

## 1 VIRGINIA ACTS OF ASSEMBLY — CHAPTER

2 *An Act to amend and reenact § 28.2-526 of the Code of Virginia, relating to oysters.*

3 [H 1993]

4 Approved

5 **Be it enacted by the General Assembly of Virginia:**6 **1. That § 28.2-526 of the Code of Virginia is amended and reenacted as follows:**

7 § 28.2-526. Oyster measures; standards; penalty.

8 A. It is unlawful for any person to buy or sell oysters in the shell by any measure other than  
9 one-half bushel or one bushel metallic measures except as provided in subsection B, C or D of this  
10 section. Such measures shall be iron circular tubs with straight sides and straight bottoms with holes, if  
11 desired, for draining one inch in diameter. A half-bushel tub shall have the following dimensions, all  
12 measured from inside to inside: fifteen inches across the top, thirteen inches across the bottom, and  
13 seventeen inches diagonally from the inside chine to the top; and a bushel tub shall measure 18 1/2  
14 inches across the top, seventeen inches across the bottom, and 21 1/2 inches diagonally from the inside  
15 chine to the top. Oysters harvested from the public rocks in the Potomac River or its tributaries may be  
16 bought or sold in one bushel metallic measures which shall measure eighteen inches across the top, 16  
17 1/2 inches across the bottom, and twenty-one inches diagonally from the inside chine to the top. Such  
18 metallic measure must be level full across the entire top of the measure to be considered a full measure.

19 Any seller of oysters or oyster shells who fails to furnish *at the point of landing* a full measure as  
20 defined in this section, or a buyer of any seed oysters or oyster shells who accepts less than a full  
21 measure as defined in this section, is guilty of a Class 1 misdemeanor.

22 B. Oysters may be sold in containers of a size greater than 18 1/2 inches across the top, seventeen  
23 inches across the bottom, and 21 1/2 inches diagonally from the inside chine to the top if such container  
24 has been approved by the Commissioner and its use to measure oysters has been approved by both the  
25 buyer and seller.

26 C. On the eastern or ocean side of the Eastern Shore, oysters may be sold without being measured if  
27 both the buyer and the seller agree to the number of bushels of oysters in the transaction.

28 D. Cultured oysters in the shell may be sold in any measure or container agreeable to the buyer and  
29 seller.

ENROLLED
