060817782 1 **SENATE BILL NO. 346** 2 Offered January 11, 2006 3 Prefiled January 11, 2006 4 A BILL to amend and reenact § 33.1-41.1 of the Code of Virginia, relating to payments by the 5 Commonwealth Transportation Commissioner to the Town of Broadway for maintenance, 6 construction, or reconstruction of highways. 7 Patron-Obenshain 8 9 Referred to Committee on Transportation 10 Be it enacted by the General Assembly of Virginia: 11 12 1. That § 33.1-41.1 of the Code of Virginia is amended and reenacted as follows: § 33.1-41.1. Payments to cities and certain towns for maintenance of certain highways. 13 14 The Commonwealth Transportation Commissioner, subject to the approval of the Commonwealth 15 Transportation Board, shall make payments for maintenance, construction, or reconstruction of highways, 16 as hereinafter provided, to all cities and towns eligible for allocation of construction funds for urban highways under § 33.1-23.3 and to the Town of Broadway. Such payments, however, shall only be made 17 18 if those highways functionally classified as principal and minor arterial roads are maintained to a standard satisfactory to the Department of Transportation. Whenever any city or town qualifies under 19 20 this section for allocation of funds, such qualification shall continue to apply to such city or town 21 regardless of any subsequent change in population and shall cease to apply only when so specifically 22 provided by an act of the General Assembly. All allocations made prior to July 1, 2001, to cities and 23 towns meeting the criteria of the foregoing provisions of this section are hereby confirmed. 24 No payments shall be made by the Commissioner to any such city or town unless the portion of the 25 highway for which such payment is made either (a) has (i) an unrestricted right-of-way at least 50 feet wide and (ii) a hard-surface width of at least 30 feet; or (b) has (i) an unrestricted right-of-way at least 26 27 80 feet wide, (ii) a hard-surface width of at least 24 feet, and (iii) approved engineering plans for the 28 ultimate construction of an additional hard-surface width of at least 24 feet within the same 29 right-of-way; or (c) (i) is a cul-de-sac, (ii) has an unrestricted right-of-way at least 40 feet wide, and (iii) 30 has a turnaround that meets applicable standards set by the Department of Transportation; or (d) either (i) has been paved and has constituted part of the primary or secondary system of state highways prior 31 to annexation or incorporation or (ii) has constituted part of the secondary system of state highways 32 33 prior to annexation or incorporation and is paved to a minimum width of 16 feet subsequent to such 34 annexation or incorporation and with the further exception of streets or portions thereof which have previously been maintained under the provisions of § 33.1-79 or § 33.1-82; or (e) was eligible for and 35 36 receiving such payments under the laws of the Commonwealth in effect on June 30, 1985; or (f) is a 37 street established prior to July 1, 1950, which has an unrestricted right-of-way width of not less than 30 38 feet and a hard-surface width of not less than 16 feet; or (g) is a street functionally classified as a local 39 street and constructed on or after January 1, 1996, which at the time of approval by the city or town met the criteria for pavement width and right-of-way of the then-current edition of the subdivision street 40 41 requirements manual for secondary roads of the Department of Transportation (24 VAC 30-90-10 et 42 seq.); (h) is a street previously eligible to receive street payments that is located in a city having a population of at least 200,000 but no more than 250,000 and is closed to public travel, pursuant to 43 legislation enacted by the governing body of the city in which it is located, for public safety reasons, 44 within the boundaries of a publicly funded housing development owned and operated by the local 45 housing authority; or (i) is a local street, otherwise eligible, containing one or more physical 46 47 protuberances placed within the right-of-way for the purpose of controlling the speed of traffic.

However, the Commissioner may waive the requirements as to hard-surface pavement or right-of-way width for highways where the width modification is at the request of the local governing body and is to protect the quality of the affected local government's drinking water supply or, for highways constructed on or after July 1, 1994, to accommodate some other special circumstance where such action would not compromise the health, safety, or welfare of the public. The modification is subject to such conditions as the Commissioner may prescribe.

54 For the purpose of calculating allocations and making payments under this section, the Department 55 shall divide affected highways into two categories, which shall be distinct from but based on functional 56 classifications established by the Federal Highway Administration: (i) principal and minor arterial roads 57 and (ii) collector roads and local streets. Payments to affected localities shall be based on the number of 58 moving-lane-miles of highways or portions thereof available to peak-hour traffic in each category of SB346

59 highways in that locality. For the fiscal year 1986, payment to each city and town shall be an amount

equal to \$7,787 per moving-lane-mile for principal and minor arterials and \$4,572 per moving-lane-milefor collector roads and local streets.

62 The Department of Transportation shall establish a statewide maintenance index of the unit costs for 63 labor, equipment, and materials used on roads and bridges in the fiscal year 1986, and use changes in 64 that index to calculate and put into effect annual changes in the base per-lane-mile rate payable under 65 this section.

66 The fund allocated by the Board shall be paid in equal sums in each quarter of the fiscal year, and67 no payment shall be made without the approval of the Board.

68 The chief administrative officer of the city or town receiving this fund shall make annual categorical 69 reports of expenditures to the Board, in such form as the Board shall prescribe, accounting for all 70 expenditures, certifying that none of the money received has been expended for other than maintenance.

70 expenditures, certifying that none of the money received has been expended for other than maintenance, construction or reconstruction of the streets, and reporting on their performance as specified in

72 subdivision B 3 of § 33.1-23.02. Such reports shall be included in the scope of the annual audit of each

73 municipality conducted by independent certified public accountants.
