

091791612

HOUSE BILL NO. 2032

Offered January 14, 2009

Prefiled January 13, 2009

A BILL to amend and reenact §§ 54.1-300, 54.1-500, 54.1-500.1, 54.1-501, and 54.1-516 of the Code of Virginia and to amend the Code of Virginia by adding in Chapter 5 of Title 54.1 an article numbered 3, consisting of sections numbered 54.1-517.3, 54.1-517.4, and 54.1-517.5, relating to the Department of Professional and Occupational Regulation; mold inspectors and mold remediators.

Patron—Marshall, D.W.

Referred to Committee on General Laws

Be it enacted by the General Assembly of Virginia:

1. That §§ 54.1-300, 54.1-500, 54.1-500.1, 54.1-501, and 54.1-516 of the Code of Virginia are amended and reenacted and that the Code of Virginia is amended by adding in Chapter 5 of Title 54.1 an article numbered 3, consisting of sections numbered 54.1-517.3, 54.1-517.4, and 54.1-517.5 as follows:

§ 54.1-300. (Effective July 1, 2009) Definitions.

As used in this chapter unless the context requires a different meaning:

"Board" means the Board for Professional and Occupational Regulation.

"Certification" means the process whereby the Department or any regulatory board issues a certificate on behalf of the Commonwealth to a person certifying that he possesses the character and minimum skills to engage properly in his profession or occupation.

"Department" means the Department of Professional and Occupational Regulation.

"Director" means the Director of the Department of Professional and Occupational Regulation.

"Inspection" means a method of regulation whereby a state agency periodically examines the activities and premises of practitioners of an occupation or profession to ascertain if the practitioner is carrying out his profession or occupation in a manner consistent with the public health, safety and welfare.

"Licensure" means a method of regulation whereby the Commonwealth, through the issuance of a license, authorizes a person possessing the character and minimum skills to engage in the practice of a profession or occupation that is unlawful to practice without a license.

"Registration" means a method of regulation whereby any practitioner of a profession or occupation may be required to submit information concerning the location, nature and operation of his practice.

"Regulatory board" means the Auctioneers Board, Board for Architects, Professional Engineers, Land Surveyors, Certified Interior Designers and Landscape Architects, Board for Barbers and Cosmetology, Board for Branch Pilots, Board for Contractors, Board for Geology, Board for Hearing Aid Specialists, Board for Opticians, Board for Professional Soil Scientists and Wetland Professionals, Board for Waste Management Facility Operators, Board for Waterworks and Wastewater Works Operators and Onsite Sewage System Professionals, Cemetery Board, Real Estate Appraiser Board, Real Estate Board, Fair Housing Board, and Virginia Board for Asbestos, Lead, *Mold*, and Home Inspectors.

§ 54.1-500. Definitions.

As used in this chapter, unless the context requires a different meaning:

"Accredited asbestos training program" means a training program that has been approved by the Board to provide training for individuals to engage in asbestos abatement, conduct asbestos inspections, prepare management plans, prepare project designs or act as project monitors.

"Accredited lead training program" means a training program that has been approved by the Board to provide training for individuals to engage in lead-based paint activities.

"Asbestos" means the asbestiform varieties of actinolite, amosite, anthophyllite, chrysotile, crocidolite, and tremolite.

"Asbestos analytical laboratory license" means an authorization issued by the Board to perform phase contrast, polarized light, or transmission electron microscopy on material known or suspected to contain asbestos.

"Asbestos contractor's license" means an authorization issued by the Board permitting a person to enter into contracts to perform an asbestos abatement project.

"Asbestos-containing materials" or "ACM" means any material or product which contains more than 1.0 percent asbestos or such other percentage as established by EPA final rule.

"Asbestos inspector's license" means an authorization issued by the Board permitting a person to perform on-site investigations to identify, classify, record, sample, test and prioritize by exposure

INTRODUCED

HB2032

59 potential asbestos-containing materials.

60 "Asbestos management plan" means a program designed to control or abate any potential risk to
61 human health from asbestos.

62 "Asbestos management planner's license" means an authorization issued by the Board permitting a
63 person to develop or alter an asbestos management plan.

64 "Asbestos project" or "asbestos abatement project" means an activity involving job set-up for
65 containment, removal, encapsulation, enclosure, encasement, renovation, repair, construction or alteration
66 of an asbestos-containing material. An asbestos project or asbestos abatement project shall not include
67 nonfriable asbestos-containing roofing, flooring and siding materials which when installed, encapsulated
68 or removed do not become friable.

