State Corporation Commission 2007 Fiscal Impact Statement

1.	Bill Number SB1362			
	House of Origin	Introduced	Substitute	Engrossed
	Second House	☐ In Committee	e Substitute	Enrolled
2.	Patron (Colgan		
3.	Committee I	n conference		
	Title Commission.	Construction of elect	trical utility facilit	ies; review by State Corporation
5. Summary/Purpose: Construction of electrical utility facilities; review of transmission line applications by State Corporation Commission. Requires the State Corporation Commission to verify the load flow modeling, contingency analyses, and reliability needs that are presented by the applicant to justify the new line and its proposed method of installation. The bill also will require a public utility to provide a GIS map of any proposed improvement or extension that the Commission shall make publicly available on its website. The utilities are currently required to provide a map, but the Code does not specify that it must be a GIS map.				
Co	quire a public u ommission shall	tility to provide a Gi I make publicly avai	IS map of any pro- ilable on its websi	posed improvement or extension that the te. The utilities are currently required to
