5. Summary/Purpose: Approval of transmission lines; affect on the legal status of comprehensive plans and local zoning ordinances. Eliminates provision that provided that the State Corporation Commission's approval of a transmission line satisfies the requirements of § 15.2-2232 (legal status of comprehensive plan) and local zoning ordinances with respect to such transmission line.

6. Fiscal Impact Estimates are: Not quantifiable. See Item # 8.

7. Budget amendment necessary: Not aware of necessity.

8. Fiscal implications: Fiscal implications cannot be determined at this time.

9. Specific agency or political subdivisions affected: State Corporation Commission, localities.

10. Technical amendment necessary: Not aware of necessity.

11. Other comments: This bill would allow for more local authority with respect to the construction of a transmission line. However, should undue local opposition develop, it could also potentially delay the construction of electrical facilities needed to provide reliable electric service with Virginia.
