The Board's regulations must include requirements that a person seeking initial licensure complete professional assessments prescribed by the Board and complete study in attention deficit disorder, gifted education, and family involvement in student learning. In addition, every person seeking initial licensure or licensure by renewal must demonstrate proficiency in the use of educational technology and receive professional development in instructional methods promoting student academic progress and Standards of Learning assessments. Persons seeking initial licensure or first-time licensure renewal must complete prescribed study in child abuse. All persons seeking licensure with an endorsement as a teacher of the blind and visually impaired must demonstrate proficiency in reading and writing Braille. The Board's regulations must also provide for licensure of principals and assistant principals contingent upon a prescribed assessment; criteria to effectuate the substitution of experiential learning for coursework for those seeking initial licensure through an alternate route; and licensure by reciprocity.
