

# 2011 SESSION

## SENATE SUBSTITUTE

11105286D

### HOUSE BILL NO. 2496

#### AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the Senate Committee on Finance  
on February 15, 2011)

(Patron Prior to Substitute—Delegate Putney)

*A BILL to amend and reenact Chapter 46 of the Acts of Assembly of 2009, establishing a six-year capital outlay plan for projects to be funded entirely or partially from general fund-supported resources.*

**Be it enacted by the General Assembly of Virginia:**

**1. That Chapter 46 of the Acts of Assembly of 2009 is amended and reenacted as follows:**

§ 1. That the following capital outlay projects and descriptive information shall constitute the Commonwealth's capital outlay plan, pursuant to § 2.2-1518 of the Code of Virginia, for the capital projects supported entirely or partially from the general fund for the six-year period beginning July 1, 2009 2011.

\$0 to \$10,000,000

Agency or Institution	Project Title	Priority	Description
Christopher Newport University	Improve Student Security Infrastructure	4	Provides for the connection all of the buildings and open areas on campus through state-of-the-art technology and enables the university to perform needed upgrades to its computing infrastructure and to control access to buildings and computer systems.
Christopher Newport University	Renovate Band Rehearsal Hall and Connector	5	Supports the renovation of a 1950's high school gymnasium into a modern band rehearsal hall and completes the renovation of the area breezeway connecting this area to the front of the Center for the Arts.
College of William and Mary	Brafferton Hall		
Department of Conservation & Recreation	Construct On-Site Residences, Various State Parks	1	Provides 14 residences and 14 parks across the state. This will allow the agency to provide housing for on-sight law enforcement personnel.
Department of Conservation & Recreation	Dredge Boat Ramp and Repair Shoreline Erosion, Belle Isle State Park	3	Provides for dredging the boat ramp and the channel to the Rappahannock River. The project will also stabilize the park's shoreline to prevent further erosion.
Department of Conservation & Recreation	Construct Improvements at Natural Areas	5	Provides for public access, including parking lots, walkways, and signs at five to six of the major natural area sites.
Department of Conservation & Recreation	Acquire property for Mayo River State Park	6	Provides funding for acquisition of land for the park.
Department of Corrections	Construct 200 Bed Housing Unit at Bland	2	Provides for the removal of three existing modular housing structures, and one office trailer, and replacing them with more substantial and longer lasting housing units.
Department of Corrections	Upgrade Perimeter Detection System (Multiple Institutions)	3	Upgrades electronic detection systems on perimeter fences.

