[H 2515]

Approved March 23, 2005

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 8.01-413, 32.1-127.1:03, and 54.1-111 of the Code of Virginia are amended and reenacted as follows:**

§ 8.01-413. Certain copies of health care provider's records or papers of patient admissible; right of patient, his attorney and authorized insurer to copies of such records or papers; subpoena; damages, costs and attorneys' fees.

A. In any case where the hospital, nursing facility, physician's, or other health care provider's original records or papers of any patient in a hospital or institution for the treatment of physical or mental illness are admissible or would be admissible as evidence, any typewritten copy, photograph, photostatted copy, or microphotograph or printout or other hard copy generated from computerized or other electronic storage, microfilm, or other photographic, mechanical, electronic or chemical storage process thereof shall be admissible as evidence in any court of this Commonwealth in like manner as the original, if the printout or hard copy or microphotograph or photograph is properly authenticated by the employees having authority to release or produce the original records.

Any hospital, nursing facility, physician, or other health care provider whose records or papers relating to any such patient are subpoenaed for production as provided by law may comply with the subpoena by a timely mailing to the clerk issuing the subpoena or in whose court the action is pending properly authenticated copies, photographs or microphotographs in lieu of the originals. The court whose clerk issued the subpoena or, in the case of an attorney-issued subpoena, in which the action is pending, may, after notice to such hospital, nursing facility, physician, or other health care provider, enter an order requiring production of the originals, if available, of any stored records or papers whose copies, photographs or microphotographs are not sufficiently legible.

*Except as provided in subsection G*, the party requesting the subpoena duces tecum or on whose behalf an attorney-issued subpoena duces tecum was issued shall be liable for the reasonable charges of the hospital, nursing facility, physician, or other health care provider for the service of maintaining, retrieving, reviewing, preparing, copying and mailing the items produced. Except for copies of X-ray photographs, however, such charges shall not exceed ~~\$50~~ \$0.50 for each page up to 50 pages and ~~\$25~~ \$0.25 a page thereafter for copies from paper or other hard copy generated from computerized or other electronic storage, or other photographic, mechanical, electronic, imaging or chemical storage process and \$1 per page for copies from microfilm or other micrographic process, plus all postage and shipping costs and a search and handling fee not to exceed \$10.

B. Copies of hospital, nursing facility, physician's, or other health care provider's records or papers shall be furnished within 15 days of receipt of such request to the patient, his attorney, his executor or administrator, or an authorized insurer upon such patient's, attorney's, executor's, administrator's, or authorized insurer's written request, which request shall comply with the requirements of subsection E of § 32.1-127.1:03.

However, copies of a patient's records shall not be furnished to such patient when the patient's treating physician or clinical psychologist, in the exercise of professional judgment, has made a part of the patient's records a written statement that in his opinion the furnishing to or review by the patient of such records would be reasonably likely to endanger the life or physical safety of the patient or another person, or that such health records make reference to a person, other than a health care provider, and the access requested would be reasonably likely to cause substantial harm to such referenced person. In any such case, if requested by the patient or his attorney or authorized insurer, such records shall be furnished within 15 days of the date of such request to the patient's attorney or authorized insurer, rather than to the patient.

If the records are not provided to the patient in accordance with this section, then, if requested by the patient, the hospital, nursing facility, physician, or other health care provider denying the request shall comply with the patient's request to either (i) provide a copy of the records to a physician or clinical psychologist of the patient's choice whose licensure, training, and experience, relative to the patient's condition, are at least equivalent to that of the treating physician or clinical psychologist upon whose opinion the denial is based, who shall, at the patient's expense, make a judgment as to whether to make the records available to the patient or (ii) designate a physician or clinical psychologist, whose licensure, training, and experience, relative to the patient's condition, are at least equivalent to that of the treating

physician or clinical psychologist upon whose opinion the denial is based and who did not participate in the original decision to deny the patient's request for his records, who shall, at the expense of the provider denying access to the patient, review the records and make a judgment as to whether to make the records available to the patient. In either such event, the hospital, nursing facility, physician, or other health care provider denying the request shall comply with the judgment of the reviewing physician or clinical psychologist.

*Except as provided in subsection G*, a reasonable charge may be made by the hospital, nursing facility, physician or other health care provider maintaining the records for the cost of the services relating to the maintenance, retrieval, review, and preparation of the copies of the records. Except for copies of X-ray photographs, however, such charges shall not exceed ~~\$.50~~ *\$0.50* per page for up to 50 pages and ~~\$.25~~ *\$0.25* a page thereafter for copies from paper or other hard copy generated from computerized or other electronic storage, or other photographic, mechanical, electronic, imaging or chemical storage process and \$1 per page for copies from microfilm or other micrographic process, a fee for search and handling, not to exceed \$10, and all postage and shipping costs. Any hospital, nursing facility, physician, or other health care provider receiving such a request from a patient's attorney or authorized insurer shall require a writing signed by the patient confirming the attorney's or authorized insurer's authority to make the request and shall accept a photocopy, facsimile, or other copy of the original signed by the patient as if it were an original.

