§ 32.1-283. Investigation of deaths; obtaining consent to removal of organs, etc.; fees.

A. Upon the death of any person from trauma, injury, violence, poisoning, accident, suicide or homicide, or suddenly when in apparent good health, or when unattended by a physician, or in jail, prison, other correctional institution or in police custody, or who is a patient or resident of a state mental health or mental retardation facility, or suddenly as an apparent result of fire, or in any suspicious, unusual or unnatural manner, or the sudden death of any infant less than eighteen months of age whose death is suspected to be attributable to Sudden Infant Death Syndrome (SIDS), the medical examiner of the county or city in which death occurs shall be notified by the physician in attendance, hospital, law-enforcement officer, funeral director or any other person having knowledge of such death. Good faith efforts shall be made by such person or institution having custody of the dead body to identify the next of kin of the decedent, and such identity, if determined, shall be provided to the Chief Medical Examiner upon transfer of the dead body. After identification of the next of kin, the person or institution, or agent of such person or institution, having custody of the dead body shall attempt to obtain consent for removal of the pituitary or other organs, glands, eyes or tissues for use in transplants or therapy.

B. Upon being notified of a death as provided in subsection A, the medical examiner shall take charge of the dead body, make an investigation into the cause and manner of death, reduce his findings to writing, and promptly make a full report to the Chief Medical Examiner. In order to facilitate his investigation, the medical examiner is authorized to inspect and copy the pertinent medical records of the decedent whose death he is investigating. Full directions as to the nature, character and extent of the investigation to be made in such cases shall be furnished each medical examiner by the Chief Medical Examiner, together with appropriate forms for the required reports and instructions for their use. The facilities and personnel under the Chief Medical Examiner shall be made available to medical examiners in such investigations.

C. A copy of each report pursuant to this section shall be delivered to the appropriate attorney for the Commonwealth and to the appropriate law-enforcement agency investigating the death. D. For each investigation under this article, including the making of the required reports, the medical examiner shall receive a fee established by the Board within the limitations of appropriations for the purpose. Such fee shall be paid by the Commonwealth, if the deceased is not a legal resident of the county or city in which his death occurred. In the event the deceased is a legal resident of the county or city in which his death occurred, such county or city shall be responsible for the fee *up to \$20*; ~~however, the Commonwealth shall reimburse such county or city to the extent such fee exceeds \$20.~~ If the deceased is a patient or resident of a state mental health or mental retardation facility, the fee shall be paid by the Department of Mental Health, Mental Retardation and Substance Abuse Services.
