Be it enacted by the General Assembly of Virginia:

1. That the Code of Virginia is amended by adding in Chapter 22 of Title 2.2 an article numbered 10, consisting of sections numbered 2.2-2336 through 2.2-2353, as follows:

*Article 10.**Virginia Nanotechnology Authority Act of 2007.**§ 2.2-2336. Short title; definitions.*

This article may be cited as the "Virginia Nanotechnology Authority Act of 2007."

For purposes of this article "nanotechnology" means the manipulation of particles at the less-than-100-nanometer scale and "nanotechnology company" means (i) an entity that manufactures, processes, or assembles products incorporating the use of nanotechnology; (ii) a commercial enterprise making sales or providing services to industries described in clause (i); (iii) an enterprise for research and development in nanotechnology, including but not limited to scientific laboratories; (iv) a not-for-profit entity operating in the Commonwealth that promotes nanotechnology; or (v) such other businesses as will be in furtherance of the public purposes of this article.

§ 2.2-2337. Declaration of public purpose; Authority created.

A. It is found and determined by the General Assembly that there exists in the Commonwealth of Virginia a need to (i) advise the General Assembly, federal, state, and local agencies, nonprofit organizations, private industry and other potential users of nanotechnology; (ii) coordinate the research efforts of institutions of higher education in the field of nanotechnology; (iii) define and develop a state strategic plan and core competencies in nanotechnology; (iv) mobilize support for nanotechnology industries to commercialize new products and processes, including organizing assistance for small businesses and supporting select industry sectors and regional cluster efforts; (v) attract research and development (R&D) facilities and contracts from the federal government and private sector, including coordinating efforts to identify and compete for large federal and private sector R&D facilities, tracking federal nanotechnology initiatives and recommending state actions, and developing a statewide strategy to compete for large R&D contracts; and (vi) facilitate and coordinate the marketing, organization, utilization and development of scientific and technological research and development in the Commonwealth.

B. To achieve the objectives of subsection A, there is created and constituted a political subdivision of the Commonwealth to be known as the "Virginia Nanotechnology Authority." § 2.2-2338. Board of directors; members; President.

The Authority shall be governed by a board of directors consisting of 16 members appointed for terms of five years by the Governor, two of whom shall be the presidents of major research universities in Virginia and one of whom shall represent the other public colleges or universities in Virginia. After the original appointments, all appointments of presidents of major research universities shall be for terms of five years, except that appointments to fill vacancies shall be for the unexpired terms. No president shall be eligible to serve for more than two successive five-year terms; however, after the expiration of a term of four years or less, or after the expiration of the remainder of a term to which appointed to fill a vacancy, two additional terms may be served by such member if appointed thereto. The Secretary of Education, the Secretary of Commerce and Trade, the Secretary of Technology, and the Director of the State Council of Higher Education shall serve on the Board for terms coincident with their terms of office. The Governor shall appoint the nine other members of the Board for terms of four years and who shall be nominated by established industry groups and technology councils within the Commonwealth. 190 of the Commonwealth or of any political subdivision thereof, but shall be payable solely from the
191 revenue and other funds of the Authority pledged thereto. All such obligations shall contain on the face
192 thereof a statement to the effect that the Commonwealth, political subdivisions thereof, and the Authority

212 limitations with respect to the issuance of additional bonds. It shall be lawful for any bank or trust
213 company incorporated under the laws of the Commonwealth, which may act as depository of the
214 proceeds of bonds or of revenue, to furnish the indemnifying bonds or to pledge the securities required
215 by the Authority. Any trust agreement may set forth the rights of action by bondholders. In addition to
216 the foregoing, any trust agreement or resolution may contain such other provisions as the Authority may
217 deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out
218 the provisions of the trust agreement or resolution may be treated as a part of the cost of the operation
219 of the project or projects.

