

091322696

**HOUSE BILL NO. 2660**

House Amendments in [ ] — February 4, 2009

A *BILL to establish a six-year capital outlay plan for projects to be funded entirely or partially from general fund-supported resources.*

Patron Prior to Engrossment—Delegate Putney

Referred to Committee on Appropriations

**Be it enacted by the General Assembly of Virginia:**

1. § 1. That the following capital outlay projects and descriptive information shall constitute the Commonwealth's capital outlay plan, pursuant to § 2.2-1518, Code of Virginia, for the capital projects supported entirely or partially from the general fund for the six year period beginning July 1, 2009.

\$0 to \$10,000,000

Agency or Institution	Project Title	Priority	Description
Christopher Newport University	Improve Student Security Infrastructure	4	Provides for the connection all of the buildings and open areas on campus through state-of-the-art technology and enables the university to perform needed upgrades to its computing infrastructure and to control access to buildings and computer systems.
Christopher Newport University	Renovate Band Rehearsal Hall and Connector	5	Supports the renovation of a 1950's high school gymnasium into a modern band rehearsal hall and completes the renovation of the area breezeway connecting this area to the front of the Center for the Arts.
Department of Conservation & Recreation	Construct On-Site Residences, Various State Parks	1	Provides 14 residences and 14 parks across the state. This will allow the agency to provide housing for on-sight law enforcement personnel.
Department of Conservation & Recreation	Dredge Boat Ramp and Repair Shoreline Erosion, Belle Isle State Park	3	Provides for dredging the boat ramp and the channel to the Rappahannock River. The project will also stabilize the park's shoreline to prevent further erosion.
Department of Conservation & Recreation	Construct Improvements at Natural Areas	5	Provides for public access, including parking lots, walkways, and signs at five to six of the major natural area sites.
Department of Conservation & Recreation	Acquire property for Mayo River State Park	6	Provides funding for acquisition of land for the park.
Department of Corrections	Construct 200 Bed Housing Unit at Bland	2	Provides for the removal of three existing modular housing structures, and one office trailer, and replacing them with more substantial and longer lasting housing units.
Department of Corrections	Upgrade Perimeter Detection System (Multiple Institutions)	3	Upgrades electronic detection systems on perimeter fences.
Department of Corrections	Replace Door Control Systems	6	Provides supplemental funding for an existing umbrella project created to replace obsolete door control panels and systems.
Department of Corrections	Upgrade Building Electrical Service Entrance—Augusta	7	Upgrades the electrical service at Augusta Correctional Center.

ENGROSSED

HB2660E

63	Department of Corrections	Correct Environmental Deficiencies	8	Provides supplemental funding to an existing umbrella project created to address violations of environmental laws and regulations and included in a consent order with the Environmental Protection Agency.
64				
65				
66				
67				
68	Department of Corrections	Upgrade Preliminary Wastewater Treatment	9	Provides supplemental funding to an existing umbrella project created to install auger grinder equipment in wastewater treatment plants to improve preliminary treatment.
69				
70				
71				
72				
73	Department of Forensic Science	Expand Eastern Forensic Laboratory Facility	1	Provides for the renovation of 15,308 square feet of space on the fifth floor to meet the critical space needs of the controlled substances, toxicology, and questioned documents disciplines. In 2005, the Department of Forensic Science was provided funding to lease 5,777 square feet on the 5th floor in this facility from the City of Norfolk to house the latent prints laboratory and laboratory administrative offices. Approval to occupy and renovate the full 5th floor would result in the Eastern Laboratory expanding to approximately 54,000 square feet which will allow this laboratory to meet current and projected caseloads.
74				
75				
76				
77				
78				
79				
80				
81				
82				
83	Department of Juvenile Justice	Expansion and Renovation to School and Gymnasium at Natural Bridge Juvenile Correctional Center	1	Expands and renovates the school and gymnasium at Natural Bridge Juvenile Correctional Center. The gym and the existing classrooms, library and school administration offices are undersized and unable to support the school staff, suffer from deferred maintenance issues, are not handicapped accessible, and are suspected to contain unabated hazardous materials. These structures require comprehensive renovations to bring them into compliance with current state building codes, current fire/life/safety codes, and agency facility standards.
84				
85				
86				
87				
88				
89				
90				
91				
92				
93	Department of Mental Health, Mental Retardation, and Substance Abuse Services	Abate Environmental Hazards	4	Addresses several environmental hazard issues at state facilities, including groundwater cleanup, mold, lead paint and asbestos removal. Includes all phases of the project.
94				
95				
96				
97				
98	Department of Veterans Services	Install Generator, Salem Veterans Care Center	1	Provides for full emergency back-up power to the Salem Veterans Care Center through the installation of a 750 to 1000 kw generator.
99				
100				
101	Department of Veterans Services	Construct Addition on the Sitter Barfoot Veterans Care Center	3	Constructs an additional 80 beds to provide the full 240-beds as originally planned for the Sitter-Barfoot Veterans Care Center, located in Richmond adjacent to McGuire Medical Center. Due to changes in the health care delivery system and the rising cost of construction, only 160 beds were constructed in the original project.
102				
103				
104				
105				
106	Department of Veterans Services	Additions and Renovations, Veterans Care Center Salem	4	Provides additional activities, patient therapy and administrative areas to the existing facility. Currently, patient activities/therapy and administrative areas are inadequate to serve the needs of the facility.
107				
108				
109				
110				
111	Frontier Culture Museum of Virginia	Construct Early American Industry exhibit	1	Construct a working, water-powered grist mill. The Frontier Culture Museum's master plan calls for the construction of an early American village as a major component of its expansion, and the grist mill is planned as an important structure in this village.
112				
113				
114				
115				
116				
117				
118				
119				
120				
121				
122				
123				
124				
125				
126				
127				
128				
129				