69 "Asbestos project designer's license" means an authorization issued by the Board permitting a person
70 to design an asbestos abatement project.

71 "Asbestos project monitor's license" means an authorization issued by the Board permitting a person
72 to monitor an asbestos project, subject to Department regulations.

73 "Asbestos supervisor" means any person so designated by an asbestos contractor who provides
74 on-site supervision and direction to the workers engaged in asbestos projects.

75 "Asbestos worker's license" means an authorization issued by the Board permitting an individual to
76 work on an asbestos project.

77 "Board" means the Virginia Board for Asbestos, Lead, *Mold*, and Home Inspectors.

78 "Certified home inspection" means any inspection of a residential building for compensation
79 conducted by a certified home inspector. A certified home inspection shall include a written evaluation
80 of the readily accessible components of a residential building, including heating, cooling, plumbing, and
81 electrical systems; structural components; foundation; roof; masonry structure; exterior and interior
82 components; and other related residential housing components. A certified home inspection may be
83 limited in scope as provided in a home inspection contract, provided such contract is not inconsistent
84 with the provisions of this chapter or the regulations of the Board.

85 "Certified home inspector" means a person who meets the criteria of education, experience, and
86 testing required by this chapter and regulations of the Board and who has been certified by the Board.

87 "Friable" means that the material when dry, may be crumbled, pulverized, or reduced to powder by
88 hand pressure and includes previously nonfriable material after such previously nonfriable material
89 becomes damaged to the extent that when dry it may be crumbled, pulverized, or reduced to powder by
90 hand pressure.

91 "Lead abatement" means any measure or set of measures designed to permanently eliminate
92 lead-based paint hazards, including lead-contaminated dust or soil.

93 "Lead-based paint" means paint or other surface coatings that contain lead equal to or in excess of
94 1.0 milligrams per square centimeter or more than 0.5 percent by weight.

95 "Lead-based paint activity" means lead inspection, lead risk assessment, lead project design and
96 abatement of lead-based paint and lead-based paint hazards, including lead-contaminated dust and
97 lead-contaminated soil.

98 "Lead-contaminated dust" means surface dust that contains an area or mass concentration of lead at
99 or in excess of levels identified by the Environmental Protection Agency pursuant to § 403 of TSCA (15
100 U.S.C. § 2683).

101 "Lead-contaminated soil" means bare soil that contains lead at or in excess of levels identified by the
102 Environmental Protection Agency.

103 "Lead contractor" means a person who has met the Board's requirements and has been issued a
104 license by the Board to enter into contracts to perform lead abatements.

105 "Lead inspection" means a surface-by-surface investigation to determine the presence of lead-based
106 paint and the provisions of a report explaining the results of the investigation.

107 "Lead inspector" means an individual who has been licensed by the Board to conduct lead
108 inspections and abatement clearance testing.

109 "Lead project design" means any descriptive form written as instructions or drafted as a plan
110 describing the construction or setting up of a lead abatement project area and the work practices to be
111 utilized during the lead abatement project.

112 "Lead project designer" mean an individual who has been licensed by the Board to prepare lead
113 project designs.

114 "Lead risk assessment" means (i) an on-site investigation to determine the existence, nature, severity
115 and location of lead-based paint hazards and (ii) the provision of a report by the individual or the firm
116 conducting the risk assessment, explaining the results of the investigation and options for reducing
117 lead-based paint hazards.

118 "Lead risk assessor" means an individual who has been licensed by the Board to conduct lead
119 inspections, lead risk assessments and abatement clearance testing.

120 "Lead supervisor" means an individual who has been licensed by the Board to supervise lead

abatement.

"Lead worker" or "lead abatement worker" means an individual who has been licensed by the Board to perform lead abatement.

"Mold" means any living or dead fungi or related products or parts, including spores, hyphae, and spore-producing structures.

"Mold analysis" means the examination of a sample collected during a mold inspection for the purpose of (i) determining the amount or presence of or identifying the genus, species, or functional grouping of any living or dead mold present in the sample or (ii) identifying or determining the amount or presence of any fungal products including, but not limited to, mycotoxins and fungal volatile organic compounds present in the sample.

"Mold inspection" includes (i) an inspection, investigation, or survey of a dwelling or other structure to determine the presence of mold; (ii) the development of a mold management plan or mold remediation protocol; or (iii) the collection or analysis of a mold sample.

"Mold inspector" means a person who has been licensed by the Board to perform mold inspections.

