SENATE BILL NO. 224

AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the Senate Committee on Local Government on February 7, 2006)

(Patron Prior to Substitute—Senator Quayle)

A BILL to amend and reenact §§ 15.2-2242, 15.2-2286, and 55-519 of the Code of Virginia, relating to disclosure of environmental site assessments, remediation, and disclosure of adverse conditions.

Be it enacted by the General Assembly of Virginia:

1. That §§ 15.2-2242, 15.2-2286, and 55-519 of the Code of Virginia are amended and reenacted as follows:

§ 15.2-2242. Optional provisions of a subdivision ordinance.

A subdivision ordinance may include:

1. Provisions for variations in or exceptions to the general regulations of the subdivision ordinance in cases of unusual situations or when strict adherence to the general regulations would result in substantial injustice or hardship.

2. A requirement (i) for the furnishing of a preliminary opinion from the applicable health official regarding the suitability of a subdivision for installation of subsurface sewage disposal systems where such method of sewage disposal is to be utilized in the development of a subdivision and (ii) that all buildings constructed on lots resulting from subdivision of a larger tract that abuts or adjoins a public water or sewer system or main shall be connected to that public water or sewer system or main subject to the provisions of § 15.2-2121.

3. A requirement that, in the event streets in a subdivision will not be constructed to meet the standards necessary for inclusion in the secondary system of state highways or for state street maintenance moneys paid to municipalities, the subdivision plat and all approved deeds of subdivision, or similar instruments, must contain a statement advising that the streets in the subdivision do not meet state standards and will not be maintained by the Department of Transportation or the localities enacting the ordinances. Grantors of any subdivision lots to which such statement applies must include the statement on each deed of conveyance thereof. However, localities in their ordinances may establish minimum standards for construction of streets that will not be built to state standards.

For streets constructed or to be constructed, as provided for in this subsection, a subdivision ordinance may require that the same procedure be followed as that set forth in provision 5 of § 15.2-2241. Further, the subdivision ordinance may provide that the developer's financial commitment shall continue until such time as the local government releases such financial commitment in accordance with provision 11 of § 15.2-2241.

4. Reasonable provision for the voluntary funding of off-site road improvements and reimbursements of advances by the governing body. If a subdivider or developer makes an advance of payments for or construction of reasonable and necessary road improvements located outside the property limits of the land owned or controlled by him, the need for which is substantially generated and reasonably required by the construction or improvement of his subdivision or development, and such advance is accepted, the governing body may agree to reimburse the subdivider or developer from such funds as the governing body may make available for such purpose from time to time for the cost of such advance together with interest, which shall be excludable from gross income for federal income tax purposes, at a rate equal to the rate of interest on bonds most recently issued by the governing body on the following terms and conditions:

a. The governing body shall determine or confirm that the road improvements were substantially generated and reasonably required by the construction or improvement of the subdivision or development and shall determine or confirm the cost thereof, on the basis of a study or studies conducted by qualified traffic engineers and approved and accepted by the subdivider or developer.

b. The governing body shall prepare, or cause to be prepared, a report accepted and approved by the subdivider or developer, indicating the governmental services required to be furnished to the subdivision or development and an estimate of the annual cost thereof for the period during which the reimbursement is to be made to the subdivider or developer.

c. The governing body may make annual reimbursements to the subdivider or developer from funds made available for such purpose from time to time, including but not limited to real estate taxes assessed and collected against the land and improvements on the property included in the subdivision or development in amounts equal to the amount by which such real estate taxes exceed the annual cost of providing reasonable and necessary governmental services to such subdivision or development.

5. In a county having the urban county executive form of government, in any city located within or adjacent thereto, or any county adjacent thereto or a town located within such county, in any county

with a population between 57,000 and 57,450, or in any county with a population between 60,000 and 63,000, and in any city with a population between 140,000 and 160,000, provisions for payment by a subdivider or developer of land of a pro rata share of the cost of reasonable and necessary road improvements, located outside the property limits of the land owned or controlled by him but serving an area having related traffic needs to which his subdivision or development will contribute, to reimburse an initial subdivider or developer who has advanced such costs or constructed such road improvements. Such ordinance may apply to road improvements constructed after July 1, 1988, in a county having the urban county executive form of government; in a city located within or adjacent to a county having the urban county executive form of government, or in a county adjacent to a county having the urban county executive form of government or town located within such county and in any county with a population between 57,000 and 57,450, or in any county with a population between 60,000 and 63,000, such ordinance may only apply to road improvements constructed after the effective date of such ordinance.