130	Frontier Culture Museum of Virginia	Expand Infrastructure	2	Combines two infrastructure requests submitted by the agency. Most of the agency's planned expansion will be constructed in an undeveloped area of the property, adjacent to its existing site.
131				
132				
133				
134				
135	George Mason University	Renovate Fine Arts Building	1	Renovates approximately 33,200 gross square feet in the Fine Arts Building originally constructed in 1989. The building will be vacated when the Academic V project is completed and the Art and Visual Technology programs move to the new building. The timing will allow for renovation of the facility to convert space from use for visual arts studio to performing arts space to address program needs of the university.
136				
137				
138				
139				
140				
141				
142				
143				
144				
145	George Mason University	Renovate Finley Building	2	Renovates the Finley Building after the current academic programs move to the new Arlington II building. The renovation will include modifications to support programmatic needs, including academic support and teaching space, associated with the College of Education and Human Development. There will also be a physical connection constructed between Finley and Thompson Halls to visually link the buildings and to protect outdoor program space.
146				
147				
148				
149				
150				
151				
152				
153				
154				
155				
156	Institute for Advanced Learning Research	Construct Greenhouse	1	Provides for the construction of a greenhouse needed to further the research efforts of the agency. The agency currently uses growth rooms and chambers. A greenhouse located on property will increase the agency's ability to grow large numbers of plants and expand breeding techniques within an environmental setting.
157				
158				
159				
160				
161				
162				
163				
164	James Madison University	Construct Technology Infrastructure-Phases 1 & 2	5	Replaces a large portion of the university's technology infrastructure to improve resiliency and more fully meet the bandwidth demand. The project will add network capacity that will enable high-speed delivery of large streams of data to classrooms, labs and desktops throughout the campus.
165				
166				
167				
168				
169				
170				
171				
172	Longwood University	Renovate Space for Faculty and Staff Offices	3	Provides for the renovation of facilities to provide for faculty offices. Faculty positions have increased by 42 over the last several years, and currently, there is insufficient space. This has become a recruiting tool for new faculty.
173				
174				
175				
176				
177				
178	Longwood University	Renovate Heating Plant Facility	5	Renovates utility plant to house an additional redundant steam generation capacity for heat and hot water, expansion capacity, and provide a location for a north campus central chilled distribution water system. The chilled water system will utilize a waste heat exchanger from the boiler stacks. This will add additional energy savings by capturing smoke stack waste. A central chilled water distribution system provides economy of scale, a 24/7 monitoring capability and higher reliability and enhanced control. This will be energy efficient and allow for future expansion of the campus.
179

181				
182				
183				
184				
185				
186				
187				
188				
189				
190				
191				