"Mold remediation" means cleaning mold from building material surfaces or the removal of contaminated building materials that are unsalvageable and other activities, including applying biocides or antimicrobial compounds and sanitization protocols, intended to prevent future mold contamination.

"Mold remediator" means a person licensed by the Board to perform mold remediation.

"Person" means a corporation, partnership, sole proprietorship, firm, enterprise, franchise, association or any other individual or entity.

"Principal instructor" means the individual who has the primary responsibility for organizing and teaching an accredited asbestos training course or an accredited lead training course or both.

"Residential building" means, for the purposes of home inspection, a structure consisting of one to four dwelling units used or occupied, or intended to be used or occupied, for residential purposes.

"Training manager" means the individual responsible for administering a training program and monitoring the performance of instructors for an accredited asbestos training or an accredited lead training program or both.

§ 54.1-500.1. Virginia Board for Asbestos, Lead, Mold, and Home Inspectors; membership; meetings; offices; quorum.

The Virginia Board for Asbestos, Lead, *Mold*, and Home Inspectors shall be appointed by the Governor and composed of ~~ten~~12 members as follows: one shall be a representative of a Virginia licensed asbestos contractor, one shall be a representative of a Virginia licensed lead contractor, one shall be either a Virginia-licensed asbestos inspector or project monitor, one shall be a Virginia licensed lead risk assessor, one shall be a representative of a Virginia-licensed asbestos analytical laboratory, one shall be a representative of an asbestos and lead training course provider, two shall be certified home inspectors, *one shall be a licensed mold inspector, one shall be a licensed mold remediator*, and two shall be citizen members. ~~Of the 1994 appointments, the terms shall be as follows: one member shall serve a term of two years, and one member shall serve a term of four years. Of the 2004 home inspector appointments, the terms shall be as follows: one home inspector shall serve a three-year term, and one home inspector shall serve a four-year term. Thereafter, the~~ The terms of members of the Board shall be four years, except that vacancies may be filled for the remainder of the unexpired term. ~~The initially appointed representatives of the lead industry shall be deemed to be certified upon having completed lead training offered at an Environmental Protection Agency Regional Training Center. The~~ The two home inspector members appointed to the Board shall have practiced as home inspectors for at least five consecutive years immediately prior to appointment. Each home inspector appointment to the Board may be made from nominations submitted by the National Association of Home Inspectors and the American Society of Home Inspectors, who may each nominate no more than three persons for each home inspector vacancy. In no case shall the Governor be bound to make any appointment from such nominees. Home inspector members shall not vote on any matters before the Board except matters related to home inspectors until July 1, 2003. ~~The mold inspector and mold remediator members appointed to the Board shall have practiced as a mold inspector or mold remediator, respectively, for at least three consecutive years immediately prior to appointment. The mold inspector and mold remediator members shall not vote on any matters before the Board except matters related to mold inspection or remediation until July 1, 2010.~~

The Board shall meet at least four times each year and other such times as it deems necessary. The Board shall elect from its membership a chairman and a vice-chairman to serve for a period of one year. Six members of the Board shall constitute a quorum. The Board is vested with the powers and duties necessary to execute the purposes of this chapter.

§ 54.1-501. Powers and duties of the Board.

The Board shall administer and enforce this chapter. The Board shall:

1. Promulgate regulations necessary to carry out the requirements of this chapter in accordance with

the provisions of the Administrative Process Act (§ 2.2-4000 et seq.) to include but not be limited to the prescription of fees, procedures, and qualifications for the issuance and renewal of asbestos and lead licenses, and governing conflicts of interest between various categories of asbestos and lead licenses;

2. Approve the criteria for accredited asbestos training programs, accredited lead training programs, training managers and principal instructors;

3. Approve accredited asbestos training programs, accredited lead training programs, examinations and the grading system for testing applicants for asbestos and lead licensure;

4. Promulgate regulations governing the licensing of and establishing performance criteria applicable to asbestos analytical laboratories;

5. Promulgate regulations governing the functions and duties of project monitors on asbestos projects, circumstances in which project monitors shall be required for asbestos projects, and training requirements for project monitors;