Such provisions shall provide for the adoption of a pro rata reimbursement plan which shall include reasonable standards to identify the area having related traffic needs, to determine the total estimated or actual cost of road improvements required to adequately serve the area when fully developed in accordance with the comprehensive plan or as required by proffered conditions, and to determine the proportionate share of such costs to be reimbursed by each subsequent subdivider or developer within the area, with interest (i) at the legal rate or (ii) at an inflation rate prescribed by a generally accepted index of road construction costs, whichever is less.

For any subdivision ordinance adopted pursuant to provision 5 of this section after February 1, 1993, no such payment shall be assessed or imposed upon a subsequent developer or subdivider if (i) prior to the adoption of a pro rata reimbursement plan the subsequent subdivider or developer has proffered conditions pursuant to § 15.2-2303 for offsite road improvements and such proffered conditions have been accepted by the locality, (ii) the locality has assessed or imposed an impact fee on the subsequent development or subdivision pursuant to Article 8 (§ 15.2-2317 et seq.) of Chapter 22, or (iii) the subsequent subdivider or developer has received final site plan, subdivision plan, or plan of development approval from the locality prior to the adoption of a pro rata reimbursement plan for the area having related traffic needs.

The amount of the costs to be reimbursed by a subsequent developer or subdivider shall be determined before or at the time the site plan or subdivision is approved. The ordinance shall specify that such costs are to be collected at the time of the issuance of a temporary or final certificate of occupancy or functional use and occupancy within the development, whichever shall come first. The ordinance also may provide that the required reimbursement may be paid (i) in lump sum, (ii) by agreement of the parties on installment at a reasonable rate of interest or rate of inflation, whichever is less, for a fixed number of years, or (iii) on such terms as otherwise agreed to by the initial and subsequent subdividers and developers.

Such ordinance provisions may provide that no certificate of occupancy shall be issued to a subsequent developer or subdivider until (i) the initial developer certifies to the locality that the subsequent developer has made the required reimbursement directly to him as provided above or (ii) the subsequent developer has deposited the reimbursement amount with the locality for transfer forthwith to the initial developer.

6. Provisions for establishing and maintaining access to solar energy to encourage the use of solar heating and cooling devices in new subdivisions. The provisions shall be applicable to a new subdivision only when so requested by the subdivider.

7. Provisions, in any town with a population between 14,500 and 15,000, granting authority to the governing body, in its discretion, to use funds escrowed pursuant to provision 5 of § 15.2-2241 for improvements similar to but other than those for which the funds were escrowed, if the governing body (i) obtains the written consent of the owner or developer who submitted the escrowed funds; (ii) finds that the facilities for which funds are escrowed are not immediately required; (iii) releases the owner or developer from liability for the construction or for the future cost of constructing those improvements for which the funds were escrowed; and (iv) accepts liability for future construction of these improvements. If such town fails to locate such owner or developer after making a reasonable attempt to do so, the town may proceed as if such consent had been granted. In addition, the escrowed funds to be used for such other improvement may only come from an escrow that does not exceed a principal amount of $30,000 plus any accrued interest and shall have been escrowed for at least five years.

8. Provisions for clustering of single-family dwellings and preservation of open space developments, which provisions shall comply with the requirements and procedures set forth in subdivision A 12 of § 15.2-2286.

9. Provisions for requiring and considering Phase I environmental site assessments based on the anticipated use of the property proposed for the subdivision or development that meet generally accepted national standards for such assessments, such as those developed by the American Society for

Testing and Materials and Phase II environmental site assessments, that also meet accepted national standards, such as, but not limited to, those developed by the American Society for Testing and Materials, if the locality deems such to be reasonably necessary, based on findings in the Phase I assessment, and in accordance with regulations of the United States Environmental Protection Agency and the American Society for Testing and Materials. A reasonable fee may be charged for the review of such environmental assessments. Such fees shall not exceed an amount commensurate with the services rendered, taking into consideration the time, skill, and administrative expense involved in such review.

10. Provisions for requiring disclosure and remediation of contamination and other adverse environmental conditions of the property prior to approval of subdivision and development plans.

