SENATE BILL NO. 989

Offered January 14, 2009

Prefiled January 12, 2009

A BILL to amend and reenact §§ 62.1-198 and 62.1-199 of the Code of Virginia, relating to the Virginia Resources Authority; local government buildings.

 Patron—Colgan

 Referred to Committee on Finance

Be it enacted by the General Assembly of Virginia:**1. That §§ 62.1-198 and 62.1-199 of the Code of Virginia are amended and reenacted as follows:**

§ 62.1-198. Legislative findings and purposes.

The General Assembly finds that there exists in the Commonwealth a critical need for additional sources of funding to finance the present and future needs of the Commonwealth for water supply; land conservation or land preservation including land for parks and other recreational purposes; wastewater treatment facilities; drainage facilities; solid waste treatment, disposal and management facilities; recycling facilities; resource recovery facilities; energy conservation and energy efficiency projects; professional sports facilities; certain heavy rail transportation facilities; public safety facilities; airport facilities; the remediation of brownfields and contaminated properties; the design and construction of roads, public parking garages and other public transportation facilities, and facilities for public transportation by commuter rail; construction of local government buildings, *including administrative and operations systems and other local government equipment and infrastructure*; and the location or retention of federal facilities in the Commonwealth and the support of the transition of former federal facilities from use by the federal government to other uses. This need can be alleviated in part through the creation of a resources authority. Its purpose is to encourage the investment of both public and private funds and to make loans, grants, and credit enhancements available to local governments to finance water and sewer projects, land conservation or land preservation programs or projects, drainage projects, solid waste treatment, disposal and management projects, recycling projects, energy conservation and energy efficiency projects, professional sports facilities, resource recovery projects, public safety facilities, airport facilities, the remediation of brownfields and contaminated properties, the design and construction of roads, public parking garages and other public transportation facilities, and facilities for public transportation by commuter rail, technology, construction of local government buildings, *including administrative and operations systems and other local government equipment and infrastructure*, and infrastructure for broadband services, and federal facilities or former federal facilities. The General Assembly determines that the creation of an authority for this purpose is in the public interest, serves a public purpose and will promote the health, safety, welfare, convenience or prosperity of the people of the Commonwealth.

§ 62.1-199. Definitions.

As used in this chapter, unless a different meaning clearly appears from the context:

"Authority" means the Virginia Resources Authority created by this chapter.

"Board of Directors" means the Board of Directors of the Authority.

"Bonds" means any bonds, notes, debentures, interim certificates, bond, grant or revenue anticipation notes, lease and sale-leaseback transactions or any other evidences of indebtedness of the Authority.

"Capital Reserve Fund" means the reserve fund created and established by the Authority in accordance with § 62.1-215.

"Cost," as applied to any project financed under the provisions of this chapter, means the total of all costs incurred by the local government as reasonable and necessary for carrying out all works and undertakings necessary or incident to the accomplishment of any project. It includes, without limitation, all necessary developmental, planning and feasibility studies, surveys, plans and specifications, architectural, engineering, financial, legal or other special services, the cost of acquisition of land and any buildings and improvements thereon, including the discharge of any obligations of the sellers of such land, buildings or improvements, real estate appraisals, site preparation and development, including demolition or removal of existing structures, construction and reconstruction, labor, materials, machinery and equipment, the reasonable costs of financing incurred by the local government in the course of the development of the project, including the cost of any credit enhancements, carrying charges incurred before placing the project in service, interest on local obligations issued to finance the project to a date subsequent to the estimated date the project is to be placed in service, necessary expenses incurred in connection with placing the project in service, the funding of accounts and reserves which the Authority

INTRODUCED

SB989

59 may require and the cost of other items which the Authority determines to be reasonable and necessary.
60 It also includes the amount of any contribution, grant or aid which a local government may make or
61 give to any adjoining state, the District of Columbia or any department, agency or instrumentality
62 thereof to pay the costs incident and necessary to the accomplishment of any project, including, without
63 limitation, the items set forth above. The term also includes interest and principal payments pursuant to
64 any installment purchase agreement.

65 "Credit enhancements" means surety bonds, insurance policies, letters of credit, guarantees and other
66 forms of collateral or security.

67 "Federal facility" means any building or infrastructure used or to be used by the federal government,
68 including any building or infrastructure located on lands owned by the federal government.

