Patron Prior to Engrossment—Delegate Rust

Referred to Committee on Education

Be it enacted by the General Assembly of Virginia:

1. That § 23-9.6:1 of the Code of Virginia is amended and reenacted, and that the Code of Virginia is amended by adding in Title 23 a chapter numbered 1.1:1, consisting of sections numbered 23-9.14:3 through 23-9.14:7 as follows:

§ 23-9.6:1. Duties of Council generally.

In addition to such other duties as may be prescribed elsewhere, the State Council of Higher Education shall:

1. Develop a statewide strategic plan that reflects the goals set forth in subsection B of § 23-38.88 for higher education in the Commonwealth, identifies a coordinated approach to such state and regional goals, and emphasizes the future needs for higher education in Virginia at both the undergraduate and the graduate levels, as well as the mission, programs, facilities, and location of each of the existing institutions of higher education, each public institution's six-year plan, and such other matters as the Council deems appropriate. *Such plans shall integrate the strategic plan for technology-enriched initiatives prepared pursuant to § 23-9.14:4.* The Council shall revise such plans at least once every six years and shall submit such recommendations as are necessary for the implementation of the plan to the Governor and the General Assembly.

2. Review and approve or disapprove any proposed change in the statement of mission of any presently existing public institution of higher education and to define the mission of all public institutions of higher education created after the effective date of this provision. The Council shall, within the time prescribed in subdivision 1, make a report to the Governor and the General Assembly with respect to its actions hereunder. No such actions shall become effective until 30 days after adjournment of the session of the General Assembly next following the filing of such a report. Nothing contained in this provision shall be construed to authorize the Council to modify any mission statement adopted by the General Assembly, nor to empower the Council to affect, either directly or indirectly, the selection of faculty or the standards and criteria for admission of any public institution, whether related to academic standards, residence or other criteria; it being the intention of this section that faculty selection and student admission policies shall remain a function of the individual institutions.

3. Study any proposed escalation of any public institution to a degree-granting level higher than that level to which it is presently restricted and to submit a report and recommendation to the Governor and the General Assembly relating to the proposal. The study shall include the need for and benefits or detriments to be derived from the escalation. No such institution shall implement any such proposed escalation until the Council's report and recommendation have been submitted to the General Assembly and the General Assembly approves the institution's proposal.

4. Review and approve or disapprove all enrollment projections proposed by each public institution of higher education. The Council's projections shall be in numerical terms by level of enrollment and shall be used for budgetary and fiscal planning purposes only. The Council shall develop estimates of the number of degrees to be awarded by each institution and include those estimates in its reports of enrollment projections. The student admissions policies for the institutions and their specific programs shall remain the sole responsibility of the individual boards of visitors.

5. Review and approve or disapprove all new academic programs that any public institution of higher education proposes. As used herein, "academic programs" include both undergraduate and graduate programs.

6. Review and require the discontinuance of any undergraduate or graduate academic program that is presently offered by any public institution of higher education when the Council determines that such academic program is (i) nonproductive in terms of the number of degrees granted, the number of students served by the program, the program's effectiveness, and budgetary considerations, or (ii) supported by state funds and is unnecessarily duplicative of academic programs offered at other public institutions of higher education in the Commonwealth. The Council shall make a report to the Governor

59 and the General Assembly with respect to the discontinuance of any such academic program. No such
60 discontinuance shall become effective until 30 days after the adjournment of the session of the General
61 Assembly next following the filing of such report.

62 7. Review and approve or disapprove the creation and establishment of any department, school,
63 college, branch, division, or extension of any public institution of higher education that such institution
64 proposes to create and establish. This duty and responsibility shall be applicable to the proposed creation
65 and establishment of departments, schools, colleges, branches, divisions, and extensions, whether located
66 on or off the main campus of the institution in question. If any organizational change is determined by
67 the Council to be proposed solely for the purpose of internal management and the institution's curricular
68 offerings remain constant, the Council shall approve the proposed change. Nothing in this provision shall
69 be construed to authorize the Council to disapprove the creation and establishment of any department,
70 school, college, branch, division, or extension of any institution that has been created and established by
71 the General Assembly.

72 8. Review the proposed closure of any academic program in a high demand or critical shortage area,
73 as defined by the Council, by any public institution of higher education and assist in the development of
74 an orderly closure plan, when needed.