§ 15.2-2286. Permitted provisions in zoning ordinances; amendments; applicant to pay delinquent taxes.

A. A zoning ordinance may include, among other things, reasonable regulations and provisions as to any or all of the following matters:

1. For variances or special exceptions, as defined in § 15.2-2201, to the general regulations in any district.

2. For the temporary application of the ordinance to any property coming into the territorial jurisdiction of the governing body by annexation or otherwise, subsequent to the adoption of the zoning ordinance, and pending the orderly amendment of the ordinance.

3. For the granting of special exceptions under suitable regulations and safeguards; notwithstanding any other provisions of this article, the governing body of any locality may reserve unto itself the right to issue such special exceptions. Conditions imposed in connection with residential special use permits, wherein the applicant proposes affordable housing, shall be consistent with the objective of providing affordable housing. When imposing conditions on residential projects specifying materials and methods of construction or specific design features, the approving body shall consider the impact of the conditions upon the affordability of housing.

The governing body or the board of zoning appeals of the City of Norfolk may impose a condition upon any special exception relating to retail alcoholic beverage control licensees which provides that such special exception will automatically expire upon a change of ownership of the property, a change in possession, a change in the operation or management of a facility or upon the passage of a specific period of time.

The governing body of the City of Richmond may impose a condition upon any special use permit issued after July 1, 2000, relating to retail alcoholic beverage licensees which provides that such special use permit shall be subject to an automatic review by the governing body upon a change in possession, a change in the owner of the business, or a transfer of majority control of the business entity. Upon review by the governing body, it may either amend or revoke the special use permit after notice and a public hearing as required by § 15.2-2206.

4. For the administration and enforcement of the ordinance including the appointment or designation of a zoning administrator who may also hold another office in the locality. The zoning administrator shall have all necessary authority on behalf of the governing body to administer and enforce the zoning ordinance. His authority shall include (i) ordering in writing the remedying of any condition found in violation of the ordinance; (ii) insuring compliance with the ordinance, bringing legal action, including injunction, abatement, or other appropriate action or proceeding subject to appeal pursuant to § 15.2-2311; and (iii) in specific cases, making findings of fact and, with concurrence of the attorney for the governing body, conclusions of law regarding determinations of rights accruing under § 15.2-2307. Notwithstanding the provisions of § 15.2-2311, a zoning ordinance may prescribe an appeal period of less than 30 days, but not less than 10 days, for a notice of violation involving temporary or seasonal commercial uses, parking of commercial trucks in residential zoning districts, or similar short-term, recurring violations.

Where provided by ordinance, the zoning administrator may be authorized to grant a modification from any provision contained in the zoning ordinance with respect to physical requirements on a lot or parcel of land, including but not limited to size, height, location or features of or related to any building, structure, or improvements, if the administrator finds in writing that: (i) the strict application of the ordinance would produce undue hardship; (ii) such hardship is not shared generally by other properties in the same zoning district and the same vicinity; and (iii) the authorization of the modification will not be of substantial detriment to adjacent property and the character of the zoning district will not be changed by the granting of the modification. Prior to the granting of a modification, the zoning administrator shall give, or require the applicant to give, all adjoining property owners written notice of the request for modification, and an opportunity to respond to the request within 21 days of the date of the notice. The zoning administrator shall make a decision on the application for modification and issue a written decision with a copy provided to the applicant and any adjoining landowner who responded in writing to the notice sent pursuant to this paragraph. The decision of the zoning administrator shall

constitute a decision within the purview of § 15.2-2311, and may be appealed to the board of zoning appeals as provided by that section. Decisions of the board of zoning appeals may be appealed to the circuit court as provided by § 15.2-2314.

The zoning administrator shall respond within 90 days of a request for a decision or determination on zoning matters within the scope of his authority unless the requester has agreed to a longer period.

5. For the imposition of penalties upon conviction of any violation of the zoning ordinance. Any such violation shall be a misdemeanor punishable by a fine of not less than $10 nor more than $1,000. If the violation is uncorrected at the time of the conviction, the court shall order the violator to abate or remedy the violation in compliance with the zoning ordinance, within a time period established by the court. Failure to remove or abate a zoning violation within the specified time period shall constitute a separate misdemeanor offense punishable by a fine of not less than $10 nor more than $1,000, and any such failure during any succeeding 10-day period shall constitute a separate misdemeanor offense for each 10-day period punishable by a fine of not less than $100 nor more than $1,500.

