HOUSE BILL NO. 267

Offered January 13, 2010

Prefiled January 11, 2010

A BILL to amend and reenact § 54.1-2983 of the Code of Virginia as it may become effective, relating to notification of the Advance Health Care Directive Registry.

Patrons—Englin and Ebbin

Referred to Committee on Health, Welfare and Institutions

Be it enacted by the General Assembly of Virginia:

1. That § 54.1-2983 of the Code of Virginia as it may become effective is amended and reenacted as follows:

§ 54.1-2983. (For contingent effective date - see Editor's note) Procedure for making advance directive; notice to physician.

Any adult capable of making an informed decision may, at any time, make a written advance directive to address any or all forms of health care in the event the declarant is later determined to be incapable of making an informed decision. A written advance directive shall be signed by the declarant in the presence of two subscribing witnesses and may (i) specify the health care the declarant does or does not authorize; (ii) appoint an agent to make health care decisions for the declarant; and (iii) specify an anatomical gift, after the declarant's death, of all of the declarant's body or an organ, tissue or eye donation pursuant to Article 2 (§ 32.1-289.2 et seq.) of Chapter 8 of Title 32.1. A written advance directive may be submitted to the Advance Health Care Directive Registry, pursuant to Article 9 (§ 54.1-2994 et seq.) of this chapter. Such directive shall be notarized before being submitted to the registry.

Further, any adult capable of making an informed decision who has been diagnosed by his attending physician as being in a terminal condition may make an oral advance directive (i) directing the specific health care the declarant does or does not authorize in the event the declarant is incapable of making an informed decision, and (ii) appointing an agent to make health care decisions for the declarant under the circumstances stated in the advance directive if the declarant should be determined to be incapable of making an informed decision. An oral advance directive shall be made in the presence of the attending physician and two witnesses.

An advance directive may authorize an agent to take any lawful actions necessary to carry out the declarant's decisions, including, but not limited to, granting releases of liability to medical providers, releasing medical records, and making decisions regarding who may visit the patient.

It shall be the responsibility of the declarant to provide for notification to his attending physician that an advance directive has been made. *Upon receiving such notification, the attending physician shall notify the declarant of the availability of the Advance Health Care Directive Registry.* If an advance directive has been submitted to the Advance Health Care Directive Registry pursuant to Article 9 of this chapter, it shall be the responsibility of the declarant to provide his attending physician, legal representative, or other person with the information necessary to access the advance directive. In the event the declarant is comatose, incapacitated or otherwise mentally or physically incapable of communication, any other person may notify the physician of the existence of an advance directive and, if applicable, the fact that it has been submitted to the Advance Health Care Directive Registry. An attending physician who is so notified shall promptly make the advance directive or a copy of the advance directive, if written, or the fact of the advance directive, if oral, a part of the declarant's medical records.

In the event that any portion of an advance directive is invalid or illegal, such invalidity or illegality shall not affect the remaining provisions of the advance directive.

INTRODUCED

HB267