192	Norfolk State University	Renovate the Wilder Center	3	Corrects a safety problem that occurred during design/construction related to the auditorium floor. The sections of the auditorium need to be leveled and re-graded and in order to renovate the entire section of the floor, the seats will need to be removed and the floor demolished and reconstructed to meet handicap accessibility and building code requirements. There will also be an upgrade/replacement of communication, audiovisual, and information technology systems to maintain a functional arts presentation facility.
193				
194				
195				
196				
197				
198				
199				
200				
201				
202				
203				
204	Norfolk State University	Improve Signage, Roads and Campus Boundary, Phase I	4	Provides for a comprehensive campus signage/information system. A new road will also be constructed to connect Presidential Parkway and Jordan Way to improve vehicular circulation and eliminate the need to use city streets.
205				
206				
207				
208				
209				
210	Old Dominion University	Address Campus Safety, Security and Regulatory Compliance	6	Addresses the most important safety, physical security, and regulatory compliance requirements on campus including: installing electronic locks for exterior building entrances for all major academic buildings along with emergency telephones across campus, improving and expanding the campus-wide pedestrian network to reduce vehicular traffic, and conducting a comprehensive asbestos survey and abating any critical areas identified.
211				
212				
213				
214				
215				
216				
217				
218				
219				
220	The College of William and Mary	Renovate Andrews Hall	3	Covers basic systems renovations to replace building systems, achieve current accessibility standards, and comply with current building codes. Since originally requesting the additional funding for this project, the college has begun a far-reaching study of its arts programs to quantify instructional needs and develop a plan for maximizing the arts experience for its students. The role that Andrews Hall would play in that plan remains to be determined.
221				
222				
223				
224				
225				
226				
227				
228				
229				
230				
231	The Science Museum of Virginia	Construct Discovery Park	2	Provides for the construction of a Discovery Park behind the museum, to include various interactive and educational exhibits explaining solar power, horticulture, and season changes.
232				
233				
234				
235				
236	University of Mary Washington	Construct Jepson Science Center Addition	1	Provides for the construction of a two-story addition to Jepson Science Center. The Jepson Science Center opened in the fall of 1998 and houses four academic departments: Biological Sciences, Chemistry, Environmental Sciences and Geology, and Physics. Additional space is need to meet existing demand.
237				
238				
239				
240				
241				
242				
243				
244	University of Mary Washington	Repair/replace Underground Utilities	2	Provides for the repair or replacement of underground utilities, including sanitary sewers, water lines, electric distribution, and steam and condensate piping are showing progressive patterns of failure due to age and deterioration of system components.
245				
246				
247				
248				
249				
250				
251	University of Mary Washington	Install University Card Access System	3	Provides for installation of card access readers to approximately 16 E&G and 12 non-E&G buildings on the Fredericksburg Campus to enhance campus security.
252				
253				
254				
255				
256	University of Mary Washington	Improve Storm Water Management	4	Addresses regulatory requirements to adequately accommodate storm water flow.
257				
258				

259	University of Virginia	Construct Blandy Arboretum Research Labs and Cabins	6	Provides for the construction of a 3,000 gross square foot modern laboratory building, two additional research visitor residence cottages totaling 2,500 gross square feet, and essential infrastructure and utility work, including replacement and extension of water and sewer lines from new well service recently installed.
260				
261				
262				
263				
264				
265				
266	University of Virginia	Renovate Rugby Administrative Building and Restore Lambeth Colonnade	7	Provides for the rehabilitation and conversion Rugby Faculty Apartment building into administrative space and will restore the Lambeth Colonnade. Renovations will include replacement of HVAC, plumbing, and electrical systems, and installation of new security, fire suppression, media systems, elevator, replacement and refurbishment of interior finishes, windows and doors, repair of exterior brick walls and wood trim.
267				
268				
269				
270				
271				
272				
273	Virginia Commonwealth University	Renovate East Wing of the Oliver Hall Building	5	Provides for the renovation of a 162,000 square foot building originally constructed in 1976. This project renovates a portion of the building into laboratory space for undergraduate instruction. Approximately 7,000 square feet of classroom space will be converted into laboratories to support freshman chemistry classes.
274				
275				
276				
277				
278				
279				
280	Virginia Community College System	Improve Heating, Ventilation, and Air Conditioning, Rappahannock	3	Provides for the improvement and upgrade to the heating, ventilation and air conditioning systems at its Glens Campus. The project scope includes installation of new controls, air distribution, exhaust ventilation, dedicated computer equipment cooling, and replacement of existing boilers, chillers and electrical upgrades.
281				
282				
283				
284				
285				
286				
287	Virginia Community College System	Renovate Plaza, Structural Repairs Phase II, Annandale Campus, Northern Virginia	6	Provides for the renovation and repairs to correct structural issues for a 3,153 square foot area of a covered loading dock/walkway on the Annandale campus. The concrete columns and beams that support this area have deteriorated to the point that temporary shoring has been installed to insure the safety of those who must work in and traverse through the area beneath it. A section of the upper plaza area including an entrance door to the CF building has been closed to pedestrians.
288				
289				
290				
291				
292				
293				
294	Virginia Community College System	Renovate Library and Learning Resource Center, Virginia Highlands	8	Provides for the renovation of a 39,540 square foot facility constructed in the mid-1980s. The building houses approximately 11 classrooms, 29 faculty and administrative offices.
295				
296				
297				
298				
299				
300				
301	Virginia Community College System	Construct Workforce Development Center, Piedmont Virginia	9	Provides for the acquisition of approximately 5.911 acres including the existing Monticello Visitors' Center, renovation of the existing facility of approximately 10,000 gross square feet, and construction of an 11,000 square foot addition.
302				
303				
304				
305				
306				
307				
308	Virginia Community College System	Renovate Buildings: Carroll, Bland, Galax, Grayson, Fincastle, and Smyth Halls, Wytheville	10	Renovates Carroll and Bland Halls (constructed 1971), Grayson Hall (constructed 1984), Fincastle Hall (constructed 1968), Galax Hall (constructed 1973) and Smyth Hall (constructed 1997).
309				
310				
311				
312				
313				
314				
315	Virginia Community College System	Renovate Building B, J. Sargeant Reynolds - Parham Road Campus,	11	Provides for the renovation and update of 35,000 square feet in Building B at the Parham Road Campus, constructed in the late 1970's. The planned renovations include upgrade of teaching laboratories, classrooms, and support space needed to provide modern state-of-the-art instruction.
316				
317				
318				
319				
320				
321				
322				
323				
324				
325				
326				