6. Promulgate, in accordance with the Administrative Process Act, regulations necessary to establish procedures and requirements for the: (i) approval of accredited lead training programs, (ii) licensure of individuals and firms to engage in lead-based paint activities, and (iii) establishment of standards for performing lead-based paint activities consistent with the Residential Lead-based Paint Hazard Reduction Act and United States Environmental Protection Agency regulations. If the United States Environmental Protection Agency (EPA) has adopted, prior to the promulgation of any related regulations by the Board, any final regulations relating to lead-based paint activities, then the related regulations of the Board shall not be more stringent than the EPA regulations in effect as of the date of such promulgation. In addition, if the EPA shall have outstanding any proposed regulations relating to lead-based paint activities (other than as amendments to existing EPA regulations), as of the date of promulgation of any related regulations by the Board, then the related regulations of the Board shall not be more stringent than the proposed EPA regulations. In the event that the EPA shall adopt any final regulations subsequent to the promulgation by the Board of related regulations, then the Board shall, as soon as practicable, amend its existing regulations so as to be not more stringent than such EPA regulations; ~~and~~

7. Promulgate regulations for certification of home inspectors not inconsistent with this chapter regarding the professional qualifications of home inspectors applicants, the requirements necessary for passing home inspectors examinations in whole or in part, the proper conduct of its examinations, the proper conduct of the home inspectors certified by the Board, the implementation of exemptions from certifications requirements, and the proper discharge of its duties; *and*

8. *Promulgate regulations for licensing of mold inspectors and mold remediators not inconsistent with this chapter regarding the professional qualifications of such applicants, the requirements necessary for passing applicable examinations in whole or in part, the proper conduct of its examinations, the proper conduct of the mold inspectors and mold remediators licensed by the Board, the implementation of exemptions from licensure requirements, and the proper discharge of its duties. The Board shall have the discretion to impose different requirements for licensure for the performance of mold inspections and mold remediation.*

§ 54.1-516. Disciplinary actions.

A. The Board may reprimand, fine, suspend or revoke (i) the license of a lead contractor, lead inspector, lead risk assessor, lead project designer, lead supervisor, lead worker, asbestos contractor, asbestos supervisor, asbestos inspector, asbestos analytical laboratory, asbestos management planner, asbestos project designer, asbestos project monitor or asbestos worker or (ii) the approval of an accredited asbestos training program, accredited lead training program, training manager or principal instructor, if the licensee or approved person or program:

1. Fraudulently or deceptively obtains or attempts to obtain a license or approval;

2. Fails at any time to meet the qualifications for a license or approval or to comply with the requirements of this chapter or any regulation adopted by the Board; or

3. Fails to meet any applicable federal or state standard when performing an asbestos project or service or performing lead-based paint activities.

B. The Board may reprimand, fine, suspend or revoke the license of, (i) any asbestos contractor who employs or permits an individual without an asbestos supervisor's or worker's license to work on an asbestos project or (ii) any lead contractor who employs or permits an individual without a lead supervisor's or lead worker's license to work on a lead abatement project.

C. The Board may reprimand, fine, suspend or revoke the certification of a home inspector.

D. *The Board may reprimand, fine, suspend, or revoke the license of a mold inspector or remediator.*

Article 3.

Mold Inspectors and Remediators.

§ 54.1-517.3. License required.

No person shall offer to perform or perform mold inspections or mold remediation without a valid license issued by the Board, except as provided in § 54.1-517.4.

§ 54.1-517.4. Exemptions from licensure.

244 *The provisions of this article shall not apply to:*
245 1. *A person performing mold remediation in an area in which the mold contamination for the total*
246 *project affects a total surface area of less than 10 square feet; or*
247 2. *An owner or the managing agent or employee of an owner performing mold inspections or mold*
248 *remediation on the owner's residential property, provided such property contains no more than four*
249 *residential dwelling units.*
250 § 54.1-517.5. *Requirements for licensure.*
251 A. *The Board may issue a license to perform mold inspections or mold remediation in the*
252 *Commonwealth to any applicant who has submitted satisfactory evidence that he has successfully:*
253 1. *Completed any educational requirements as required by the Board;*
254 2. *Completed any experience requirements as required by the Board; and*
255 3. *Passed any written or electronic examination offered or approved by the Board.*
256 B. *The Board may issue a license to perform mold inspections or mold remediation to any applicant*
257 *who is certified by a national or state professional mold inspectors or mold remediators association*
258 *approved by the Board, provided that the requirements for the applicant's class of membership in such*
259 *association are equal to or exceed the requirements established by the Board for all applicants.*
260 **2. That the provisions of the first enactment of this act shall become effective on July 1, 2010,**
261 **except that the provisions of § 54.1-500.1 of the Code of Virginia shall become effective on July 1,**
262 **2009.**
263 **3. That the Virginia Board for Asbestos, Lead, Mold, and Home Inspectors shall promulgate**
264 **regulations to implement the provisions of this act to be effective within 280 days of its enactment.**
