INTRODUCED

HB1877

030269610 HOUSE BILL NO. 1877 1 Offered January 8, 2003 2 3 Prefiled January 7, 2003 4 5 A BILL to amend and reenact § 65.2-402.1 of the Code of Virginia, relating to workers' compensation; occupational disease presumptions. 6 Patron—Amundson 7 8 Referred to Committee on Commerce and Labor 9 10 Be it enacted by the General Assembly of Virginia: 1. That § 65.2-402.1 of the Code of Virginia is amended and reenacted as follows: 11 12 § 65.2-402.1. Presumption as to death or disability from infectious disease. 13 A. Hepatitis, meningococcal meningitis, tuberculosis or HIV causing the death of, or any health 14 condition or impairment resulting in total or partial disability of any (i) salaried or volunteer firefighter, 15 paramedic or emergency medical technician, (ii) member of the State Police Officers' Retirement 16 System, (iii) member of county, city or town police departments, (iv) sheriff or deputy sheriff, (v) Department of Emergency Management hazardous materials officer, (vi) city sergeant or deputy city 17 sergeant of the City of Richmond, (vii) Virginia Marine Police officer, (viii) game warden who is a 18 full-time sworn member of the enforcement division of the Department of Game and Inland Fisheries, 19 20 (ix) Capitol Police officer, or (x) special agent of the Department of Alcoholic Beverage Control appointed under the provisions of Chapter 1 (§ 4.1-100 et seq.) of Title 4.1 who has a documented 21 22 occupational exposure to blood or body fluids shall be presumed to be occupational diseases, suffered in 23 the line of government duty, that are covered by this title unless such presumption is overcome by a preponderance of competent evidence to the contrary. For purposes of this section, an occupational 24 exposure occurring on or after July 1, 2002, shall be deemed "documented" if the person covered under 25 this section gave notice, written or otherwise, of the occupational exposure to his employer, and an 26 27 occupational exposure occurring prior to July 1, 2002, shall be deemed "documented" without regard to 28 whether the person gave notice, written or otherwise, of the occupational exposure to his employer. 29 B. As used in this section: 30 "Blood or body fluids" means blood and body fluids containing visible blood and other body fluids 31 to which universal precautions for prevention of occupational transmission of blood-borne pathogens, as established by the Centers for Disease Control, apply. For purposes of potential transmission of hepatitis, 32 meningococcal meningitis, tuberculosis, or HIV the term "blood or body fluids" includes respiratory, 33 34 salivary, and sinus fluids, including droplets, sputum, saliva, mucous, and any other fluid through which 35 infectious airborne or blood-borne organisms can be transmitted between persons. "Hepatitis" means hepatitis A, hepatitis B, hepatitis non-A, hepatitis non-B, hepatitis C or any other strain of hepatitis generally recognized by the medical community. "HIV" means the medically recognized retrovirus known as human immunodeficiency virus, type I or type II, causing immunodeficiency syndrome. "Occupational exposure," in the case of hepatitis, meningococcal meningitis, tuberculosis or HIV, 41 means an exposure that occurs during the performance of job duties that places a covered employee at 42 risk of infection. C. Persons covered under this section who test positive for exposure to the enumerated occupational 43 44 diseases, but have not yet incurred the requisite total or partial disability, shall otherwise be entitled to make a claim for medical benefits pursuant to § 65.2-603, including entitlement to an annual medical 45 46 examination to measure the progress of the condition, if any, and any other medical treatment, prophylactic or otherwise. 47 48 D. Whenever any standard, medically-recognized vaccine or other form of immunization or 49 prophylaxis exists for the prevention of a communicable disease for which a presumption is established under this section, if medically indicated by the given circumstances pursuant to immunization policies 50 51 established by the Advisory Committee on Immunization Practices of the United States Public Health 52 Service, a person subject to the provisions of this section may be required by such person's employer to 53 undergo the immunization or prophylaxis unless the person's physician determines in writing that the immunization or prophylaxis would pose a significant risk to the person's health. Absent such written 54 55

declaration, failure or refusal by a person subject to the provisions of this section to undergo such immunization or prophylaxis shall disqualify the person from any presumption established by this 56 57 section.

58 E. The presumptions described in subsection A of this section shall only apply if persons entitled to

59 invoke them have, if requested by the appointing authority or governing body employing them, undergone preemployment physical examinations that (i) were conducted prior to the making of any 60 61 claims under this title that rely on such presumptions, (ii) were performed by physicians whose 62 qualifications are as prescribed by the appointing authority or governing body employing such persons, 63 (iii) included such appropriate laboratory and other diagnostic studies as the appointing authorities or 64 governing bodies may have prescribed, and (iv) found such persons free of hepatitis, meningococcal 65 meningitis, tuberculosis or HIV at the time of such examinations. The Persons entitled to the presumptions described in subsection A of this section shall not be effective until, if requested by the 66 appointing authority or governing body that employs them, on or before six months following such 67 examinations the preemployment physical examination described herein, resubmit to a subsequent **68** examination as described in clause (iii) of this subsection. 69

F. Persons making claims under this title who rely on such presumption shall, upon the request of appointing authorities or governing bodies employing such persons, submit to physical examinations (i) conducted by physicians selected by such appointing authorities or governing bodies or their representatives and (ii) consisting of such tests and studies as may reasonably be required by such physicians. However, a qualified physician, selected and compensated by the claimant, may, at the election of such claimant, be present at such examination.