329 donations from public or private sources, there is created in the state treasury a special nonreverting,
330 permanent fund, to be known as the Nanotechnology Development Fund (the Fund), to be administered
331 by the Authority. The Fund shall be established on the books of the Comptroller. Interest earned on
332 moneys in the Fund shall remain in the Fund and be credited to it. Any moneys remaining in the Fund
333 at the end of each fiscal year, including interest thereon, shall not revert to the general fund but shall
334 remain in the Fund. Expenditures and disbursements from the Fund, which may consist of grants or
335 loans, shall be made by the State Treasurer on warrants issued by the Comptroller upon written request
336 bearing the signature of the chairman or the vice-chairman of the Authority, or, if so authorized by the
337 Authority, bearing his facsimile signature, and the official seal of the Authority.

338 B. Moneys in the Fund shall be used for the purpose of (i) attracting public and private research
339 funding for institutions of higher education, in order to increase technological and economic
340 development in Virginia; (ii) commercializing intellectual property at institutions of higher education
341 and nanotechnology companies in Virginia; and (iii) supporting development of existing companies
342 specializing in nanotechnology and those companies seeking to perform research and development in
343 nanotechnology.

344 C. For purposes of awards, the Fund shall have five components:

345 1. A grant program to provide a flexible source of funding for the creation and generation of talent
346 in institutions of higher education and, with appropriate connections to vocational-technical schools and
347 other secondary schools, for student outreach and development. Grants pursuant to this subsection shall
348 be awarded to institutions of higher education and may be used to establish nanotechnology
349 postsecondary education programs and a clearinghouse for curriculum development, scholarships and
350 student outreach.

351 2. A grant program to provide funding for the promotion of collaborative research applications
352 between industry and institutions of higher education. Grants pursuant to this subsection shall be
353 awarded to institutions of higher education, technology-focused organizations and business entities.

354 3. Discovery grants, not to exceed \$50,000, to support postdoctorate or graduate students working
355 with industry on nanotechnology projects under the supervision of faculty members. Each discovery
356 grant shall be matched with a direct or in-kind industry grant in the same amount. However, for good
357 cause, this requirement may be waived, in whole or in part, by the chairman of the Authority, provided
358 that such action is reported to the Chairmen of the House Appropriations and Senate Finance
359 Committees at least 10 days prior to the award or disbursement of such funds for such purpose.

360 4. Collaborative grants, not to exceed \$150,000, to support university research teams working with
361 industry on collaborative research projects focused on specific application development. Each
362 collaborative grant shall be matched with an industry grant in the same amount. However, for good
363 cause, this requirement may be waived, in whole or in part, by the chairman of the Authority, provided
364 that such action is reported to the Chairmen of the House Appropriations and Senate Finance
365 Committees at least 10 days prior to the award or disbursement of such funds for such purpose.

366 5. Prototype grants, not to exceed \$250,000, to enable universities and companies to demonstrate

whether a prototype is functional, manufacturable, and commercially viable. Each prototype grant shall be matched with an industry grant in an amount equal to two dollars for every one dollar of such prototype grant.

Awards for the matching funds component shall be contingent upon the approval of the institution's grant proposal for federal or private funds.

D. Specific guidelines for the award of funds shall be established and maintained by the Authority, in consultation with the Virginia Economic Development Partnership and the State Council of Higher Education. These guidelines shall address, at a minimum, the application process, guidelines to be used by the Board in reviewing proposals, and give special emphasis to fostering collaboration between institutions of higher education and partnerships between institutions of higher education and business and industry.

The chairman of the Authority shall coordinate the evaluation of proposals, to be conducted by the Board on a quarterly basis. If consideration of any proposal would present a conflict of interest to any member of the Board, that member shall recuse himself from the review process.

Recommendations on the grants shall be made by representatives from the Virginia Research and Technology Advisory Commission pursuant to § 2.2-2515, the Virginia Economic Development Partnership, and the State Council of Higher Education.

E. The chairman of the Authority shall provide the Governor and the General Assembly with an annual report to include a detailed list of awards committed, the amount of each approved award, a description of the approved proposals, and the amount of federal or private matching funds anticipated where applicable, and an assessment of the effectiveness of the Fund in attracting public and private research funding and increasing technological and economic development in Virginia.
