§ 58.1-2217. Taxes levied; rate.

A. 1. There is hereby levied a tax at the rate of seventeen and one-half cents per gallon on gasoline and gasohol in an amount equal to a percentage to be calculated by the Commissioner of the statewide average wholesale price of a gallon of self-serve unleaded regular gasoline, rounded up to the nearest one-tenth of one cent. In computing the amount of the percentage the Commissioner shall use the period from October 1, 2008, to March 31, 2009, to determine the average wholesale price of a gallon of self-serve unleaded regular gasoline, rounded up to the nearest one-tenth of one cent. Using this average price, the Commissioner shall calculate the percentage that most closely yields seventeen and one-half cents per gallon. This percentage shall not change and shall be used to calculate the amount of cents per gallon for the tax for all future base periods as set forth in subdivision 2.

2. The amount of cents per gallon for the tax for the period July 1, 2009, through December 31, 2009, shall be seventeen and one-half cents per gallon. Thereafter, the amount of cents per gallon for the tax shall be an amount per gallon equal to the percentage calculated by the Commissioner in subdivision 1, multiplied by the statewide average wholesale price of a gallon of self-serve unleaded regular gasoline for the applicable base period, as determined by the Commissioner and rounded up to the nearest one-tenth of one cent. The Commissioner shall use two base periods. The period from April 1 through September 30 shall be the base period for purposes of determining the cents per gallon for the tax for the immediately following period beginning January 1 and ending June 30, inclusive. The period from October 1 through March 31 shall be the base period for purposes of determining the cents per gallon for the tax for the immediately following period beginning July 1 and ending December 31, inclusive.

Using this average price, the Commissioner shall calculate the percentage that most closely yields seventeen and one-half cents per gallon. This percentage shall not change and shall be used to calculate the amount of cents per gallon for the tax for all future base periods as set forth in subdivision 2.

2. The amount of cents per gallon for the tax for the period July 1, 2009, through December 31, 2009, shall be seventeen and one-half cents per gallon. The Commissioner shall use two base periods. The period from April 1 through September 30 shall be the base period for purposes of determining the cents per gallon for the tax for the immediately following period beginning January 1 and ending June 30, inclusive. The period from October 1 through March 31 shall be the base period for purposes of determining the cents per gallon for the tax for the immediately following period beginning July 1 and ending December 31, inclusive.
