9	Be it enacted by the General Assembly of Virginia:
10	1. That § 32.1-46 of the Code of Virginia is amended and reenacted as follows:
11	§ 32.1-46. Immunization of patients against certain diseases.
12	A. The parent, guardian or person standing in loco parentis of each child within this Commonwealth
13	shall cause such child to be immunized in accordance with the Immunization Schedule developed and
14	published by the Centers for Disease Control and Prevention (CDC), Advisory Committee on
15	Immunization Practices (ACIP), the American Academy of Pediatrics (AAP), and the American Academy of Family Physicians (AAFP). The manipulations for attendence at a public or
16 17	Academy of Family Physicians (AAFP). The required immunizations for attendance at a public or private elementary, middle or secondary school, child care center, nursery school, family day care home
18	or developmental center shall be those set forth in the State Board of Health Regulations for the
19	Immunization of School Children. The Board's regulations shall at a minimum require:
20	1. A minimum of three properly spaced doses of hepatitis B vaccine (HepB).
2 1	2. A minimum of three or more properly spaced doses of diphtheria toxoid. One dose shall be
22	administered on or after the fourth birthday. A booster dose shall be administered prior to entering the
23	sixth grade if at least five years have passed since the last dose of diphtheria toxoid.
24	3. A minimum of three or more properly spaced doses of tetanus toxoid. One dose shall be
25	administered on or after the fourth birthday. A booster dose of Tdap vaccine shall be administered prior
26	to entering the sixth grade if at least five years have passed since the last dose of tetanus toxoid.
27	4. A minimum of three or more properly spaced doses of acellular pertussis vaccine. One dose shall
28	be administered on or after the fourth birthday. A booster dose shall be administered prior to entry into
29 30	the sixth grade if at least five years have passed since the last dose of pertussis vaccine.
30 31	5. Two or three primary doses of Haemophilus influenzae type b (Hib) vaccine, depending on the manufacturer, for children up to 60 months of age.
32	6. Two properly spaced doses of live attenuated measles (rubeola) vaccine. The first dose shall be
33	administered at age 12 months or older.
34	7. One dose of live attenuated rubella vaccine shall be administered at age 12 months or older.
35	8. One dose of live attenuated mumps vaccine shall be administered at age 12 months or older.
36	9. All susceptible children born on and after January 1, 1997, shall be required to have one dose of
37	varicella vaccine on or after 12 months.
38	10. Three or more properly spaced doses of oral polio vaccine (OPV) or inactivated polio vaccine
39	(IPV). One dose shall be administered on or after the fourth birthday. A fourth dose shall be required if
40	the three dose primary series consisted of a combination of OPV and IPV.
41 42	11. Two to four doses, dependent on age at first dose, of properly spaced pneumococcal 7-valent
42 43	conjugate (PVC) vaccine for children less than two years of age. 12. Three doses of properly spaced human papillomavirus (HPV) vaccine for females. The first dose
4 3 4 4	shall be administered before the child enters the sixth grade.
45	The parent, guardian or person standing in loco parentis may have such child immunized by a
46	physician or registered nurse or may present the child to the appropriate local health department, which
47	shall administer the vaccines required by the State Board of Health Regulations for the Immunization of
48	School Children without charge.
49	B. A physician, registered nurse or local health department administering a vaccine required by this
50	section shall provide to the person who presents the child for immunizations a certificate that shall state
51	the diseases for which the child has been immunized, the numbers of doses given, the dates when
52 52	administered and any further immunizations indicated.
53 54	C. The vaccines required by this section shall meet the standards prescribed in, and be administered
54 55	in accordance with, regulations of the Board.
55 56	D. The provisions of this section shall not apply if: 1. The parent or guardian of the child objects thereto on the grounds that the administration of
50 57	immunizing agents conflicts with his religious tenets or practices, unless an emergency or epidemic of
58	disease has been declared by the Board, or
	-

58

59 2. The parent or guardian presents a statement from a physician licensed to practice medicine in
60 Virginia, or a licensed nurse practitioner, that states that the physical condition of the child is such that
61 the administration of one or more of the required immunizing agents would be detrimental to the health
62 of the child.

63 E. For the purpose of protecting the public health by ensuring that each child receives 64 age-appropriate immunizations, any physician, physician assistant, nurse practitioner, licensed institutional health care provider, local or district health department, the Virginia Immunization 65 Information System, and the Department of Health may share immunization and patient locator 66 information without parental authorization, including, but not limited to, the month, day, and year of 67 each administered immunization; the patient's name, address, telephone number, birth date, and social **68** security number; and the parents' names. The immunization information; the patient's name, address, 69 telephone number, birth date, and social security number; and the parents' names shall be confidential 70 71 and shall only be shared for the purposes set out in this subsection.

F. The State Board of Health shall review this section annually and make recommendations for
 revision by September 1 to the Governor, the General Assembly, and the Joint Commission on Health
 Care.

75 2. That the provisions of this act shall become effective on [September October] 1, 2008.
