3. Committee Passed Both Houses

4. Title Mandatory boating safety education; penalty.

5. Summary/Purpose:

Creates a \$100 civil penalty for anyone to operate a motorboat with a motor of 10 horsepower or greater without having successfully completed an approved boating safety education course. The education requirement is phased-in so that by July 1, 2016, all motorboat operators will have been required to complete and pass the course or an equivalency exam. The Board is directed to develop and administer the boating safety education program through the promulgation of regulations, taking into account comments from the public. There are a number of ways a person can comply with the law other than successfully completing an approved course, such as passing an equivalency examination, possessing a valid license issued to maritime personnel, being registered as a commercial fisherman, etc.

6. Fiscal Impact Estimates are: Final, see item 8, below.

7. Budget amendment necessary: No.

8. Fiscal implications: According to the Department of Game and Inland Fisheries, any fiscal impact the legislation may have on the agency is expected to be minimal. To comply with the provisions of the bill the agency will likely need to maintain a database of those individuals who have completed the boating safety training or have otherwise satisfied the requirement, and establish regulations.

Game and Inland Fisheries, the Coast Guard auxiliary and private vendors currently offer approved courses, many of which are available on-line.

The bill also provides for a civil penalty in the amount of \$250. Any revenue from this penalty will be deposited to the Motorboat and Water Safety Fund of the Game Protection Fund.

9. Specific agency or political subdivisions affected: Department of Game and Inland Fisheries.

10. Technical amendment necessary: No.

11. Other comments: This bill is identical to HB 1627.
