11. Other comments: House Bill 352 revises language in the current section to extend coverage under a group life insurance policy, except coverage pursuant to §38.2-3318.1 B, to any other class of persons as may mutually be agreed upon by the insurer and the group policyholder. Currently, language already includes the spouse and any child which is under the age of 19 or who is a dependent and a full-time student under the age of 25, or any class of spouses and dependent children, of each insured group member who so elects. The language of HB 352 adds the requirement that the amount of insurance on the life of the other person shall not exceed the amount of insurance for which the group member is eligible making it consistent with current language. In addition to the current provisions required in 38.2-3331, HB 352 would require that one certificate may be issued for each insured group member if a statement concerning any spouse's, dependent child's, or other person's coverage is included in the certificate.

House Bill 352 is identical to 2009 House Bill 1726 and to 2010 Senate Bill 465.
