

10101695D

HOUSE BILL NO. 154

Offered January 13, 2010

Prefiled January 5, 2010

A *BILL to amend and reenact § 22.1-253.13:3 of the Code of Virginia, relating to Standard 3; accreditation.*

Patrons—Dance; Senator: Martin

Referred to Committee on Education**Be it enacted by the General Assembly of Virginia:****1. That § 22.1-253.13:3 of the Code of Virginia is amended and reenacted as follows:**

§ 22.1-253.13:3. Standard 3. Accreditation, other standards and evaluation.

A. The Board of Education shall promulgate regulations establishing standards for accreditation pursuant to the Administrative Process Act (§ 2.2-4000 et seq.), which shall include, but not be limited to, student outcome measures, requirements and guidelines for instructional programs and for the integration of educational technology into such instructional programs, administrative and instructional staffing levels and positions, including staff positions for supporting educational technology, student services, auxiliary education programs such as library and media services, course and credit requirements for graduation from high school, community relations, and the philosophy, goals, and objectives of public education in Virginia.

The Board shall review annually the accreditation status of all schools in the Commonwealth.

Each local school board shall maintain schools that are fully accredited pursuant to the standards for accreditation as prescribed by the Board of Education. Each local school board shall review the accreditation status of all schools in the local school division annually in public session. Within the time specified by the Board of Education, each school board shall submit corrective action plans for any schools within its school division that have been designated as not meeting the standards as approved by the Board.

When the Board of Education has obtained evidence through the school academic review process that the failure of schools within a division to achieve full accreditation status is related to division level failure to implement the Standards of Quality, the Board may require a division level academic review. After the conduct of such review and within the time specified by the Board of Education, each school board shall submit for approval by the Board a corrective action plan, consistent with criteria established by the Board and setting forth specific actions and a schedule designed to ensure that schools within its school division achieve full accreditation status. Such corrective action plans shall be part of the relevant school division's comprehensive plan pursuant to § 22.1-253.13:6.

With such funds as are appropriated or otherwise received for this purpose, the Board shall adopt and implement an academic review process, to be conducted by the Department of Education, to assist schools that are accredited with warning. The Department shall forward a report of each academic review to the relevant local school board, and such school board shall report the results of such academic review and the required annual progress reports in public session. The local school board shall implement any actions identified through the academic review and utilize them for improvement planning.

B. The Superintendent of Public Instruction shall develop and the Board of Education shall approve criteria for determining and recognizing educational performance in the Commonwealth's public school divisions and schools. Such criteria, when approved, shall become an integral part of the accreditation process and shall include student outcome measurements. The Superintendent of Public Instruction shall annually identify to the Board those school divisions and schools that exceed or do not meet the approved criteria. Such identification shall include an analysis of the strengths and weaknesses of public education programs in the various school divisions in Virginia and recommendations to the General Assembly for further enhancing student learning uniformly across the Commonwealth. In recognizing educational performance in the school divisions, the Board shall include consideration of special school division accomplishments, such as numbers of dual enrollments and students in Advanced Placement and International Baccalaureate courses, and participation in academic year Governor's Schools.

The Superintendent of Public Instruction shall assist local school boards in the implementation of action plans for increasing educational performance in those school divisions and schools that are identified as not meeting the approved criteria. The Superintendent of Public Instruction shall monitor the implementation of and report to the Board of Education on the effectiveness of the corrective actions taken to improve the educational performance in such school divisions and schools.

INTRODUCED

HB154

59 C. With such funds as are available for this purpose, the Board of Education shall prescribe
60 assessment methods to determine the level of achievement of the Standards of Learning objectives by all
61 students. Such assessments shall evaluate knowledge, application of knowledge, critical thinking, and
62 skills related to the Standards of Learning being assessed. The Board shall (i) in consultation with the
63 chairpersons of the eight regional superintendents' study groups, establish a timetable for administering
64 the Standards of Learning assessments to ensure genuine end-of-course and end-of-grade testing and (ii)
65 with the assistance of independent testing experts, conduct a regular analysis and validation process for
66 these assessments. *The scores from any re-administration of a Standards of Learning assessment for*
67 *those students not receiving a passing score on the initial administration shall be included with the*
68 *initial administration scores and the relevant accreditation rating for the year the initial administration*
69 *took place.*

70 In prescribing such Standards of Learning assessments, the Board shall provide local school boards
71 the option of administering tests for United States History to 1877, United States History: 1877 to the
72 Present, and Civics and Economics. The last administration of the cumulative grade eight history test
73 will be during the 2007-2008 academic school year. Beginning with the 2008-2009 academic year, all
74 school divisions shall administer the United States History to 1877, United States History: 1877 to the
75 Present, and Civics and Economics tests. The Board shall also provide the option of industry
76 certification and state licensure examinations as a student-selected verified credit.

77 The Board of Education shall make publicly available such assessments in a timely manner and as
78 soon as practicable following the administration of such tests, so long as the release of such assessments
79 does not compromise test security or deplete the bank of assessment questions necessary to construct
80 subsequent tests, or limit the ability to test students on demand and provide immediate results in the
81 web-based assessment system.

