

## VIRGINIA ACTS OF ASSEMBLY — CHAPTER

*An Act to amend and reenact §§ 54.1-2729.2, 54.1-2729.3, and 54.1-3408 of the Code of Virginia, relating to provisional practice by persons to obtain practical experience in dialysis patient care under the direct and immediate supervision of a licensed registered nurse.*

[H 618]

Approved

**Be it enacted by the General Assembly of Virginia:**

**1. That §§ 54.1-2729.2, 54.1-2729.3, and 54.1-3408 of the Code of Virginia are amended and reenacted as follows:**

§ 54.1-2729.2. Dialysis patient care technician; definition.

"Dialysis patient care technician" or "dialysis care technician" means a person who has obtained certification from an organization approved by the Board of Health Professions to provide, under the supervision of a licensed practitioner of medicine or a registered nurse, direct care to patients undergoing renal dialysis treatments in a Medicare-certified renal dialysis facility. Such direct care may include, but need not be limited to, the administration of heparin, topical needle site anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers in accordance with the order of a licensed physician, nurse practitioner or physician assistant. *However, a person who has completed a training program in dialysis patient care may engage in provisional practice to obtain practical experience in providing direct patient care under direct and immediate supervision in accordance with § 54.1-3408, until he has taken and received the results of any examination required by a certifying organization approved by the Board or for 24 months from the date of initial practice, whichever occurs sooner.*

§ 54.1-2729.3. Prohibition on use of title without holding certification; continuing competency requirements; fees; penalty.

A. No person shall hold himself out to be or advertise or permit to be advertised that he is a dialysis patient care technician or dialysis care technician as defined in this chapter unless such person has obtained certification from an organization approved by the Board of Health Professions as examining candidates for appropriate competency or technical proficiency to perform as dialysis patient care technicians or dialysis care technicians.

B. The title restrictions provided by this section shall apply to the use of the terms "dialysis patient care technician" and "dialysis care technician" or any other term or combination of terms used alone or in combination with the terms "licensed," "certified," or "registered," as such terms also imply a minimum level of education, training, and competence. *A person who is authorized for provisional practice to provide direct patient care while obtaining practical experience shall be identified as a "trainee" while working in a renal dialysis facility.*

C. The Board of Health Professions may require such continuing competency training as it may deem necessary for dialysis patient care technicians or dialysis care technicians.

D. Any person who willfully violates the provisions of this chapter shall be guilty of a Class 3 misdemeanor.

§ 54.1-3408. Professional use by practitioners.

A. A practitioner of medicine, osteopathy, podiatry, dentistry, or veterinary medicine or a licensed nurse practitioner pursuant to § 54.1-2957.01, a licensed physician assistant pursuant to § 54.1-2952.1, or a TPA-certified optometrist pursuant to Article 5 (§ 54.1-3222 et seq.) of Chapter 32 of this title shall only prescribe, dispense, or administer controlled substances in good faith for medicinal or therapeutic purposes within the course of his professional practice.

B. The prescribing practitioner's order may be on a written prescription or pursuant to an oral prescription as authorized by this chapter. The prescriber may administer drugs and devices, or he may cause them to be administered by a nurse, physician assistant or intern under his direction and supervision, or he may prescribe and cause drugs and devices to be administered to patients in state-owned or state-operated hospitals or facilities licensed as hospitals by the Board of Health or psychiatric hospitals licensed by the State Mental Health, Mental Retardation and Substance Abuse Services Board by other persons who have been trained properly to administer drugs and who administer drugs only under the control and supervision of the prescriber or a pharmacist or a prescriber may cause drugs and devices to be administered to patients by emergency medical services personnel who have been certified and authorized to administer such drugs and devices pursuant to Board of Health regulations governing emergency medical services and who are acting within the scope of such certification. A prescriber may authorize a licensed respiratory care practitioner as defined in

ENROLLED

HB618ER

57 § 54.1-2954 to administer by inhalation controlled substances used in inhalation or respiratory therapy.

58 C. Pursuant to an oral or written order or standing protocol, the prescriber, who is authorized by  
59 state or federal law to possess and administer radiopharmaceuticals in the scope of his practice, may  
60 authorize a nuclear medicine technologist to administer, under his supervision, radiopharmaceuticals used  
61 in the diagnosis or treatment of disease.

62 D. Pursuant to an oral or written order or standing protocol issued by the prescriber within the  
63 course of his professional practice, such prescriber may authorize registered nurses and licensed practical  
64 nurses to possess (i) epinephrine for administration in treatment of emergency medical conditions and  
65 (ii) heparin and sterile normal saline to use for the maintenance of intravenous access lines.