327	Virginia Community College System	Replace Exterior Windows and Doors, Rappahannock	12	Provides for the replacement of all exterior windows and doors at its Glenns and Warsaw campuses. Replacement will reduce utility costs in both heating and cooling seasons.
328				
329				
330				
331				
332	Virginia Community College System	Renovate Phase I Academic and Administration Building, Eastern Shore	16	Provides for the renovation of the existing 42,000 square foot Academic and Administration Building originally completed in 1974. Although selected areas of this building have had some minor alterations over the years, it has not undergone extensive renovations aimed at bringing it up to current codes and standards.
333				
334				
335				
336				
337	Virginia Community College System	Relocate Observatory and Great Dismal Swamp Education Center, Tidewater - Chesapeake Campus	17	Provides for the relocation of an observatory from the Portsmouth campus to the Great Dismal Swamp. The relocation and development of the college's observatory in the swamp will allow for collocation with an educational facility at the Great Dismal Swamp Refuge in partnership with the City of Chesapeake and the U.S. Fish and Wildlife Service. The proposed facility will include 5,500 square feet of Tidewater Community College space to provide a biology laboratory, preparatory spaces, two classrooms, a rooftop observatory and a remote observatory located in the Great Dismal Swamp.
338				
339				
340				
341				
342				
343				
344				
345				
346				
347	Virginia Community College System	Construct Student Service & Learning Resources Center, Christanna Campus, Southside Virginia	18	Provides for the construction of a 35,000 square foot learning resource center on the college's Daniel campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
348				
349				
350				
351				
352				
353				
354				
355				
356				
357	Virginia Community College System	Renovate Main Building, Lord Fairfax	19	Project provides for a comprehensive renovation of the main academic and administration building on the Middleton campus. The main building was built in 1970.
358				
359				
360				
361				
362	Virginia Community College System	Renovate Academic Classrooms and Laboratories, Tidewater	21	Provides for the renovation of various classrooms and laboratories throughout the college to meet college-approved minimum technology standards. While all instructional spaces in proposed new or renovated facilities will meet these standards, 158 existing instructional spaces are not included in requests to be completed within the next six years.
363				
364				
365				
366				
367	Virginia Community College System	Construct Addition to Learning Resource Center, Patrick Henry	22	Constructs an addition to the Learning Resource Center (built in 1972). The addition would include a multi-media research and development classroom laboratory, model technology training center, center for distance learning with video production capabilities, video conferencing room for faculty, staff, and community use, regional magnet school for technology, and related support spaces.
368				
369				
370				
371				
372				
373				
374				
375				
376				
377	Virginia Community College System	Renovate and Repair Exterior/Interior Structures, Thomas Nelson	24	Provides for renovations to complete exterior and interior structural repairs on various campus buildings.
378				
379				
380				
381				
382	Virginia Community College System	Construct Maintenance Building, Germanna	26	Constructs a 3,000 gross square foot maintenance building on the Fredericksburg campus. The proposed building will contain high bay service areas with operable service doors to house large building and ground maintenance equipment, supplies, and associated offices.
383				
384				
385				
386				
387				
388				
389				
390				
391				
392				

