5. **Summary/Purpose:**

This bill would impose the tobacco products tax on moist snuff at the rate of \$0.18 per ounce based on net weight. Moist snuff would be defined as any finely cut, ground, or powdered tobacco that is not intended to be smoked but shall not include any finely cut, ground, or powdered tobacco that is intended to be placed in the nasal cavity.

The bill would also impose the tobacco products tax on loose leaf tobacco at \$0.21 for each unit that is less than 4 ounces, \$0.40 for each unit that is at least 4 ounces but not more than 8 ounces, and \$0.70 for each unit more than 8 ounces. Other units would be taxed by net weight at \$0.21 per unit plus \$0.21 for each 4 ounce increment that the unit exceeds 16 ounces. Loose leaf tobacco would be defined as any leaf tobacco that is not intended to be smoked, but would not include moist snuff.

The bill would also require manufacturers shipping tobacco products into the Commonwealth to file a monthly report with TAX of the names and addresses of the persons receiving the shipments, and the type of product, brand, and quantities of tobacco products that were shipped. The Tax Commissioner may authorize a manufacturer to file such reports less frequently than monthly.

Under current law, the tobacco products tax is imposed on all tobacco products, including moist snuff and loose leaf tobacco, at the rate of 10% of the manufacturer's sales price.

This bill would be effective on January 1, 2011.

Tobacco Products Tax

Under current law, a tobacco products tax is imposed on cigars, smokeless tobacco, and pipe tobacco. Cigarettes are not subject to the tax on tobacco products. Tobacco products include the following:

- Cigars -- any roll of tobacco wrapped in leaf tobacco or in any substance containing tobacco (other than any roll of tobacco that is a cigarette).
- Smokeless tobacco --
 - Snuff -- any finely cut, ground, or powdered tobacco not intended to be smoked.
 - Chewing tobacco -- any leaf tobacco not intended to be smoked.

- Pipe tobacco -- any tobacco which, because of its appearance, type, packaging, or labeling, is suitable for use and likely to be offered to, or purchased by, consumers as tobacco to be smoked in a pipe.

The tax is imposed at the rate of 10% on the “manufacturer’s sales price,” which is defined as the actual price for which a manufacturer, manufacturers’ representative, or any other person sells tobacco products to an unaffiliated distributor. The tax is imposed on the first “distributor” who possesses the taxable product in Virginia. Out-of-state distributors are allowed, but not be required to obtain a license. Retail and wholesale dealers are allowed a discount of 2% of the Tobacco Products Tax due.

As of January 1, 2010, 31 states taxed moist snuff tobacco based on price and 18 states taxed moist snuff using some form of weight based taxation.

Under current law, all revenues from the Tobacco Products Tax are deposited into the Health Care Fund. The federal government matches state funds spent on Medicaid, based on a state’s federal medical assistance percentage (FMAP) match rate. The FMAP determined for each state has a statutory minimum of 50 percent and maximum of 83 percent; although Medicaid expenditures for some selected services and supports are matched at a higher rate for all states.