C. Upon the failure of any hospital, nursing facility, physician, or other health care provider to comply with any written request made in accordance with subsection B within the period of time specified in that subsection and within the manner specified in subsections E and F of § 32.1-127.1:03, the patient, his attorney, his executor or administrator, or authorized insurer may cause a subpoena duces tecum to be issued. The subpoena may be issued (i) upon filing a request therefor with the clerk of the circuit court wherein any eventual suit would be required to be filed, and upon payment of the fees required by subdivision A 18 of § 17.1-275, and fees for service or (ii) by the patient's attorney in a pending civil case in accordance with § 8.01-407 without payment of the fees established in subdivision A 23 of § 17.1-275. A sheriff shall not be required to serve an attorney-issued subpoena that is not issued at least five business days prior to the date production of the record is desired. The subpoena shall be returnable within 20 days of proper service, directing the hospital, nursing facility, physician, or other health care provider to produce and furnish copies of the reports and papers to the clerk who shall then make the same available to the patient, his attorney or authorized insurer. If the court finds that a hospital, nursing facility, physician, or other health care provider willfully refused to comply with a written request made in accordance with subsection B, either by willfully or arbitrarily refusing or by imposing a charge in excess of the reasonable expense of making the copies and processing the request for records, the court may award damages for all expenses incurred by the patient or authorized insurer to obtain such copies, including court costs and reasonable attorney's fees.

D. The provisions of subsections A, B, and C hereof shall apply to any health care provider whose office is located within or without the Commonwealth if the records pertain to any patient who is a party to a cause of action in any court in the Commonwealth of Virginia, and shall apply only to requests made by the patient, his attorney, his executor or administrator, or any authorized insurer, in anticipation of litigation or in the course of litigation.

E. Health care provider, as used in this section, shall have the same meaning as provided in § 32.1-127.1:03 and shall also include an independent medical copy retrieval service contracted to provide the service of retrieving, reviewing, and preparing such copies for distribution.

F. Notwithstanding the authorization to admit as evidence patient records in the form of microphotographs, prescription dispensing records maintained in or on behalf of any pharmacy registered or permitted in Virginia shall only be stored in compliance with §§ 54.1-3410, 54.1-3411 and 54.1-3412.

*G. The provisions of this section governing fees that may be charged by a health care provider whose records are subpoenaed or requested pursuant to this section shall not apply in the case of any request by a patient for his own records, which shall be governed by subsection J of § 32.1-127.1:03. This subsection shall not be construed to affect other provisions of state or federal statute, regulation or any case decision relating to charges by health care providers for copies of records requested by any person other than a patient when requesting his own records pursuant to subsection J of § 32.1-127.1:03.*

§ 32.1-127.1:03. Health records privacy.

A. There is hereby recognized an individual's right of privacy in the content of his health records. No person to whom health records are disclosed shall redisclose or otherwise reveal the health records of an individual, beyond the purpose for which such disclosure was made, without first obtaining the individual's specific authorization to such redisclosure. This redisclosure prohibition shall not, however, prevent (i) any health care entity that receives health records from another health care entity from making subsequent disclosures as permitted under this section and the federal Department of Health and Human Services regulations relating to privacy of the electronic transmission of data and protected health information promulgated by the United States Department of Health and Human Services as required by the Health Insurance Portability and Accountability Act (HIPAA) (42 U.S.C. § 1320d et seq.) or (ii) any health care entity from furnishing health records and aggregate or other data, from which individually identifying prescription information has been removed, encoded or encrypted, to qualified researchers, including, but not limited to, pharmaceutical manufacturers and their agents or contractors, for purposes of clinical, pharmaco-epidemiological, pharmaco-economic, or other health services research.

The health care entity shall comply with the judgment of the reviewing physician or clinical psychologist. The health care entity shall permit copying and examination of the health record by such other physician or clinical psychologist designated by either the individual at his own expense or by the health care entity at its expense.

Any health record copied for review by any such designated physician or clinical psychologist shall be accompanied by a statement from the custodian of the health record that the individual's treating physician or clinical psychologist determined that the individual's review of his health record would be reasonably likely to endanger the life or physical safety of the individual or would be reasonably likely to cause substantial harm to a person referenced in the health record who is not a health care provider.

4. Except to deliver to a clerk of the court or administrative agency subpoenaed health records in a sealed envelope as set forth, health care entities shall not respond to a subpoena duces tecum for such health records until they have received a certification as set forth in subdivisions 5 or 8 of this subsection from the party on whose behalf the subpoena duces tecum was issued.