393	Virginia Community	Construct Network Operations	27	Constructs, or acquires through a capital lease, a
394	College System	Center, Tidewater		new 9,000 square foot facility to house the college's
395				network operations center. The center will provide a
396				modern enterprise data center for management of
397				the college's wide area network (WAN) and services
398				that support administration and instruction at the
399				college's four campuses, remote centers, and other
400				off-campus sites.
401				
402	Virginia Community	Construct Canopies, Virginia	29	Provides for the expansion to the existing campus
403	College System	Highlands		canopy system. Canopies connect the three original
404				buildings built on campus in 1969. The project
405				would expand the canopy system to extend to the
406				three additional buildings that have been built since
407				1969.
408				
409	Virginia Community	Construct New Classroom and	33	Constructs a new 20,000 square feet Classroom and
410	College System	Administration Building, Blue		Administration Building on the Weyers Cave
411		Ridge		College campus.
412				
413	Virginia Community	Construct Engineering and	34	Renovates academic space for the engineering and
414	College System	Industrial Technology Building,		industrial technology program.
415		Danville		
416				
417	Virginia Institute of	Construct a Consolidated	1	Provides for the construction a new 25,000 square
418	Marine Sciences	Scientific Research Facility		foot building to provide research, office and
419				technology space for the Marine Advisory Services,
420				the Center for Coastal Resource Management, the
421				physical sciences modeling group, and the
422				publication/communication and computer centers in
423				a single facility.
424				
425	Virginia Institute of	Expand the Fisheries Science	2	Provides for the construction of a new 13,900
426	Marine Sciences	Building		square foot laboratory and office building adjacent
427				to the Fisheries Science Building. The current
428				facility is at its maximum size allowed by the
429				building code for its construction type.
430				
431	Virginia Institute of	Replace the Oyster Hatchery	3	Constructs a new oyster hatchery with laboratory
432	Marine Sciences			space for algae culture, larvae culture, and
433				saltwater treatment and polishing; a 10,000 gallon
434				standing water tower reservoir for storage of clean
435				saltwater for fish and shellfish when environmental
436				conditions will not allow pumping water from the
437				York River; storage space for research equipment; a
438				conference/education meeting space; emergency
439				generator; and expansion and improvement of the
440				flow-through nursery located outside the building.
441				
442	Virginia Military Institute	Improve Post Infrastructure,	2	Provides for the upgrades or repairs of aging or
443		Phase I		failing campus infrastructure, including replacing
444				water distribution piping, boiler replacement,
445				lighting upgrade, and sewer line replacement.
446				
447	Virginia Military Institute	Improve Public Safety and	3	Provides for the construction of a Post police
448		Security on Post, Phase I		station facility, inclusion of a centralized command
449				and communications center in the Post police
450				facility, installation of a centralized fire and
451				security monitoring system, installation of a
452				centralized building access monitoring system
453				through door controls and video surveillance of
454				critical areas, installation of an emergency
455				communication alert system for the Post, and
456				construction modifications to Post buildings and
457				infrastructure.
458				

459	Virginia Military Institute	Renovate Post Hospital	4	<i>Provides for the renovation of the Post hospital, a historic two-story masonry structure built in 1870. All of the building systems are antiquated and in need of major upgrade. This project will make the building accessible to the disabled, replace windows and doors, upgrade finishes, repair the roof, correct exterior water intrusion issues, replace the HVAC and electrical systems and reconfigure the building space to better address the programmatic needs for this facility.</i>
460				
461				
462				
463				
464	Virginia Military Institute	Improve Admissions and Financial Aid Offices	5	<i>Provides for renovations to the existing admissions office, and conversion and renovation of the adjacent building #29 to the financial aid office.</i>
465				
466				
467				
468				
469	Virginia Military Institute	Improve Historic Preservation Sites, Phase I	7	<i>Provides for modest improvements to preserve the historic elements of three structures. These facilities, the Commandants Quarters, the Turman House, and the Cabell House, are contributing historical buildings to the VMI Historic District which was listed as both a National Register property and a National Historic Landmark in 1974.</i>
470				
471				
472				
473				
474	Virginia Museum of Fine Arts	Renovate Robinson House	1	<i>Provides for the demolition of the interior of the building, removal of asbestos, repair and reinforcement of structure, and replacement of major systems, including fire suppression systems. An addition will be constructed to provide an elevator and accessible emergency stairs and restrooms. The Robinson House is a, 1850's farmhouse, is a historically significant building to the Boulevard Historic District.</i>
475				
476				
477				
478				
479	Virginia Polytechnic Institute and State University	Renovate Liberal Arts Building	4	<i>Provides for the renovation of a building that was constructed in 1899 as a YMCA building. The building currently houses Theater Arts programs and the School of the Arts instructional program. The renovation of the building will allow a complete exterior refurbishment and interior renovation to provide new academic spaces.</i>
480				
481				
482				
483				
484	Virginia Polytechnic Institute and State University	Construct Newman Library Addition - ARC	8	<i>Provides for the construction of a 5,000 gross square foot addition to the east side of Newman Library between the existing loading dock and Squires Student Center. The addition will contain high-density, self-supporting, heavy-duty storage shelving and an automated, robotic retrieval system capable of handling up to one million volumes. The new space will increase the ability to efficiently store and quickly retrieve materials without delay and without additional staff or floor space.</i>
485				
486				
487				
488				
489	Virginia Polytechnic Institute and State University	Construct Academic and Student Programs Building	10	<i>Provides additional instructional space, dining services, and student services on the north side of campus. The proposed project is envisioned as a 91,200 gross square foot, five story building. The building plan includes two floors of instructional space, two floors of dining service space, and one floor of student union space. The two lower floors will be dining services, the third floor will be student union space, and the top two floors will be instructional space.</i>

546				
547	Christopher Newport University	Construct Integrated Science Center, Phase II	2	Constructs a 110,000 square foot academic building (already funded) and renovate 38,000 square feet of an existing academic building. This is the renovation phase of a combined project. The new Integrated Science Center will provide state-of-the-art laboratories, classrooms, faculty offices and research facilities for Biology, Chemistry, Environmental Science, and Psychology. The building will be fully integrated with an enclosed connector between the existing and new structures. The Integrated Science Center will house more than 50 faculty, 25 laboratories and 11 classrooms designed for teaching and research.

