**HOUSE BILL NO. 1119**

Offered January 9, 2008

Prefiled January 9, 2008

*A BILL to amend and reenact § 36-49.1:1 of the Code of Virginia, relating to derelict structures.*

Patron—Miller, P.J.

Referred to Committee on General Laws

**Be it enacted by the General Assembly of Virginia:****1. That § 36-49.1:1 of the Code of Virginia is amended and reenacted as follows:**

§ 36-49.1:1. Spot blight and derelict structure abatement authorized; procedures.

A. Notwithstanding any other provision of this chapter, an authority, or any locality, shall have the power to acquire or repair any blighted property, as defined in § 36-3, whether inside or outside of a conservation or redevelopment area, by purchase or through the exercise of the power of eminent domain provided in Chapter 2 (§ 25.1-200 et seq.) of Title 25.1, and, further, shall have the power to hold, clear, repair, manage or dispose of such property for purposes consistent with this chapter. In addition, the authority and locality shall have the power to recover the costs of any repair or disposal of such property from the owner or owners of record, determined in accordance with subsection B of § 36-27. This power shall be exercised only in accordance with the procedures set forth in this section.

B. The chief executive or designee of the locality or authority shall make a preliminary determination that a property is blighted in accordance with this chapter. It shall send notice to the owner or owners of record determined in accordance with subsection B of § 36-27, specifying the reasons why the property is blighted. The owner or owners of record shall have 30 days from the date the notice is sent in which to respond in writing with a spot blight abatement plan to address the blight within a reasonable time.

C. If the owner or owners of record fail to respond within the 30-day period with a written spot blight abatement plan that is acceptable to the chief executive of the agency, authority or locality, the agency, authority or locality (i) may request the local planning commission to conduct a public hearing and make findings and recommendations that shall be reported to the governing body of the locality concerning the repair or other disposition of the property in question and (ii) in the event a public hearing is scheduled, shall prepare a written spot blight abatement plan for the repair or other disposition of the property.

D. No spot blight abatement plan shall be effective until notice has been sent to the property owner or owners of record in accordance with subsection B of § 36-27 and an ordinance has been adopted by the local governing body. Not less than three weeks prior to the date of the public hearing before the planning commission, the commission shall provide by regular and certified mail, notice of such hearing to (i) the owner of the blighted property or the agent designated by him for receipt of service of notices concerning the payment of real estate taxes within the locality; (ii) the abutting property owners in each direction, including those property owners immediately across the street or road from the property; and (iii) the representative neighborhood association, if any, for the immediate area. The notice shall include the plan for the intended repair or other disposition of the property. The notice of the public hearing shall be published at least twice, with not less than six days elapsing between the first and second publication in a newspaper published or having general circulation in the locality in which the property is located. The notice also shall be posted on the property. The notice shall specify the time and place of the hearing at which persons affected may appear and present their views, not less than six days nor more than 21 days after the second publication.

E. The planning commission shall determine whether:

1. The property is blighted;
2. The owner has failed to cure the blight or present a reasonable plan to do so;
3. The plan for the repair or other disposition of the property is in accordance with the locally adopted comprehensive plan, zoning ordinances, and other applicable land use regulations; and
4. The property is located within an area listed on the National Register of Historic Places. In such instances, the planning commission shall consult with the locally established architectural review board, if any, regarding the proposed repair or other disposition of the property by the authority or governing body.

F. The planning commission shall report its findings and recommendations concerning the property to the governing body. The governing body, upon receipt of such findings and recommendations, may, after an advertised public hearing, affirm, modify, or reject the planning commission's findings and recommendations. If the repair or other disposition of the property is approved, the authority, agency or

INTRODUCED

HB1119

59 locality may carry out the approved plan to repair or acquire and dispose of the property in accordance  
60 with the approved plan, the provisions of this section, and applicable law.

61 G. If the ordinance is adopted by the governing body of the locality, the locality shall have a lien on  
62 all property so repaired or acquired under an approved spot blight abatement plan to recover the cost of  
63 (i) improvements made by such locality to bring the blighted property into compliance with applicable  
64 building codes and (ii) disposal, if any. The lien on such property shall bear interest at the legal rate of  
65 interest established in § 6.1-330.53, beginning on the date the repairs are completed through the date on  
66 which the lien is paid. The lien authorized by this subsection shall be filed in the circuit court where the  
67 property is located and shall be subordinate to any prior liens of record. The governing body may  
68 recover its costs of repair from the owner or owners of record of the property when the repairs were  
69 made at such time as the property is sold or disposed of by such owner or owners. If the property is  
70 acquired by the governing body through eminent domain, the cost of repair may be recovered when the  
71 governing body sells or disposes of the property. In either case, the costs of repair shall be recovered  
72 from the proceeds of any such sale.