66 Pursuant to the regulations of the Board of Health, certain emergency medical services technicians  
67 may possess and administer epinephrine in emergency cases of anaphylactic shock.

68 E. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course  
69 of his professional practice, such prescriber may authorize licensed physical therapists to possess and  
70 administer topical corticosteroids, topical lidocaine, and any other Schedule VI topical drug.

71 F. Pursuant to an oral or written order or standing protocol issued by the prescriber within the course  
72 of his professional practice, such prescriber may authorize licensed athletic trainers to possess and  
73 administer topical corticosteroids, topical lidocaine, or other Schedule VI topical drugs, or to possess and  
74 administer epinephrine for use in emergency cases of anaphylactic shock.

75 G. Pursuant to an oral or written order or standing protocol issued by the prescriber within the  
76 course of his professional practice, and in accordance with policies and guidelines established by the  
77 Department of Health pursuant to § 32.1-50.2, such prescriber may authorize registered nurses or  
78 licensed practical nurses under the immediate and direct supervision of a registered nurse to possess and  
79 administer tuberculin purified protein derivative (PPD) in the absence of a prescriber. The Department of  
80 Health's policies and guidelines shall be consistent with applicable guidelines developed by the Centers  
81 for Disease Control and Prevention for preventing transmission of mycobacterium tuberculosis and shall  
82 be updated to incorporate any subsequently implemented standards of the Occupational Safety and  
83 Health Administration and the Department of Labor and Industry to the extent that they are inconsistent  
84 with the Department of Health's policies and guidelines. Such standing protocols shall explicitly describe  
85 the categories of persons to whom the tuberculin test is to be administered and shall provide for  
86 appropriate medical evaluation of those in whom the test is positive. The prescriber shall ensure that the  
87 nurse implementing such standing protocols has received adequate training in the practice and principles  
88 underlying tuberculin screening.

89 The Health Commissioner or his designee may authorize registered nurses, acting as agents of the  
90 Department of Health, to possess and administer, at the nurse's discretion, tuberculin purified protein  
91 derivative (PPD) to those persons in whom tuberculin skin testing is indicated based on protocols and  
92 policies established by the Department of Health.

93 H. Pursuant to a written order or standing protocol issued by the prescriber within the course of his  
94 professional practice, such prescriber may authorize, with the consent of the parents as defined in  
95 § 22.1-1, an employee of a school board who is trained in the administration of insulin and glucagon to  
96 assist with the administration of insulin or administer glucagon to a student diagnosed as having diabetes  
97 and who requires insulin injections during the school day or for whom glucagon has been prescribed for  
98 the emergency treatment of hypoglycemia. Such authorization shall only be effective when a licensed  
99 nurse, nurse practitioner, physician or physician assistant is not present to perform the administration of  
100 the medication.

101 I. A prescriber may authorize, pursuant to a protocol approved by the Board of Nursing, the  
102 administration of vaccines to adults for immunization, when a practitioner with prescriptive authority is  
103 not physically present, (i) by licensed pharmacists, (ii) by registered nurses, or (iii) licensed practical  
104 nurses under the immediate and direct supervision of a registered nurse. A prescriber acting on behalf of  
105 and in accordance with established protocols of the Department of Health may authorize the  
106 administration of vaccines to any person by a pharmacist or nurse when the prescriber is not physically  
107 present.

108 J. A dentist may cause Schedule VI topical drugs to be administered under his direction and  
109 supervision by either a dental hygienist or by an authorized agent of the dentist.

110 Further, pursuant to a written order and in accordance with a standing protocol issued by the dentist  
111 in the course of his professional practice, a dentist may authorize a dental hygienist under his general  
112 supervision, as defined in § 54.1-2722, to possess and administer topical oral fluorides, topical oral  
113 anesthetics, topical and directly applied antimicrobial agents for treatment of periodontal pocket lesions,  
114 as well as any other Schedule VI topical drug approved by the Board of Dentistry.

115 K. (For expiration date - See Editor's note) This section shall not prevent the administration of drugs  
116 by a person who has satisfactorily completed a training program for this purpose approved by the Board  
117 of Nursing and who administers such drugs in accordance with a physician's instructions pertaining to

dosage, frequency, and manner of administration, and in accordance with regulations promulgated by the Board of Pharmacy relating to security and record keeping, when the drugs administered would be normally self-administered by (i) a resident of a facility licensed or certified by the State Mental Health, Mental Retardation and Substance Abuse Services Board; (ii) a resident of any assisted living facility which is licensed by the Department of Social Services; (iii) a resident of the Virginia Rehabilitation Center for the Blind and Vision Impaired; (iv) a resident of a facility approved by the Board or Department of Juvenile Justice for the placement of children in need of services or delinquent or alleged delinquent youth; (v) a program participant of an adult day-care center licensed by the Department of Social Services; or (vi) a resident of any facility authorized or operated by a state or local government whose primary purpose is not to provide health care services.

