8. Fiscal Implications: This legislation requires a public charter school applicant, governing body, administrator, or other personnel to disclose ownership or financial interest in the public charter school. The bill also removes the cap on the maximum number of charter schools that can be established in a division and requires local school boards give priority to public charter school applications designed to increase the educational opportunities of at-risk students. Specifically, at least one-half of the public charter schools per division must be for at-risk students.

The impact to enrollment in public schools resulting from the removal of the cap and the creation of additional charter schools is unknown at this time. Thus, a fiscal impact cannot be determined. Fiscal impacts are not expected to occur as a result of the remaining provisions of the bill.