If the health care entity has actual receipt of notice that a motion to quash the subpoena has been filed or if the health care entity files a motion to quash the subpoena for health records, then the health care entity shall produce the health records, in a securely sealed envelope, to the clerk of the court or administrative agency issuing the subpoena or in whose court or administrative agency the action is pending. The court or administrative agency shall place the health records under seal until a determination is made regarding the motion to quash. The securely sealed envelope shall only be opened on order of the judge or administrative agency. In the event the court or administrative agency grants the motion to quash, the health records shall be returned to the health care entity in the same sealed envelope in which they were delivered to the court or administrative agency. In the event that a judge or administrative agency orders the sealed envelope to be opened to review the health records in camera, a copy of the order shall accompany any health records returned to the health care entity. The health records returned to the health care entity shall be in a securely sealed envelope.

5. If no motion to quash is filed within 15 days of the date of the request or of the attorney-issued subpoena, the party on whose behalf the subpoena was issued shall have the duty to certify to the subpoenaed health care entity that the time for filing a motion to quash has elapsed and that no motion to quash was filed. Any health care entity receiving such certification shall have the duty to comply with the subpoena duces tecum by returning the specified health records by either the return date on the subpoena or five days after receipt of the certification, whichever is later.

6. In the event that the individual whose health records are being sought files a motion to quash the subpoena, the court or administrative agency shall decide whether good cause has been shown by the discovering party to compel disclosure of the individual's health records over the individual's objections. In determining whether good cause has been shown, the court or administrative agency shall consider (i) the particular purpose for which the information was collected; (ii) the degree to which the disclosure of the records would embarrass, injure, or invade the privacy of the individual; (iii) the effect of the disclosure on the individual's future health care; (iv) the importance of the information to the lawsuit or proceeding; and (v) any other relevant factor.

7. Concurrent with the court or administrative agency's resolution of a motion to quash, if subpoenaed health records have been submitted by a health care entity to the court or administrative agency in a sealed envelope, the court or administrative agency shall: (i) upon determining that no submitted health records should be disclosed, return all submitted health records to the health care entity in a sealed envelope; (ii) upon determining that all submitted health records should be disclosed, provide all the submitted health records to the party on whose behalf the subpoena was issued; or (iii) upon determining that only a portion of the submitted health records should be disclosed, provide such portion to the party on whose behalf the subpoena was issued and return the remaining health records to the health care entity in a sealed envelope.

8. Following the court or administrative agency's resolution of a motion to quash, the party on whose behalf the subpoena duces tecum was issued shall have the duty to certify in writing to the subpoenaed health care entity a statement of one of the following:

a. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are consistent with such resolution; and, therefore, the health records previously delivered in a sealed envelope to the clerk of the court or administrative agency will not be returned to the health care entity;

b. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are consistent with such resolution and that, since no health records have previously been delivered to the court or administrative agency by the health care entity, the health care entity shall comply with the subpoena duces tecum by returning the health records designated in the subpoena by the return date on the subpoena or five days after receipt of certification, whichever is later;

c. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution; therefore, no health records shall be disclosed and all health records previously delivered in a sealed envelope to the clerk of the court or administrative agency will be returned to the health care entity;

d. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution and that only limited disclosure has been authorized. The certification shall state that only the portion of the health records as set forth in the certification, consistent with the court or administrative agency's ruling, shall be disclosed. The certification shall also state that health records that were previously delivered to the court or administrative agency for which disclosure has been authorized will not be returned to the health care entity; however, all health records for which disclosure has not been authorized will be returned to the health care entity; or

e. All filed motions to quash have been resolved by the court or administrative agency and the disclosures sought in the subpoena duces tecum are not consistent with such resolution and, since no health records have previously been delivered to the court or administrative agency by the health care entity, the health care entity shall return only those health records specified in the certification, consistent with the court or administrative agency's ruling, by the return date on the subpoena or five days after receipt of the certification, whichever is later.

A copy of the court or administrative agency's ruling shall accompany any certification made pursuant to this subdivision.

9. The provisions of this subsection have no application to subpoenas for health records requested under § 8.01-413, or issued by a duly authorized administrative agency conducting an investigation, audit, review or proceedings regarding a health care entity's conduct.

The provisions of this subsection shall apply to subpoenas for the health records of both minors and adults.

Nothing in this subsection shall have any effect on the existing authority of a court or administrative agency to issue a protective order regarding health records, including, but not limited to, ordering the return of health records to a health care entity, after the period for filing a motion to quash has passed.

A subpoena for substance abuse records must conform to the requirements of federal law found in 42 C.F.R. Part 2, Subpart E.

I. Health care entities may testify about the health records of an individual in compliance with §§ 8.01-399 and 8.01-400.2.

*J. If an individual requests a copy of his health record from a health care entity, the health care entity may impose a reasonable cost-based fee, which shall include only the cost of supplies for and labor of copying the requested information, postage when the individual requests that such information be mailed, and preparation of an explanation or summary of such information as agreed to by the individual. For the purposes of this section, "individual" shall subsume a person with authority to act on behalf of the individual who is the subject of the health record in making decisions related to his health care.*