K. (For effective date - see Editor's note) This section shall not prevent the administration of drugs by a person who has satisfactorily completed a training program for this purpose approved by the Board of Nursing and who administers such drugs in accordance with a physician's instructions pertaining to dosage, frequency, and manner of administration, and in accordance with regulations promulgated by the Board of Pharmacy relating to security and record keeping, when the drugs administered would be normally self-administered by (i) a resident of a facility licensed or certified by the Department of Mental Health, Mental Retardation and Substance Abuse Services; (ii) a resident of the Virginia Rehabilitation Center for the Blind and Vision Impaired; (iii) a resident of a facility approved by the Board or Department of Juvenile Justice for the placement of children in need of services or delinquent or alleged delinquent youth; (iv) a program participant of an adult day-care center licensed by the Department of Social Services; or (v) a resident of any facility authorized or operated by a state or local government whose primary purpose is not to provide health care services.

L. (For effective date - see Editor's note) Medication aides registered by the Board of Nursing pursuant to Article 7 (§ 54.1-3041 et seq.) of Chapter 30 may administer drugs that would otherwise be self-administered to residents of any assisted living facility licensed by the Department of Social Services. A registered medication aide shall administer drugs pursuant to this section in accordance with the prescriber's instructions pertaining to dosage, frequency, and manner of administration; in accordance with regulations promulgated by the Board of Pharmacy relating to security and recordkeeping; in accordance with the assisted living facility's Medication Management Plan; and in accordance with such other regulations governing their practice promulgated by the Board of Nursing.

M. In addition, this section shall not prevent the administration of drugs by a person who administers such drugs in accordance with a physician's instructions pertaining to dosage, frequency, and manner of administration and with written authorization of a parent, and in accordance with school board regulations relating to training, security and record keeping, when the drugs administered would be normally self-administered by a student of a Virginia public school. Training for such persons shall be accomplished through a program approved by the local school boards, in consultation with the local departments of health.

N. In addition, this section shall not prevent the administration or dispensing of drugs and devices by persons if they are authorized by the State Health Commissioner in accordance with protocols established by the State Health Commissioner pursuant to § 32.1-42.1 when (i) the Governor has declared a disaster or a state of emergency caused by an act of terrorism or the United States Secretary of Health and Human Services has issued a declaration of an actual or potential bioterrorism incident or other actual or potential public health emergency; (ii) it is necessary to permit the provision of needed drugs or devices; and (iii) such persons have received the training necessary to safely administer or dispense the needed drugs or devices. Such persons shall administer or dispense all drugs or devices under the direction, control and supervision of the State Health Commissioner.

O. Nothing in this title shall prohibit the administration of normally self-administered oral or topical drugs by unlicensed individuals to a person in his private residence.

P. This section shall not interfere with any prescriber issuing prescriptions in compliance with his authority and scope of practice and the provisions of this section to a Board agent for use pursuant to subsection G of § 18.2-258.1. Such prescriptions issued by such prescriber shall be deemed to be valid prescriptions.

Q. Nothing in this title shall prevent or interfere with dialysis care technicians or dialysis patient care technicians who are certified by an organization approved by the Board of Health Professions *or persons authorized for provisional practice* pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.) of this title, in the ordinary course of their duties in a Medicare-certified renal dialysis facility, from administering heparin, topical needle site anesthetics, dialysis solutions, sterile normal saline solution, and blood volumizers, for the purpose of facilitating renal dialysis treatment, when such administration of medications occurs under the orders of a licensed physician, nurse practitioner or physician assistant and under the immediate and direct supervision of a licensed registered nurse. *Nothing in this chapter shall be construed to prohibit a patient care dialysis technician trainee from performing dialysis care as part of and within the scope of*

179 *the clinical skills instruction segment of a supervised dialysis technician training program, provided*  
180 *such trainee is identified as a "trainee" while working in a renal dialysis facility.*

181 The dialysis care technician or dialysis patient care technician administering the medications shall  
182 have demonstrated competency as evidenced by holding current valid certification from an organization  
183 approved by the Board of Health Professions pursuant to Chapter 27.01 (§ 54.1-2729.1 et seq.) of this  
184 title.

185 **2. That an emergency exists and this act is in force from its passage.**
