

1 VIRGINIA ACTS OF ASSEMBLY — CHAPTER

2 *An Act to amend and reenact § 22.1-253.13:3 of the Code of Virginia, relating to school performance*
3 *report cards.*

4 [H 1254]

5 Approved

6 **Be it enacted by the General Assembly of Virginia:**7 **1. That § 22.1-253.13:3 of the Code of Virginia is amended and reenacted as follows:**

8 § 22.1-253.13:3. Standard 3. Accreditation, other standards and evaluation.

9 A. The General Assembly recognizes the need for the Board of Education to prescribe requirements
10 to ensure that student progress is measured and that school boards and school personnel are accountable.11 B. The Board of Education shall promulgate regulations establishing standards for accreditation
12 pursuant to the Administrative Process Act (§ 2.2-4000 et seq.) which shall include, but not be limited
13 to, student outcome measures, requirements and guidelines for instructional programs and for the
14 integration of educational technology into such instructional programs, administrative and instructional
15 staffing levels and positions, including staff positions for supporting educational technology, pupil
16 personnel services, special education program standards, auxiliary education programs such as library
17 and media services, course and credit requirements for graduation from high school, community
18 relations, and the philosophy, goals, and objectives of public education in Virginia.

19 In establishing course and credit requirements for a high school diploma, the Board shall:

20 1. Provide for the selection of integrated learning courses meeting the Standards of Learning and
21 approved by the Board to satisfy graduation credit requirements which shall include Standards of
22 Learning testing, as necessary;23 2. Establish the requirements for a standard or advanced studies high school diploma that shall
24 include one credit in fine, performing, or practical arts and one credit in United States and Virginia
25 history. The requirements for a standard high school diploma shall, however, include at least two
26 sequential electives chosen from a concentration of courses selected from a variety of options that may
27 be planned to ensure the completion of a focused sequence of elective courses. Students may take such
28 focused sequence of elective courses in consecutive years or any two years of high school. Such focused
29 sequence of elective courses shall provide a foundation for further education or training or preparation
30 for employment and shall be developed by the school division, consistent with Board of Education
31 guidelines and as approved by the local school board;32 3. Provide, in the requirements for the verified units of credit stipulated for obtaining the standard or
33 advanced studies diploma, that students completing elective classes into which the Standards of Learning
34 for any required course have been integrated may take the relevant Standards of Learning test for the
35 relevant required course and receive, upon achieving a satisfactory score on the specific Standards of
36 Learning assessment, a verified unit of credit for such elective class that shall be deemed to satisfy the
37 Board's requirement for verified credit for the required course;38 4. Establish a procedure to facilitate the acceleration of students that allows qualified students, with
39 the recommendation of the division superintendent, without completing the 140-hour class, to obtain
40 credit for such class upon demonstration of mastery of the course content and objectives. Having
41 received credit for the course, the student shall be permitted to sit for the relevant Standards of Learning
42 assessment and, upon receiving a passing score, shall earn a verified credit. Nothing in this section shall
43 preclude relevant school division personnel from enforcing compulsory attendance in public schools; and44 5. Authorize, as an elective in grades nine through ~~twelve~~ 12 with appropriate credits toward
45 graduation, a comparative religion class that focuses on the basic tenets, history, and religious
46 observances and rites of world religions.47 In addition, the Board may provide, in the requirements for the verified units of credit stipulated for
48 obtaining the standard or advanced studies diploma, that appropriate and relevant industry certification or
49 state licensure examinations may be substituted for correlated Standards of Learning examinations. The
50 Board may also provide that students completing career and technical education programs designed to
51 enable such students to pass such industry certification examinations or state licensure examinations may
52 be awarded, upon obtaining satisfactory scores on such industry certification or licensure examinations,
53 the appropriate verified units of credit for one or more career and technical education classes into which
54 relevant Standards of Learning for various classes taught at the same level have been integrated. Such
55 industry certification and state licensure examinations may cover relevant Standards of Learning for
56 various required classes and may, at the discretion of the Board, address some Standards of Learning for

ENROLLED

HB1254ER

57 several required classes.

