation with
103 the Fire Services Board pursuant to procedures agreed to by the two Boards.

104 **2. That Chapter 11 (§§ 59.1-142 through 59.1-148) of Title 59.1 of the Code of Virginia is repealed.**