75 9. Develop a uniform, comprehensive data information system designed to gather all information
76 necessary to the performance of the Council's duties. The system shall include information on
77 admissions, enrollments, self-identified students with documented disabilities, personnel, programs,
78 financing, space inventory, facilities, and such other areas as the Council deems appropriate.

79 10. Develop in cooperation with institutions of higher education guidelines for the assessment of
80 student achievement. An institution shall use an approved program that complies with the guidelines of
81 the Council and is consistent with the institution's mission and educational objectives in the development
82 of such assessment. The Council shall report the institutions' assessments of student achievement in the
83 biennial revisions to the state's master plan for higher education.

84 11. Develop in cooperation with the appropriate state financial and accounting officials and to
85 establish uniform standards and systems of accounting, recordkeeping and statistical reporting for the
86 public institutions of higher education.

87 12. Review biennially and approve or disapprove all changes in the inventory of educational and
88 general space that any public institution of higher education may propose, and to make a report to the
89 Governor and the General Assembly with respect thereto. No such change shall be made until 30 days
90 after the adjournment of the session of the General Assembly next following the filing of such report.

91 13. Visit and study the operations of each of the public institutions of higher education at such times
92 as the Council shall deem appropriate and to conduct such other studies in the field of higher education
93 as the Council deems appropriate or as may be requested by the Governor or the General Assembly.

94 14. Provide advisory services to private, accredited, and nonprofit institutions of higher education,
95 whose primary purpose is to provide collegiate or graduate education and not to provide religious
96 training or theological education, on academic, administrative, financial and space utilization matters.
97 The Council may also review and advise on joint activities, including contracts for services between
98 such public and private institutions of higher education or between such private institutions and any
99 agency of the Commonwealth or political subdivision thereof.

100 15. Adopt such rules and regulations as the Council believes necessary to implement all of the
101 Council's duties and responsibilities as set forth in this Code. The various public institutions of higher
102 education shall comply with such rules and regulations.

103 16. Issue guidelines consistent with the provisions of the federal Family Education Rights and
104 Privacy Act (FERPA), 20 U.S.C. § 1232g requiring public institutions of higher education to release a
105 student's academic and disciplinary record to a student's parent.

106 17. Develop and revise, as it deems necessary, in consultation with the Coordinator of Emergency
107 Management, a model institutional crisis and emergency management plan for the purpose of assisting
108 public and private two-year and four-year institutions of higher education in establishing, operating, and
109 maintaining emergency services and disaster preparedness activities.

110 18. Require that each institution of higher education formed, chartered, or established in the
111 Commonwealth after July 1, 1980, shall ensure the preservation of student transcripts in the event of
112 institutional closure or revocation of approval to operate in the Commonwealth of Virginia. An
113 institution may provide for the preservation of student transcripts by binding agreement with another
114 institution of higher education with which it is not corporately connected or in such other way as the
115 Council may authorize by regulation. In the event an institution closes, or has its approval to operate in
116 the Commonwealth revoked, the Council, through its Director, may take such action as is necessary to
117 secure and preserve the student transcripts until such time as an appropriate institution accepts all or
118 some of the transcripts. Nothing in this section shall be deemed to interfere with the right of a student
119 to his own transcripts; nor shall this section authorize disclosure of student records except as may
120 otherwise be authorized by law.

19. Develop, in cooperation with the institutions of higher education, the Board of Nursing, and the Advisory Council on the Future of Nursing in Virginia, a strategic statewide plan to ensure an adequate supply of nurses. The Council shall recommend to the Governor and the General Assembly such changes in public policy as may be necessary to meet the state's current and future need for essential nursing services.

20. Facilitate the development of dual admissions and articulation agreements between two- and four-year public and private institutions of higher education in Virginia. Such agreements shall be subject to the admissions requirements of the four-year institutions, except as provided in § 23-9.2:3.02.

21. Provide periodic updates of base adequacy funding guidelines adopted by the Joint Subcommittee Studying Higher Education Funding Policies for the various public institutions.

In carrying out its duties and responsibilities, the Council, insofar as practicable, shall preserve the individuality, traditions and sense of responsibility of the respective institutions. The Council, insofar as practicable, shall seek the assistance and advice of the respective institutions in fulfilling all of its duties and responsibilities.
