4.	Title	Electricutilityrestructuring;regionaltra	ansmissionentities.
Delaysthedateb ywhichincumbentelectricutilitieswithtransmissioncapacitymustjoin aregionaltransmissionentity(RTE). The Electric Utility Restructuring Actoriginally required utilities to join an RTE by January 1,2001. This measure provides that utilities sha llnot join an RTE prior to July 1,2004. Utilities are required to file an application to join an RTE by July 1,2003, and to transfer management and control of transmission assets to the RTE by January 1,2005, subject to State Corporation Commission approval. Prior to approving a request to join an RTE, the Commission must determine that the action will (i) ensure that consumers 'needs for economicand reliable transmission are metand (ii) meet the transmission needs of electric generation suppliers that do notown, operate, control or have an entitle ment to transmission capacity. In addition, requests for approval shall include a study of comparative costs and benefits, including an analysis of the economic effects of the transferon consumers and the effects of transmission congestion costs.
