 76 data storage system. Where a procedural microphotographic system is used, the docketing may be done
 77 by recording and storing a retrievable image of the judgment order, judgment abstract, or other source

 79 document image shall be stored in a data format which permits recall of the image. *Any judgment*

 90 at which the same was received in his office to be entered of record. There shall also be shown on such
 91 book the name of the plaintiff's attorney, if any.

92 C. Error or omission in the entry of the address or addresses or the social security number or
 93 numbers of each party against whom judgment is rendered shall in no way affect the validity, finality or
 94 priority of the judgment docketed.

95 D. Beginning July 1, 2010, any judgment made available to subscribers via secure remote access
 96 pursuant to § 17.1-294 shall contain only the last four digits of the social security number of any party.
 97 However, the information otherwise required in the judgment docket pursuant to ~~subsection B~~ of this
 98 section shall be provided.

 102 judgment that does not comply with the provisions of this section.

103 § 17.1-225. Remote access to nonconfidential court records.

When existing deed books in the office of the clerk of the circuit court of any county or city are to be microfilmed *or digitally reproduced* for security purposes, the clerk may provide that marginal notations to accomplish the release of deeds of trust or other liens shall not be made in such deed book so microfilmed *or digitally reproduced*.