69 "Federal government" means the United States of America, or any department, agency or
70 instrumentality, corporate or otherwise, of the United States of America.

71 "Former federal facility" means any federal facility formerly used by the federal government or in
72 transition from use by the federal government to a facility all or part of which is to serve any local
73 government.

74 "Local government" means any county, city, town, municipal corporation, authority, district,
75 commission or political subdivision created by the General Assembly or pursuant to the Constitution and
76 laws of the Commonwealth or any combination of any two or more of the foregoing.

77 "Local obligations" means any bonds, notes, debentures, interim certificates, bond, grant or revenue
78 anticipation notes, leases or any other evidences of indebtedness of a local government.

79 "Minimum capital reserve fund requirement" means, as of any particular date of computation, the
80 amount of money designated as the minimum capital reserve fund requirement which may be established
81 in the resolution of the Authority authorizing the issuance of, or the trust indenture securing, any
82 outstanding issue of bonds or credit enhancement.

83 "Project" means (i) any water supply or wastewater treatment facility including a facility for
84 receiving and stabilizing septage or a soil drainage management facility and any solid waste treatment,
85 disposal, or management facility, recycling facility, federal facility or former federal facility, or resource
86 recovery facility located or to be located in the Commonwealth, the District of Columbia or any
87 adjoining state, all or part of which facility serves or is to serve any local government; and (ii) any
88 federal facility located or to be located in the Commonwealth, provided that both the Board of Directors
89 of the Authority and the governing body of the local government receiving the benefit of the loan, grant,
90 or credit enhancement from the Authority make a determination or finding to be embodied in a
91 resolution or ordinance that the undertaking and financing of such facility is necessary for the location
92 or retention of such facility and the related use by the federal government in the Commonwealth. The
93 term includes, without limitation, water supply and intake facilities; water treatment and filtration
94 facilities; water storage facilities; water distribution facilities; sewage and wastewater (including surface
95 and ground water) collection, treatment and disposal facilities; drainage facilities and projects; solid
96 waste treatment, disposal or management facilities; recycling facilities; resource recovery facilities;
97 related office, administrative, storage, maintenance and laboratory facilities; and interests in land related
98 thereto. The term also includes energy conservation measures and facility technology infrastructure as
99 defined in § 11-34.2 and other energy objectives as defined in § 67-101. The term also means any heavy
100 rail transportation facilities operated by a transportation district, created under the Transportation District
101 Act of 1964 (§ 15.2-4500 et seq.), which operates heavy rail freight service, including rolling stock,
102 barge loading facilities, and any related marine or rail equipment. The term also means, without
103 limitation, the design and construction of roads, the construction of local government buildings,
104 *including administrative and operations systems and other local government equipment and*
105 *infrastructure*, public parking garages and other public transportation facilities, and facilities for public
106 transportation by commuter rail. In addition, the term means any project as defined in § 5.1-30.1 and
107 any professional sports facility, including a major league baseball stadium as defined in § 15.2-5800,
108 provided that the specific professional sports facility projects have been designated by the General
109 Assembly as eligible for assistance from the Authority. The term also means any equipment, facilities,
110 and technology infrastructure designed to provide broadband service. The term also means facilities
111 supporting, related to, or otherwise used for public safety including, but not limited to, law-enforcement
112 training facilities and emergency response, fire, rescue and police stations. The term also means the
113 remediation, redevelopment and rehabilitation of property contaminated by the release of hazardous
114 substances, hazardous wastes, solid wastes or petroleum where such remediation has not clearly been
115 mandated by the United States Environmental Protection Agency, the Department of Environmental
116 Quality, or a court pursuant to the Comprehensive Environmental Response, Compensation and Liability
117 Act (42 U.S.C. § 9601 et seq.), the Resource Conservation and Recovery Act (42 U.S.C. § 6901 et seq.),
118 the Virginia Waste Management Act (§ 10.1-1400 et seq.), the State Water Control Law (§ 62.1-44.2 et
119 seq.), or other applicable statutory or common law or where jurisdiction of those statutes has been
120 waived. The term also means any program or project for land conservation, parks, park facilities, land

- 121** for recreational purposes, or land preservation, including but not limited to any program or project
122 involving the acquisition of rights or interests in land for the conservation or preservation of such land.