SENATE SUBSTITUTE

HB2496S1

9/13/22 20:11

62	Department of	Replace Door Control	6	Provides supplemental funding for an existing
63	Corrections	Systems		umbrella project created to replace obsolete door
64				control panels and systems.
65				
66	Department of	Upgrade Building Electrical	7	Upgrades the electrical service at Augusta
67	Corrections	Service Entrance—Augusta		Correctional Center.
68				
69	Department of	Correct Environmental	8	Provides supplemental funding to an existing
70	Corrections	Deficiencies		umbrella project created to address violations of
71				environmental laws and regulations and included in
72				a consent order with the Environmental Protection
73				Agency.
74				
75	Department of	Upgrade Preliminary	9	Provides supplemental funding to an existing
76	Corrections	Wastewater Treatment		umbrella project created to install auger grinder
77				equipment in wastewater treatment plants to
78				improve preliminary treatment.
79				
80	Department of Forensic	Expand Eastern Forensic	1	Provides for the renovation of 15,308 square feet of
81	Science	Laboratory Facility		space on the fifth floor to meet the critical space
82				needs of the controlled substances, toxicology, and
83				questioned documents disciplines. In 2005, the
84				Department of Forensic Science was provided
85				funding to lease 5,777 square feet on the 5th floor
86				in this facility from the City of Norfolk to house
87				the latent prints laboratory and laboratory
88				administrative offices. Approval to occupy and
89				renovate the full 5th floor would result in the
90				Eastern Laboratory expanding to approximately
91				54,000 square feet which will allow this laboratory
92				to meet current and projected caseloads.
93				
94	Department of Juvenile	Expansion and Renovation	1	Expands and renovates the school and gymnasium
95	Justice	to School and Gymnasium		at Natural Bridge Juvenile Correctional Center. The
96		at Natural Bridge Juvenile		gym and the existing classrooms, library and
97		Correctional Center		school administration offices are undersized and
98				unable to support the school staff, suffer from
99				deferred maintenance issues, are not handicapped
100				accessible, and are suspected to contain unabated
101				hazardous materials. These structures require
102				comprehensive renovations to bring them into
103				compliance with current state building codes,
104				current fire/life/safety codes, and agency facility
105				standards.
106				
107	Department of Mental	Abate Environmental	4	Addresses several environmental hazard issues at
108	Health, Mental	Hazards		state facilities, including groundwater cleanup,
109	Retardation, and			mold, lead paint and asbestos removal. Includes all
110	Substance Abuse			phases of the project.
111	Behavioral Health and			
112	Developmental Services			
113				
114	Department of State	Castlewood BCI Office		
115	Police			
116				
117	Department of Veterans	Install Generator, Salem	1	Provides for full emergency back-up power to the
118	Services	Veterans Care Center		Salem Veterans Care Center through the
119				installation of a 750 to 1000 kw generator.
120				
121	Department of Veterans	Construct Addition on the	3	Constructs an additional 80 beds to provide the full
122	Services	Sitter Barfoot Veterans		240-beds as originally planned for the
123		Care Center		Sitter-Barfoot Veterans Care Center, located in
124				Richmond adjacent to McGuire Medical Center.
125				Due to changes in the health care delivery system
126				and the rising cost of construction, only 160 beds
127				were constructed in the original project.
128				

129	Department of Veterans Services	Additions and Renovations, Veterans Care Center Salem	4	Provides additional activities, patient therapy and administrative areas to the existing facility. Currently, patient activities/therapy and administrative areas are inadequate to serve the needs of the facility.
130				
131				
132				
133				
134				
135	Frontier Culture Museum of Virginia	Construct Early American Industry exhibit	1	Construct a working, water-powered grist mill. The Frontier Culture Museum's master plan calls for the construction of an early American village as a major component of its expansion, and the grist mill is planned as an important structure in this village.
136				
137				
138				
139				
140				
141				
142	Frontier Culture Museum of Virginia	Expand Infrastructure	2	Combines two infrastructure requests submitted by the agency. Most of the agency's planned expansion will be constructed in an undeveloped area of the property, adjacent to its existing site.
143				
144				
145				
146				
147	George Mason University	Renovate Fine Arts Building	1	Renovates approximately 33,200 gross square feet in the Fine Arts Building originally constructed in 1989. The building will be vacated when the Academic V project is completed and the Art and Visual Technology programs move to the new building. The timing will allow for renovation of the facility to convert space from use for visual arts studio to performing arts space to address program needs of the university.
148				
149				
150				
151				
152				
153				
154				
155				
156				
157	George Mason University	Renovate Finley Building	2	Renovates the Finley Building after the current academic programs move to the new Arlington II building. The renovation will include modifications to support programmatic needs, including academic support and teaching space, associated with the College of Education and Human Development. There will also be a physical connection constructed between Finley and Thompson Halls to visually link the buildings and to protect outdoor program space.
158				
159				
160				
161				
162				
163				
164				
165				
166				
167				
168	Institute for Advanced Learning Research	Construct Greenhouse	1	Provides for the construction of a greenhouse needed to further the research efforts of the agency. The agency currently uses growth rooms and chambers. A greenhouse located on property will increase the agency's ability to grow large numbers of plants and expand breeding techniques within an environmental setting.
169				
170				
171				
172				
173				
174				
175				
176	James Madison University	Construct Technology Infrastructure-Phases 1 & 2	5	Replaces a large portion of the university's technology infrastructure to improve resiliency and more fully meet the bandwidth demand. The project will add network capacity that will enable high-speed delivery of large streams of data to classrooms, labs and desktops throughout the campus.
177				
178				
179				
180				
181				
182				
183				
184	Longwood University	Renovate Space for Faculty and Staff Offices	3	Provides for the renovation of facilities to provide for faculty offices. Faculty positions have increased by 42 over the last several years, and currently, there is insufficient space. This has become a recruiting tool for new faculty.
185				
186				
187				
188				
189				
190	Longwood University	Stevens Hall (Nursing)		
191				