552				
553				
554				
555				
556				
557	Department of Conservation & Recreation	Construct Visitor Center/Environmental Education Center, Five State Parks	2	Funds five visitor center/environmental education facilities for major parks in the system. Each building will be 4,500 to 5,000 square feet and built to LEED standards.
558				
559				
560				
561				
562				
563				
564				
565				
566				
567	Department of Conservation & Recreation	Develop Infrastructure, New River Trail State Park	4	Funds renovation of a number of historic facilities for park use, such as conversion of the old Austinville mining office into a visitor center, including construction of a campground and equestrian campground.
568				
569				
570				
571				
572				
573				
574				
575				
576				
577	Department of Mental Health, Mental Retardation, and Substance Abuse Services	Repair/Replace Campus Infrastructures	2	Funds the repair/replacement of faulty utilities at state facility. Also includes the repair or replacement of damaged sidewalks, curbs, and parking lots to ensure safe access for staff and residents.
578				
579				
580				

581	George Mason University	Construct Physical Plant addition	4	<i>Constructs a 30,000 gross square foot physical plant facility, and renovates the existing 12,000 square feet to correct code and safety issues and realign the existing building to the needs of the physical plant. Constructed in 1974, the current physical plant building was designed to support a significantly smaller and less active campus than the current University. The current Physical Plant Building does not meet building, environmental, or energy codes, Occupational Safety and Health Administration (OSHA) codes, and Americans with Disabilities Act (ADA) regulations.</i>
582				
583				
584				
585				
586				
587				
588				
589	George Mason University	Construct Satellite Cooling and Heating Plant	5	<i>Constructs an addition to the university-wide central heating and cooling system. The project will add capacity to the central distribution system through the addition of boilers and chillers in the west sector of the Fairfax campus. Placement of new capacity in the west sector near demand sources will reduce distribution losses, while retaining the ability to service the entire campus.</i>
590				
591				
592				
593				
594				
595				
596				
597	James Madison University	Renovate Johnston Hall	3	<i>Provides for the renovation of Johnston Hall, constructed in 1929 as a student residence hall, and converted to faculty offices in the early 1970's.</i>
598				
599				
600				
601	James Madison University	Renovate Moody Hall	4	<i>Provides for the renovation of Moody Hall, opened in 1961 as a general-purpose classroom and faculty office facility.</i>
602				
603				
604				
605	Jamestown-Yorktown Foundation	Replace Yorktown Museum	1	<i>Provides for the construction of a new museum to address the following: (1) accommodate expected visitation (2) replace exhibitory that has exceed its useful life (3) provide a properly sequenced visitor experience and eliminate visitor wayfinding issues, and (4) provide an adequately sized changing gallery to provide a more effective impetus for repeat visitation.</i>
606				
607				
608				
609				
610				
611				
612				
613	Longwood University	Renovate French Hall for Relocated Technology Center	1	<i>Provides for the renovation of space for Information and Instructional Technology Services (IITS), a department that has doubled in size in nine years as the University has expanded its enrollment and use of technology.</i>
614				
615				
616				
617				
618				
619				
620				
621	Longwood University	Construct Physical Plant Building	2	<i>Provides for the construction of a 58,452 square foot physical plant building to house trades shops, equipment storage, staff members, project document storage, and controlled spaces for maintenance parts inventory and daily operations. The current grounds department has only one office; the remaining staff members share a garage with equipment and stored supplies. Much of the expensive equipment used by the department must be stored outside, open to the elements, and subject to theft.</i>
622				
623				
624				
625				
626				
627				
628				
629	Longwood University	Renovate and Expand Wygal Hall	4	<i>Provides for the renovation of 12,000 square feet and construction of an addition totaling 24,000 square feet. It will house classrooms, practice rooms, recital hall, faculty offices, and other rooms associated with an academic music department.</i>

