3. Committee Rehabilitation & Social Services

4. Title Alcoholic beverage control; Class A farm wineries

5. Summary/Purpose: The bill provides that, upon petition of the Department of Agriculture and Consumer Services (DACS), the ABC Board may also permit the use by a Class A farm winery of a lesser percentage of products grown or produced on the farm if an unusually severe weather or disease condition causes a significant reduction in the availability of fruit or other agricultural products grown or produced on the farm to manufacture wine during a given license year. Currently, upon a petition by DACS, the ABC Board may permit the use of a greater quantity of out-of-state products if supplies grown or produced in the Commonwealth are insufficient for a farm winery license, whether Class A or Class B, to achieve the level of production that otherwise could be anticipated during a given license year.

6. No fiscal impact.