73 H. Notwithstanding the other provisions of this section, unless otherwise provided for in Title 36, if  
74 the blighted property is occupied for personal residential purposes, the governing body, in approving the  
75 spot blight abatement plan, shall not acquire by eminent domain such property if it would result in a  
76 displacement of the person or persons living in the premises. The provisions of this subsection shall not  
77 apply to acquisitions, under an approved spot blight abatement plan, by any locality of property which  
78 has been condemned for human habitation for more than one year. In addition, such locality exercising  
79 the powers of eminent domain in accordance with Title 25.1, may provide for temporary relocation of  
80 any person living in the blighted property provided the relocation is within the financial means of such  
81 person.

82 I. In lieu of the acquisition of blighted property by the exercise of eminent domain, and in lieu of the  
83 exercise of other powers granted in subsections A through H, any locality may, by ordinance, declare  
84 any blighted property as defined in § 36-3 to constitute a nuisance, and thereupon abate the nuisance  
85 pursuant to § 15.2-900 or § 15.2-1115. Such ordinance shall be adopted only after written notice by  
86 certified mail to the owner or owners at the last known address of such owner as shown on the current  
87 real estate tax assessment books or current real estate tax assessment records. If the owner does not  
88 abate or remove the nuisance and the locality abates or removes the nuisance at its expense, the costs of  
89 the removal or abatement of the nuisance shall be a lien on the property and such lien shall bear interest  
90 at the legal rate of interest established in § 6.1-330.53, beginning on the date the removal or abatement  
91 is completed through the date on which the lien is paid.

92 J. In addition to the exercise of other powers granted in subsections A through H, a locality may, by  
93 ordinance, make a determination that a property is a derelict structure as defined in § 36-152. It shall  
94 send notice of its determination by certified mail to the owner or owners at the last known address of  
95 such owner as shown on the current real estate tax assessment books or current real estate tax  
96 assessment records, specifying the reasons why the property is a derelict structure as defined in  
97 § 36-152.

98 *If such owner or owners fail to (i) respond in writing within 30 days from the date the notice is sent*  
99 *with an abatement or removal plan to be completed within a reasonable time or (ii) abate or remove*  
100 *the derelict structure within the time prescribed in a plan for abatement or removal that has been*  
101 *accepted and approved by the locality, the locality may then, by ordinance, impose on the owner or*  
102 *owners of such property an annual fee not to exceed the lesser of \$2,500 or 15 percent of the most*  
103 *recently assessed value of the derelict structure and the land upon which the structure is situated. The*  
104 *locality may (a) continue to impose the annual fee described in this paragraph until such time as the*  
105 *locality elects to abate or remove the derelict structure or (b) abate or remove the derelict structure at*  
106 *its expense. The costs of the removal or abatement of the derelict structure shall be a lien on the*  
107 *property and such lien shall bear interest at the legal rate of interest established in § 6.1-330.53,*  
108 *beginning on the date the removal or abatement is completed through the date on which the lien is*  
109 *paid. Such liens shall have the same priority as real estate taxes and may be collected in the same*  
110 *manner as real estate taxes.*

111 K. In addition to the exercise of other powers granted in subsections A through H and subsection J  
112 and in the case of a derelict structure as defined in § 36-152, any locality may, by ordinance, provide  
113 that any owner or owners of a derelict structure as defined in § 36-152 who fail to (i) respond to a  
114 notice in writing with an abatement or removal plan as described in subsection J or (ii) abate or  
115 remove the derelict structure as prescribed in an approved plan described in subsection J, shall be  
116 guilty of a misdemeanor punishable by a fine of not more than \$2,500. Each day during which the  
117 violation continues after the date of conviction shall constitute a separate offense.

118 L. The provisions of this section shall be cumulative and shall be in addition to any remedies for  
119 spot blight abatement that may be authorized by law.