58 In the exercise of its authority to recognize exemplary academic performance by providing for
 59 diploma seals, the Board shall establish (i) by July 1, 2000, criteria for awarding a diploma seal for
 60 advanced mathematics and technology for the standard and advanced studies diplomas. The Board shall
 61 consider including criteria for (a) technology courses; (b) technical writing, reading, and oral
 62 communication skills; (c) technology-related practical arts training; and (d) industry, professional, and
 63 trade association national certifications; and (ii) by July 1, 2003, criteria for awarding a diploma seal for
 64 excellence in civics education and understanding of our state and federal constitutions and the
 65 democratic model of government for the standard and advanced studies diplomas. The Board shall
 66 consider including criteria for (a) successful completion of history, government, and civics courses,
 67 including courses that incorporate character education; (b) voluntary participation in community service
 68 or extracurricular activities; and (c) related requirements as it deems appropriate.

69 The Board shall include in the student outcome measures which are required by the Standards for
 70 Accreditation, end-of-course or end-of-grade tests for various grade levels and classes, as determined by
 71 the Board, in accordance with the Standards of Learning. These Standards of Learning assessments shall
 72 include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics,
 73 science, and social studies.

74 In revising the standards for accreditation, the Board shall seek to set pupil/teacher ratios for
 75 educable mentally retarded (EMR) pupils that do not exceed the pupil/teacher ratios for self-contained
 76 classes for pupils with specific learning disabilities. The Board shall review annually the accreditation
 77 status of all schools in the Commonwealth.

78 The Board's regulations on accrediting schools shall include in the minimum staffing requirements,
 79 according to the type of school and student enrollment, requirements for employment of (a) principals in
 80 elementary schools, one half-time to 299 students, one full-time at 300 students; principals in middle
 81 schools, one full-time, to be employed on a 12-month basis; principals in high schools, one full-time, to
 82 be employed on a 12-month basis; (b) assistant principals in elementary schools, one half-time at 600
 83 students, one full-time at 900 students; assistant principals in middle schools, one full-time for each 600
 84 students; assistant principals in high schools, one full-time for each 600 students; (c) librarians in
 85 elementary schools, one part-time to 299 students, one full-time at 300 students; librarians in middle
 86 schools, one-half time to 299 students, one full-time at 300 students, two full-time at 1,000 students;
 87 librarians in high schools, one half-time to 299 students, one full-time at 300 students, two full-time at
 88 1,000 students; (d) guidance counselors in elementary schools, one hour per day per 100 students, one
 89 full-time at 500 students, one hour per day additional time per 100 students or major fraction thereof;
 90 guidance counselors in middle schools, one period per 80 students, one full-time at 400 students, one
 91 additional period per 80 students or major fraction thereof; guidance counselors in high schools, one
 92 period per 70 students, one full-time at 350 students, one additional period per 70 students or major
 93 fraction thereof; (e) clerical personnel in elementary schools, part-time to 299 students, one full-time at
 94 300 students; clerical personnel in middle schools, one full-time and one additional full-time for each
 95 600 students beyond 200 students and one full-time for the library at 750 students; clerical personnel in
 96 high schools, one full-time and one additional full-time for each 600 students beyond 200 students and
 97 one full-time for the library at 750 students; and (f) reading specialists in elementary schools, one
 98 full-time in each elementary school at the discretion of the local school board. A combined school, such
 99 as kindergarten through ~~twelve~~ 12, shall meet at all grade levels the staffing requirements for the highest
 100 grade level in that school; this requirement shall apply to all staff, except for guidance counselors, and
 101 shall be based on the school's total enrollment; guidance counselor staff requirements shall, however, be
 102 based on the enrollment at the various school organization levels, i.e., elementary, middle, or high
 103 school. The Board of Education may grant waivers from these staffing levels upon request from local
 104 school boards seeking to implement experimental or innovative programs that are not consistent with
 105 these staffing levels.

106 C. The Board shall also establish requirements for licensure of teachers, principals, supervisors and
 107 other professional staff and determine eligibility for appointment as a local division superintendent.

108 D. The Superintendent of Public Instruction shall develop and the Board of Education shall approve
 109 criteria for determining and recognizing educational performance in the Commonwealth's public school
 110 divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation
 111 process and shall include student outcome measurements. One year following the approval by the Board
 112 of such criteria, the Superintendent of Public Instruction shall annually identify to the Board those
 113 school divisions and schools that exceed or do not meet the approved criteria. Such identification shall
 114 include an analysis of the strengths and weaknesses of public education programs in the various school
 115 divisions in Virginia and recommendations to the General Assembly for further enhancing student
 116 learning uniformly across the Commonwealth. In recognizing educational performance in the school
 117 divisions, the Board shall include consideration of special school division accomplishments, such as

numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

The Department of Education shall conduct technical assistance visits for local school divisions. Schools accredited with a warning shall be given priority for such assistance, which shall include an analysis of relevant school data and the development and implementation of improvement plans to assist such schools in improving their accreditation status.

