Other comments :** The Virginia Association of Health Plans asked Delegate May to introduce HB1886 as a result of its concern that the term "enrollees" could be misinterpreted by entities applying the provision to require that each individual covered by a health insurance contract be provided a separate notification. The necessary deletion of the term "enrollee" and the substitution of the term "subscribers" was made on Line 32 of the original bill. The enrolled version of the bill made that same amendment on Line 33 of the bill where it was also necessary to effect the same purpose.
