[S 38]

Approved March 11, 2010

Be it enacted by the General Assembly of Virginia:

1. That § 2, as amended, of Chapter 34 of the Acts of Assembly of 1918 is amended and reenacted as follows:

§ 2. Power of the city. In addition to the powers mentioned in the preceding section, the said city shall have power:

(1) To raise annually by taxes and assessments in said city such sums of money as the council hereinafter provided for shall deem necessary for the purposes of said city, and in such manner as said council shall deem expedient, in accordance with the Constitution and the laws of this State and of the United States; provided, however, that it shall impose no tax on the bonds of this city.

(2) To impose special or local assessments for local improvements and enforce payment thereof, subject, however, to such limitations prescribed by the Constitution of Virginia as may be in force at the time of the imposition of such special or local assessments.

(3) Subject to the provisions of the Constitution of Virginia and of § 86, as amended, of this charter, to contract debts, borrow money and make and issue evidence of indebtedness.

(4) To expend the money of the city for all lawful purposes.

(5) To acquire by purchase, gift, devise, condemnation or otherwise, property, real or personal, or any estate or interest therein within or without the city or State and for any of the purposes of the city; and to hold, improve, sell, lease, mortgage, pledge or otherwise dispose of the same or any part thereof.

(6) To acquire, in any lawful manner, for the purpose of encouraging commerce and manufacture, lands within and without the city not exceeding at any one time 5,000 acres in the aggregate, and from time to time to sell or lease the same or any part thereof for industrial or commercial uses and purposes.

(7) To make and maintain public improvements of all kinds, including municipal and other public buildings, armories, markets and all buildings and structures necessary or appropriate for the use of the departments of fire and police; and to acquire by condemnation or otherwise all lands, riparian and other rights and easements necessary for such improvements, or any of them.

(8) To furnish all local public service; to purchase, hire, construct, own, maintain and operate, or lease local public utilities, to acquire by condemnation or otherwise, within or without the corporate limits, land and property necessary for any such purposes.

(9) To acquire, in any lawful manner, in any county of the State, or without the State, such water, lands and lands under water as the council of said city may deem necessary for the purpose of providing an adequate water supply for said city and of piping or conducting the same; to lay all necessary mains; to erect and maintain all necessary dams, pumping stations and other works in connection therewith; to make reasonable rules and regulations for promoting the purity of its said water supply and for protecting the same from pollution; and for this purpose to exercise full police powers and sanitary patrol over all lands comprised within the limits of the watershed tributary to any such water supply wherever such lands may be located in this State; to impose and enforce adequate penalties for the violation of any such rules and regulations; and to prevent by injunction any pollution or threatened pollution of such water supply and any and all acts likely to impair the purity thereof; and for the purpose of acquiring lands or material for any such use to exercise within the State all powers of eminent domain possessed by railroad corporations under the laws of this State; provided that the lands and lands under water which may be held in this State by said city for such purpose shall not exceed, in the aggregate, 30,000 acres at any one time. For any of the purposes aforesaid, said city may, if the council shall so determine, acquire by condemnation, purchase or otherwise, any estate or interest in such lands or any of them, or any right or easement therein, or may acquire such lands or any of them in fee, reserving to the owner or owners thereof such rights or easements therein as may be prescribed in the ordinance providing for such condemnation or purchase. The said city may sell or supply to persons, firms or industries residing or located outside of the city limits any surplus of water it may have over and above the amount required to supply its own inhabitants.

(10) To establish, impose and enforce water rates and rates and charges for public utilities, or other service, products, or conveniences, operated, rendered or furnished by the city.

(10 1/2) To establish, in the manner hereinafter provided, adjacent to or near the lines of existing streets, on either or both sides thereof, building lines, and to provide that no new buildings shall thereafter be erected upon the property (hereinafter called the interlying property) lying between said

building lines and the street lines. Said building lines may be established for the whole or any part of a street (but not for less than one block or the distance between two cross streets), as the council may determine. Before any such lines shall be established, the council shall cause to be published, for at least 10 days in some paper of general circulation in the city, a notice addressed generally, but without naming them, to the owners of the property on which building lines are proposed to be established, stating that it is proposed to establish building lines thereon and naming a day when a hearing will be had in respect thereof. After said hearing the council may proceed to establish such lines, and the ordinance establishing the same shall be recorded by the city clerk and indexed in the name of the street near which said building lines are to be established; and thereafter all persons shall be deemed to be affected with notice of the establishment of such lines, and no permits shall be granted for the construction of any building on the interlying property.

But the ordinance establishing said lines shall become null and void as against any owner of property objecting thereto, unless:

(a) When the interlying property shall be unoccupied by buildings, the city shall, within 60 days after the passage of the ordinance establishing said lines, purchase the same or institute condemnation proceedings for the acquisition thereof; or

(b) When the interlying property is occupied, in whole or in part, by buildings, the city shall, within 60 days after receipt of notice in writing that the said buildings have been removed from said interlying property (it being hereby made the duty of the said owner to give such notice), purchase said interlying property or institute condemnation proceedings for the acquisition thereof, and thereafter complete its acquisition of property in said proceedings.

The rights of the city shall not be prejudiced by any defect in the proceedings instituted under paragraph (a) and (b) hereof, resulting in their dismissal, if within 30 days after said dismissal new proceedings shall be instituted for the same purpose. Nothing herein contained shall be construed as limiting or abridging in any degree the power of eminent domain now possessed by the city under existing law.

(11) To establish, open, widen, extend, grade, improve, construct, maintain, light, sprinkle and clean, public highways, streets, alleys, boulevards and parkways, and to alter or close the same; to establish and maintain parks, playgrounds and other public grounds; to construct, maintain and operate bridges, viaducts, subways, tunnels, sewers and drains and to regulate the use of all such highways, parks, public grounds and works; to plant and maintain shade trees along the streets and upon such public grounds; to prevent the obstructing of such streets and highways, abolish and prevent grade crossings over the same by railroads; regulate the operation and speed of all cars and vehicles using the same, as well as the operation and speed of all engines, cars and trains on railroads within the city; to regulate the services to be rendered and rates to be charged by busses, motor cars, cabs and other vehicles for the carrying of passengers and by vehicles for the transfer of baggage; require all telephone and telegraph wires and all wires and cables carrying electricity to be placed in conduits under ground and prescribe rules and regulations for the construction and use of such conduits; and to do all other things whatsoever adapted to make said streets and highways safe, convenient and attractive.