82 The Board shall include in the student outcome measures that are required by the Standards for
83 Accreditation end-of-course or end-of-grade tests for various grade levels and classes, as determined by
84 the Board, in accordance with the Standards of Learning. These Standards of Learning assessments shall
85 include, but need not be limited to, end-of-course or end-of-grade tests for English, mathematics,
86 science, and history and social science.

87 In addition, to assess the educational progress of students, the Board of Education shall (i) develop
88 appropriate assessments, which may include criterion-referenced tests and alternative assessment
89 instruments that may be used by classroom teachers; (ii) select appropriate industry certification and
90 state licensure examinations and (iii) prescribe and provide measures, which may include nationally
91 normed tests to be used to identify students who score in the bottom quartile at selected grade levels.

92 The Standard of Learning requirements, including all related assessments, shall be waived for any
93 student awarded a scholarship under the Brown v. Board of Education Scholarship Program, pursuant to
94 § 30-231.2, who is enrolled in a preparation program for the General Education Development (GED)
95 certificate or in an adult basic education program to obtain the high school diploma.

96 The Board of Education may adopt special provisions related to the administration and use of any
97 SOL test or tests in a content area as applied to accreditation ratings for any period during which the
98 SOL content or assessments in that area are being revised and phased in. Prior to statewide
99 administration of such tests, the Board of Education shall provide notice to local school boards regarding
100 such special provisions.

101 D. The Board of Education may pursue all available civil remedies pursuant to § 22.1-19.1 or
102 administrative action pursuant to § 22.1-292.1 for breaches in test security and unauthorized alteration of
103 test materials or test results.

104 The Board may initiate or cause to be initiated a review or investigation of any alleged breach in
105 security, unauthorized alteration, or improper administration of tests by local school board employees
106 responsible for the distribution or administration of the tests.

107 Records and other information furnished to or prepared by the Board during the conduct of a review
108 or investigation may be withheld pursuant to subdivision 12 of § 2.2-3705.3. However, this section shall
109 not prohibit the disclosure of records to (i) a local school board or division superintendent for the
110 purpose of permitting such board or superintendent to consider or to take personnel action with regard to
111 an employee or (ii) any requester, after the conclusion of a review or investigation, in a form that (a)
112 does not reveal the identity of any person making a complaint or supplying information to the Board on
113 a confidential basis and (b) does not compromise the security of any test mandated by the Board. Any
114 local school board or division superintendent receiving such records or other information shall, upon
115 taking personnel action against a relevant employee, place copies of such records or information relating
116 to the specific employee in such person's personnel file.

117 Notwithstanding any other provision of state law, no test or examination authorized by this section,
118 including the Standards of Learning assessments, shall be released or required to be released as
119 minimum competency tests, if, in the judgment of the Board, such release would breach the security of
120 such test or examination or deplete the bank of questions necessary to construct future secure tests.

121 E. With such funds as may be appropriated, the Board of Education may provide, through an
122 agreement with vendors having the technical capacity and expertise to provide computerized tests and
123 assessments, and test construction, analysis, and security, for (i) web-based computerized tests and
124 assessments for the evaluation of student progress during and after remediation and (ii) the development
125 of a remediation item bank directly related to the Standards of Learning.

126 F. To assess the educational progress of students as individuals and as groups, each local school
127 board shall require the use of Standards of Learning assessments and other relevant data, such as
128 industry certification and state licensure examinations, to evaluate student progress and to determine
129 educational performance. Each local school shall require the administration of appropriate assessments to
130 all students for grade levels and courses identified by the Board of Education, which may include
131 criterion-referenced tests, teacher-made tests and alternative assessment instruments and shall include the
132 Standards of Learning Assessments and the National Assessment of Educational Progress state-by-state
133 assessment. Each school board shall analyze and report annually, in compliance with any criteria that
134 may be established by the Board of Education, the results from the Stanford Achievement Test Series,
135 Ninth Edition (Stanford Nine) assessment, if administered, industry certification examinations, and the
136 Standards of Learning Assessments to the public.

137 The Board of Education shall not require administration of the Stanford Achievement Test Series,
138 Ninth Edition (Stanford Nine) assessment, except as may be selected to facilitate compliance with the
139 requirements for home instruction pursuant to § 22.1-254.1.

140 The Board shall include requirements for the reporting of the Standards of Learning assessment
141 scores and averages for each year as part of the Board's requirements relating to the School Performance
142 Report Card. Such scores shall be disaggregated for each school by student subgroups on the Virginia
143 assessment program as appropriate and shall be reported to the public within three months of their
144 receipt. These reports (i) shall be posted on the portion of the Department of Education's website
145 relating to the School Performance Report Card, in a format and in a manner that allows year-to-year
146 comparisons, and (ii) may include the National Assessment of Educational Progress state-by-state
147 assessment.

148 G. Each local school division superintendent shall regularly review the division's submission of data
149 and reports required by state and federal law and regulations to ensure that all information is accurate
150 and submitted in a timely fashion. The Superintendent of Public Instruction shall provide a list of the
151 required reports and data to division superintendents annually. The status of compliance with this
152 requirement shall be included in the Board of Education's annual report to the Governor and the General
153 Assembly as required by § 22.1-18.