6. For the collection of fees to cover the cost of making inspections, issuing permits, advertising of notices and other expenses incident to the administration of a zoning ordinance or to the filing or processing of any appeal or amendment thereto.

7. For the amendment of the regulations or district maps from time to time, or for their repeal. Whenever the public necessity, convenience, general welfare, or good zoning practice requires, the governing body may by ordinance amend, supplement, or change the regulations, district boundaries, or classifications of property. Any such amendment may be initiated (i) by resolution of the governing body; (ii) by motion of the local planning commission; or (iii) by petition of the owner, contract purchaser with the owner's written consent, or the owner's agent therefor, of the property which is the subject of the proposed zoning map amendment, addressed to the governing body or the local planning commission, who shall forward such petition to the governing body; however, the ordinance may provide for the consideration of proposed amendments only at specified intervals of time, and may further provide that substantially the same petition will not be reconsidered within a specific period, not exceeding one year. Any such resolution or motion by such governing body or commission proposing the rezoning shall state the above public purposes therefor.

In any county having adopted such zoning ordinance, all motions, resolutions or petitions for amendment to the zoning ordinance, and/or map shall be acted upon and a decision made within such reasonable time as may be necessary which shall not exceed 12 months unless the applicant requests or consents to action beyond such period or unless the applicant withdraws his motion, resolution or petition for amendment to the zoning ordinance or map, or both. In the event of and upon such withdrawal, processing of the motion, resolution or petition shall cease without further action as otherwise would be required by this subdivision.

8. For the submission and approval of a plan of development prior to the issuance of building permits to assure compliance with regulations contained in such zoning ordinance.

9. For areas and districts designated for mixed use developments or planned unit developments as defined in § 15.2-2201.

10. For the administration of incentive zoning as defined in § 15.2-2201.

11. For provisions allowing the locality to enter into a voluntary agreement with a landowner that would result in the downzoning of the landowner's undeveloped or underdeveloped property in exchange for a tax credit equal to the amount of excess real estate taxes that the landowner has paid due to the higher zoning classification. The locality may establish reasonable guidelines for determining the amount of excess real estate tax collected and the method and duration for applying the tax credit. For purposes of this section, "downzoning" means a zoning action by a locality that results in a reduction in a formerly permitted land use intensity or density.

12. Provisions for the clustering of single-family dwellings so as to preserve open space.

a. A locality may, at its option, provide in its zoning or subdivision ordinance standards, conditions and criteria for clustering of single-family dwellings and the preservation of open space developments. In establishing such standards, conditions and criteria, the governing body may, in its discretion, include any provisions it determines appropriate to ensure quality development, preservation of open space and compliance with its comprehensive plan and land use ordinances. The density calculation of the cluster development shall be based upon the same criteria for the property as would otherwise be permitted by applicable land use ordinances. As a locality determines, at its option, to provide for clustering of single-family dwellings and the preservation of open space developments, it may vary provisions for such developments for each different zoning area within the locality.

If proposals for clustering of single-family dwellings and the preservation of open space developments comply with the locality's adopted standards, conditions and criteria, the development and open space preservation shall be permitted by right under the local subdivision ordinance. The implementation and approval of the cluster development and open space preservation shall be done administratively by the locality's staff and without a public hearing. No local ordinance shall require that

a special exception, special use, or conditional use permit be obtained for such developments. However, any such ordinance may exempt developments of two acres or less from the provisions of this subdivision.

b. Additionally, in any zoning or subdivision ordinance adopted pursuant to subdivision A 12, a locality may, at its option, provide for the clustering of single-family dwellings and the preservation of open space at a density calculation greater than the density permitted in the applicable land use ordinance. To implement and approve such increased density development, the locality may, at its option, (i) establish and provide in its zoning or subdivision ordinance standards, conditions, and criteria for such development, and if the proposed development complies with those standards, conditions and criteria, it shall be permitted by right and approved administratively by the locality staff in the same manner provided in subdivision A 12 a, or (ii) approve the increased density development upon approval of a special exception, special use permit, conditional use permit or rezoning.

c. Any locality that provides for clustering of single-family dwellings and preservation of open space upon approval of a special exception, special use permit, conditional use permit or rezoning shall no later than July 1, 2004, amend its applicable land use ordinance to comply with the provisions of subdivision A 12. Any land use provisions for clustering of single-family dwellings and preservation of open space adopted after the effective date of this act shall comply with subdivision A 12. Notwithstanding any of the requirements of subdivision A 12 to the contrary, any local government land use ordinance in affect as of January 1, 2002, that provides for the clustering of single-family dwellings and preservation of open space development by right without requiring either a special exception, special use permit, conditional use permit or other discretionary approval may remain in effect at the option of the locality.

