7. **Budget amendment necessary:** No.

8. **Fiscal implications:** Funding for this project would provide the necessary computer software for blocking and filtering of Internet sites as required by this legislation and the required software upgrades. The funding would have to be provided by the state under the State Formula for Aid for Local Public Libraries or absorbed by the locality. The General Assembly provided general fund support of \$190,000 for this purpose; thus, no budget amendment is required.

9. **Specific agency or political subdivisions affected:** Library of Virginia; all local library systems receiving funding from the Commonwealth.

10. **Technical amendment necessary:** No.

11. Other comments: Software costs estimates were provided by the Library of Virginia. Software would likely need to be upgraded every three years. The bill is identical to House Bill 2197.