192	Longwood University	Renovate Heating Plant Facility	5	Renovates utility plant to house an additional redundant steam generation capacity for heat and hot water, expansion capacity, and provide a location for a north campus central chilled distribution water system. The chilled water system will utilize a waste heat exchanger from the boiler stacks. This will add additional energy savings by capturing smoke stack waste. A central chilled water distribution system provides economy of scale, a 24/7 monitoring capability and higher reliability and enhanced control. This will be energy efficient and allow for future expansion of the campus.
193				
194				
195				
196				
197				
198				
199				
200				
201				
202				
203				
204				
205				
206	Norfolk State University	Renovate the Wilder Center	3	Corrects a safety problem that occurred during design/construction related to the auditorium floor. The sections of the auditorium need to be leveled and re-graded and in order to renovate the entire section of the floor, the seats will need to be removed and the floor demolished and reconstructed to meet handicap accessibility and building code requirements. There will also be an upgrade/replacement of communication, audiovisual, and information technology systems to maintain a functional arts presentation facility.
207				
208				
209				
210				
211				
212				
213				
214				
215				
216				
217				
218	Norfolk State University	Improve Signage, Roads and Campus Boundary, Phase I	4	Provides for a comprehensive campus signage/information system. A new road will also be constructed to connect Presidential Parkway and Jordan Way to improve vehicular circulation and eliminate the need to use city streets.
219				
220				
221				
222				
223				
224	Old Dominion University	Address Campus Safety, Security and Regulatory Compliance	6	Addresses the most important safety, physical security, and regulatory compliance requirements on campus including: installing electronic locks for exterior building entrances for all major academic buildings along with emergency telephones across campus, improving and expanding the campus-wide pedestrian network to reduce vehicular traffic, and conducting a comprehensive asbestos survey and abating any critical areas identified.
225				
226				
227				
228				
229				
230				
231				
232				
233				
234				
235	Radford University	Renovate Carillion		
236		Roanoke Community		
237		Hospital for Nursing		
238		Program		
239				
240	Roanoke Higher Education Authority	Renovate Roanoke Higher Education		
241				
242				
243	The College of William and Mary	Renovate Andrews Hall	3	Covers basic systems renovations to replace building systems, achieve current accessibility standards, and comply with current building codes. Since originally requesting the additional funding for this project, the college has begun a far-reaching study of its arts programs to quantify instructional needs and develop a plan for maximizing the arts experience for its students. The role that Andrews Hall would play in that plan remains to be determined.
244				
245				
246				
247				
248				
249				
250				
251				
252				
253				
254	The Science Museum of Virginia	Construct Discovery Park	2 1	Provides for the construction of a Discovery Park behind the museum, to include various interactive and educational exhibits explaining solar power, horticulture, and season changes.
255				
256				
257				
258				