13. Provisions for requiring and considering Phase I environmental site assessments based on the anticipated use of the property proposed for the subdivision or development that meet generally accepted national standards for such assessments, such as those developed by the American Society for Testing and Materials, and Phase II environmental site assessments, that also meet accepted national standards, such as, but not limited to, those developed by the American Society for Testing and Materials, if the locality deems such to be reasonably necessary, based on findings in the Phase I assessment, and in accordance with regulations of the United States Environmental Protection Agency and the American Society for Testing and Materials. A reasonable fee may be charged for the review of such environmental assessments. Such fees shall not exceed an amount commensurate with the services rendered, taking into consideration the time, skill, and administrative expense involved in such review.

14. Provisions for requiring disclosure and remediation of contamination and other adverse environmental conditions of the property prior to approval of subdivision and development plans.

B. Prior to the initiation of an application for a special exception, special use permit, variance, rezoning or other land disturbing permit, including building permits and erosion and sediment control permits, or prior to the issuance of final approval, the authorizing body may require the applicant to produce satisfactory evidence that any delinquent real estate taxes owed to the locality which have been properly assessed against the subject property have been paid.

§ 55-519. Required disclosures.

A. With regard to transfers described in § 55-517 of this chapter, the owner of the residential real property shall furnish to a purchaser one of the following:

1. Except with respect to the disclosures required by § 55-519.1, a residential property disclaimer statement in a form provided by the Real Estate Board stating that the owner makes no representations or warranties as to the condition of the real property or any improvements thereon, and that the purchaser will be receiving the real property "as is," that is, with all defects which may exist, if any, except as otherwise provided in the real estate purchase contract; or

2. A residential property disclosure statement disclosing those items contained in a form provided by the Real Estate Board to implement the provisions of this chapter and to list items which are required to be disclosed relative to the physical condition of the property. Such disclosure form may include defects of which the owner has actual knowledge regarding: (i) the water and sewer systems, including the source of household water, water treatment system, and sprinkler system; (ii) insulation; (iii) structural systems, including roof, walls, floors, foundation and any basement; (iv) plumbing, electrical, heating and air conditioning systems; (v) wood-destroying insect infestation; (vi) land use matters; (vii) hazardous or regulated materials, including asbestos, lead-based paint, radon and underground storage tanks *or other adverse environmental site conditions*; and (viii) other material defects known to the owner. The disclosure form shall contain a notice to prospective purchasers and owners (a) that the prospective purchaser and the owner may wish to obtain professional advice or inspections of the property and (b) that information is available at the Department of Environmental Quality which identifies confirmed releases or discharges of oil *or other adverse environmental site conditions* which may affect the property. The disclosure form shall also contain a notice to purchasers that the

information contained in the disclosure is the representations of the owner and is not the representations of the broker or salesperson, if any. The owner shall not be required to undertake or provide any independent investigation or inspection of the property in order to make the disclosures required by this chapter.

B. The disclosure and disclaimer forms shall contain a notice to purchasers that regardless of whether the owner proceeds under subdivision 1 or 2 of subsection A, the owner makes no representations with respect to any matters which may pertain to parcels adjacent to the subject parcel. Further, such notice shall advise purchasers to exercise whatever due diligence a particular purchaser deems necessary with respect to adjacent parcels in accordance with terms and conditions as may be contained in the real estate purchase contract, but in any event, prior to settlement on a parcel of residential real property.

C. The disclosure and disclaimer forms shall contain a notice to purchasers that whether the owner proceeds under subdivision 1 or 2 of subsection A, purchasers should exercise whatever due diligence they deem necessary with respect to information on any sexual offenders registered under Chapter 23 (§ 19.2-387 et seq.) of Title 19.2, including how to obtain such information.