733				
734				
735				
736				
737				
738				
739				
740	UVA's College at Wise	Renovate Wyllie Library	2	Converts the Wyllie Library into an academic classroom building to provide additional classrooms, study space, and faculty offices.
741				
742				
743				
744	Virginia Commonwealth University	Renovate Sanger Hall, Phase II	2	Provides for the second phase of a four-phase project to upgrade 50,000 square feet of instructional and research laboratories in Sanger Hall, the largest instructional and research facility at the university, and provides the core teaching space for many of the health-related disciplines. The project scope includes reconfiguration and modernization of spaces and upgrades to environmental systems.
745				
746				
747				
748				
749				
750				
751				
752				
753				
754	Virginia Commonwealth University	Renovate Student Services Building, MCV Campus	3	Renovate the VMI Building, originally constructed in 1925, located on the university's MCV Campus. This renovation is required to co-locate student service activities in an area which is central to campus and within easy pedestrian access to instructional and clinical facilities. The renovation will allow the university to vacate service offices from existing instructional facilities so that academic activities may be more efficiently co-located. The renovation also includes upgrades to building systems.
755				
756				
757				
758				
759				
760				
761				
762				
763				
764				
765				
766	Virginia Community College System	Renovate Academic Classrooms and Administrative Building, Rappahannock	1	Provides for the renovation of academic classrooms and administrative support buildings at Rappahannock Community College.
767				
768				
769				
770	Virginia Community College System	Construct Student Services - Learning Resources Building, Southside Virginia	4	Provides for the construction of a 35,000 square foot Learning Resource Center on the college's Daniel Campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
771				
772				
773				
774				
775				
776				

777	Virginia Community College System	Renovate Stone Hall Building, Patrick Henry	7	Provides for the renovation of Stone Hall constructed in 1974. The scope of the renovations include classrooms, faculty offices and a large multipurpose room. The renovations are needed to meet current code requirements for restrooms, accessibility, fire and life safety, ventilation and energy efficiency.
778				
779				
780				
781				
782	Virginia Community College System	Renovate Bird and Nicholas Halls, John Tyler - Chester Campus	13	Provides for a comprehensive renovation and upgrade of Bird Hall, Goyne Hall, and the Nicholas Center on the college's Chester campus. Completing the renovations will improve academic programmatic function and classroom innovation.
783				
784				
785				
786				
787	Virginia Community College System	Construct Learning Resources Center, Tidewater - Chesapeake Campus	15	Constructs a 50,000 square foot building to accommodate a new Learning Resources Center on the Chesapeake campus. Dramatic enrollment growth on the campus since construction of the existing Learning Resources Center within the Pass Building has rendered that space insufficient to support the resource needs of the campus. In addition, the space layout is inefficient for contemporary Learning Resources Center functions.
788				
789				
790				
791				
792	Virginia Community College System	Construct Workforce Development Center, Northern Virginia - Woodbridge Campus	23	Provides for the construction of a new 55,000 square foot workforce development center to support office, classroom and computer laboratory areas.
793				
794				
795				
796				
797	Virginia Community College System	Construct New Building for Trucking Program, Tidewater - Portsmouth Campus	25	Provides for the construction of a new 29,500 square foot facility to house the trucking program, currently located on the existing Portsmouth campus in the City of Suffolk. This proposal would construct a new Regional Trucking Program Facility as part of the relocation of the Portsmouth campus.
798				
799				
800				
801				
802	Virginia Community College System	Construct Workforce Solutions and Academic Training Center, Fauquier Campus, Lord Fairfax	28	Provides for the construction of 45,000 square foot facility to provide 13 academic classrooms, (two classrooms of 1,200 square feet, four classrooms of 900 square feet, four classrooms of 725 square feet and three classrooms of 450 square feet).
803				
804				
805				
806				
807	Virginia Community College System	Expand and Renovate Phase III Academic Building, Northern Virginia - Loudoun Campus	30	Provides for the renovation/renewal of the 33-year-old, 77,735 gross square foot Loudoun Campus Phase I main administrative/classroom building. This building contains classrooms, computer labs, faculty and administrative offices, the Learning Resources Center, a bookstore, and a cafeteria.
808				
809				
810				
811				
812	Virginia Community College System	Renovate Bisdorf Phase II Academic Building, Northern Virginia - Alexandria	32	Provides for the renovation/renewal of the 27-year-old, 60,000 gross square foot Phase II classroom building. This building contains classrooms, computer labs, and faculty offices.
813				
814				
815				
816				
817	Virginia Community College System	Renovate Science Building	1	Provides for the renovation of the Science Building. Renovations are required to support a change in the core curriculum related to accreditation and the planned increase in the size of the Corps of Cadets. The goal is to increase the number of math, science, and engineering graduates.
818				
819				
820				
821				
822	Virginia Community College System	Renovate Science Building	1	Provides for the renovation of the Science Building. Renovations are required to support a change in the core curriculum related to accreditation and the planned increase in the size of the Corps of Cadets. The goal is to increase the number of math, science, and engineering graduates.
823				
824				
825				
826				
827	Virginia Community College System	Renovate Science Building	1	Provides for the renovation of the Science Building. Renovations are required to support a change in the core curriculum related to accreditation and the planned increase in the size of the Corps of Cadets. The goal is to increase the number of math, science, and engineering graduates.