E. In order to assess the educational progress of students, the Board of Education shall also (i) develop appropriate assessments, which may include criterion-referenced tests and alternative assessment instruments which may be used by classroom teachers and (ii) prescribe and provide measures, which may include nationally normed tests to be used to identify students who score in the bottom quartile at selected grade levels. The Board of Education is authorized to pursue all available civil remedies for breaches in test security. Notwithstanding any other provision of state law, no test or examination authorized by this section, including the Standards of Learning assessments, shall be released or required to be released as minimum competency tests, if, in the judgment of the Board, such release would breach the security of such test or examination or deplete the bank of questions necessary to construct future secure tests.

With such funds as may be appropriated, the Board of Education may provide, through an agreement with vendors having the technical capacity and expertise to provide computerized tests and assessments, and test construction, analysis, and security, for (i) web-based computerized tests and assessments for the evaluation of student progress during and after remediation and (ii) the development of a remediation item bank directly related to the Standards of Learning.

E1. The Department of Education shall make available and maintain a website, either separately or through an existing website utilized by the Department of Education, enabling public elementary, middle and high school educators to submit recommendations for improvements relating to the Standards of Learning, when under review by the Board according to its established schedule, and related assessments required by the Standards of Quality pursuant to Chapter 13.2 (§ 22.1-253.13:1 et seq.) of this title. Such website shall facilitate the submission of recommendations by educators.

F. Each local school board shall maintain schools that meet the standards of accreditation as prescribed by the Board of Education. The accreditation status of all schools in each local school division shall be reviewed annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the criteria for determining effectiveness as approved by the Board.

G. Each local school board shall also provide teachers and principals with (i) periodic in-service training in preparing tests and other assessment measures and (ii) methods for assessing the progress of individual students, including Standards of Learning assessment materials or other criterion-referenced tests that match locally developed objectives.

H. In order to assess the educational progress of students as individuals and as groups, each local school board shall require the administration of appropriate assessments, which may include criterion-referenced tests, teacher-made tests and alternative assessment instruments and shall include the Standards of Learning Assessments and the National Assessment of Educational Progress state-by-state assessment. Each school board shall analyze and report annually, in compliance with any criteria that may be established by the Board of Education, the results from the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, if administered, and the Standards of Learning Assessments to the public.

The Board of Education shall not require administration of the Stanford Achievement Test Series, Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the requirements for home instruction pursuant to § 22.1-254.1.

The Board shall include requirements for the reporting of the Standards of Learning assessment scores and averages for each year as part of the Board's requirements relating to the School Performance Report Card. Such scores shall be disaggregated for each school by gender and by race or ethnicity, and shall be reported to the public within three months of their receipt. These reports (i) shall be posted on the portion of the Department of Education's website relating to the School Performance Report Card, in a format and in a manner that allows year-to-year comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state assessment.

I. To assist school divisions in implementing those programs and practices that will enhance pupil

179 academic performance and improve family and community involvement in the public schools, and from
180 such funds as may be appropriated for such purpose, there shall be established within the Department of
181 Education a unit to conduct evaluative studies and to provide the resources and technical assistance to
182 increase the capacity of school divisions to deliver quality instruction. Such unit shall identify and
183 analyze effective instructional programs and practices and professional development initiatives; evaluate
184 the success of programs encouraging parental and family involvement; assess changes in student
185 outcomes prompted by family involvement; and collect and disseminate among school divisions
186 information regarding effective instructional programs and practices, initiatives promoting family and
187 community involvement, and potential funding and support sources. Such unit may also provide
188 resources supporting professional development for administrators and teachers. In providing such
189 information, resources, and other services to school divisions, the unit shall give priority to those
190 divisions demonstrating a less than 70 percent passing rate on (i) all three Literacy Passport tests by
191 students taking these tests for the first time or (ii) the Standards of Learning assessment tests.