902	[Virginia Economic	Bioscience Wet Laboratory	1	Provides for the construction and renovation of
903	Development Partnership	Facility		biotechnology shell buildings designed to
904				accommodate and provide wet-lab space or other
905				needed laboratory, research, office, or production
906				space to attract biosciences and other related
907				technology companies to the state, as well as
908				accommodating the growth of companies already
909				located in Virginia.]
910				
911				
912				
913	Agency or Institution	Project Title	Priority	Description
914				
915	Christopher Newport	Construct Luter College of	1	Constructs a new 45,000 gross square foot Luter
916	University	Decision Sciences		School of Business which will house the Department
917				of Accounting, Economics and Finance and the
918				Department of Management and Marketing.
919				Accreditation of the Luter School of Business
920				represents a significant step in the transformation of
921				the business program. This project received
922				\$250,000 for pre-planning in Chapter 1.
923				
924	Christopher Newport	Construct Library and	3	Provides the second phase to complete the
925	University	Information Technology Center,		conversion of the library into an Information
926		Phase II		Technology Center and completes the consolidation
927				of traditional library services, instructional
928				technology and electronic media. It will emphasize
929				and support student and faculty collaboration.
930				
931	Department of Forensic	Expand Western Forensic	2	Provide for purchase of a property adjacent to the
932	Science	Laboratory Facility		department's Roanoke Lab. The purchase will
933				expand the current facility by an estimated 55,000
934				square feet.
935				
936	Department of Mental	Replace Facility Roofs	1	Includes all four phases of roof replacement at state
937	Health, Mental			facilities. Project would replace roofs that are
938	Retardation, and			beyond repair.
939	Substance Abuse Services			
940				
941	Department of Mental	Replace Support Service	6	Replaces a food service facility that was designed
942	Health, Mental	Facility at Eastern State		and built in 1954 for 1800 patients. The existing
943	Retardation, and	Hospital		facility is several times too large to economically
944	Substance Abuse Services			and efficiently provide service to the current
945				population at Eastern State Hospital. The proposed
946				facility will serve 300 patients from an
947				appropriately sized facility. A new patient cafeteria
948				will also be provided within this facility. The facility
949				will also replace a warehouse/purchasing space and
950				a buildings & grounds/transportation space.
951				
952	Department of Veterans	Construct Veterans Care Center	2	Provides funding for a proposed facility that
953	Services	in Hampton Roads		encompasses 240 beds within about 165,000 square
954				feet, and includes domiciliary care (assisted living),
955				skilled nursing, an Alzheimer's unit and perhaps a
956				unit for the treatment of spinal cord injuries. The
957				department has submitted, and USDVA funding is
958				pending for a new Veterans Care Center in
959				Hampton Roads, Virginia.
960				
961	James Madison	Renovate West Wing Hospital	1	Provides for the renovation of the West Wing of the
962	University			Rockingham Memorial Hospital complex,
963				purchased by James Madison University in 2005.
964				

ENGROSSED

HB2660E

965	James Madison University	Renovate and Expand Duke Hall	2	Provides for the renovation and expansion of Duke Hall at James Madison University. Duke was opened in 1967 as a classroom, studio and faculty office facility for the fine arts. Originally, Duke housed the university's Music, Theatre and Art Departments. Today it contains classrooms, studios and faculty offices for School of Art and Art History and the main stage theatre of the School of Theatre and Dance.

985	Norfolk State University	Renovate and Expand the Hamm Fine Arts Building	2	Addresses disability access limitations, inadequate storage, lack of sound proof music rooms, and poorly ventilated art classrooms. The renovation/expansion will support the existing arts program, permit the existing band program to expand, and bring the facility into building code compliance.

994	Radford University	Construct College of Science and Technology Building	1	Provides for a new building to house mathematics, statistics, computer science and technology, and information science systems. Currently, the distance between the disciplines limits day-to-day interdisciplinary collaboration for both faculty and students. Bringing these disciplines together into a new building will promote a strong synergy among the computational sciences and open additional space on campus for the expansion of the natural sciences.

1021	University of Virginia	Construct Arts Gateway to the University	2	Creates a unique arts complex that co-locates visual and performing arts facilities with an arts residential college for upper-class students. This project will include an art museum, a studio theater (for theatrical performances, dance recitals, lectures, and film screenings), a band facility, and a forum building (for events such as public lectures, presentations, performances and dinner). The project also includes a 250-bed student residential college with a 260-seat dining facility (to also serve the adjacent International Residential College and support light meals and dinners hosted in the forum).

1123				
1124	Virginia State University	Renovate and Expand Daniel Gym	3	Provides reconfigured optimal space for the Departments of Health and Physical Education, as well as the Recreation and Dance Bachelor of Science programs. Renovation efforts would include: upgrading the HVAC, restructuring interior walls to accommodate course offerings, upgrading and repairing interior finishes, upgrading plumbing and electrical systems, and modernizing the locker rooms. Major renovations are also needed to the natatorium to provide for the comfort and safety of both participants and spectators. A proposed 26,451 square feet expansion would provide new electronic classrooms, seminar rooms, courts, studios, offices and a training and wellness center. A storm water master plan and new or expanded storm water management facility are also important components of this project.