259	University of Mary	Construct Jepson Science	1	Provides for the construction of a two-story
260	Washington	Center Addition		addition to Jepson Science Center. The Jepson
261				Science Center opened in the fall of 1998 and
262				houses four academic departments: Biological
263				Sciences, Chemistry, Environmental Sciences and
264				Geology, and Physics. Additional space is <del>need</del>
265				<i>needed</i> to meet existing demand.
266				
267	University of Mary	Repair/replace	2	Provides for the repair or replacement of
268	Washington	Underground Utilities		underground utilities, including sanitary sewers,
269				water lines, electric distribution, and steam and
270				condensate piping are showing progressive patterns
271				of failure due to age and deterioration of system
272				components.
273				
274	University of Mary	Install University Card	3	Provides for installation of card access readers to
275	Washington	Access System		approximately 16 E&G and 12 non-E&G buildings
276				on the Fredericksburg Campus to enhance campus
277				security.
278				
279	<i>Virginia School for the</i>	<i>Renovate Main Hall</i>		
280	<i>Deaf and the Blind -</i>			
281	<i>Staunton</i>			
282				
283	University of Mary	Improve Storm Water	4	Addresses regulatory requirements to adequately
284	Washington	Management		accommodate storm water flow.
285				
286	University of Virginia	Construct Blandy	6	Provides for the construction of a 3,000 gross
287		Arboretum Research Labs		square foot modern laboratory building, two
288		and Cabins		additional research visitor residence cottages
289				totaling 2,500 gross square feet, and essential
290				infrastructure and utility work, including
291				replacement and extension of water and sewer lines
292				from new well service recently installed.
293				
294	University of Virginia	Renovate Rugby	7	Provides for the rehabilitation and conversion
295		Administrative Building		Rugby Faculty Apartment building into
296		and Restore Lambeth		administrative space and will restore the Lambeth
297		Colonnade		Colonnade. Renovations will include replacement
298				of HVAC, plumbing, and electrical systems, and
299				installation of new security, fire suppression, media
300				systems, elevator, replacement and refurbishment
301				of interior finishes, windows and doors, repair of
302				exterior brick walls and wood trim.
303				
304	Virginia Commonwealth	Renovate East Wing of the	5	Provides for the renovation of a 162,000 square
305	University	Oliver Hall Building		foot building originally constructed in 1976. This
306				project renovates a portion of the building into
307				laboratory space for undergraduate instruction.
308				Approximately 7,000 square feet of classroom
309				space will be converted into laboratories to support
310				freshman chemistry classes.
311				
312	Virginia Community	Improve Heating,	3	Provides for the improvement and upgrade to the
313	College System	Ventilation, and Air		heating, ventilation and air conditioning systems at
314		Conditioning,		its Glens Campus. The project scope includes
315		Rappahannock		installation of new controls, air distribution,
316				exhaust ventilation, dedicated computer equipment
317				cooling, and replacement of existing boilers,
318				chillers and electrical upgrades.
319				

320	Virginia Community College System	Renovate Plaza, Structural Repairs Phase II, Annandale Campus, Northern Virginia	6	Provides for the renovation and repairs to correct structural issues for a 3,153 square foot area of a covered loading dock/walkway on the Annandale campus. The concrete columns and beams that support this are have deteriorated to the point that temporary shoring has been installed to insure the safety of those who must work in and traverse through the area beneath it. A section of the upper plaza area including an entrance door to the CF building has been closed to pedestrians.
321				
322				
323				
324				
325				
326				
327				
328				
329				
330				
331	Virginia Community College System	Renovate Library and Learning Resource Center, Virginia Highlands	8	Provides for the renovation of a 39,540 square foot facility constructed in the mid-1980s. The building houses approximately 11 classrooms, 29 faculty and administrative offices.
332				
333				
334				
335				
336	Virginia Community College System	Construct Workforce Development Center, Piedmont Virginia	9	Provides for the acquisition of approximately 5.911 acres including the existing Monticello Visitors' Center, renovation of the existing facility of approximately 10,000 gross square feet, and construction of an 11,000 square foot addition.
337				
338				
339				
340				
341				
342	Virginia Community College System	Renovate Buildings: Carroll, Bland, Galax, Grayson, Fincastle, and Smyth Halls, Wytheville	10	Renovates Carroll and Bland Halls (constructed 1971), Grayson Hall (constructed 1984), Fincastle Hall (constructed 1968), Galax Hall (constructed 1973) and Smyth Hall (constructed 1997).
343				
344				
345				
346				
347	Virginia Community College System	Renovate Building B, J. Sargeant Reynolds - Parham Road Campus,	11	Provides for the renovation and update of 35,000 square feet in Building B at the Parham Road Campus, constructed in the late 1970's. The planned renovations include upgrade of teaching laboratories, classrooms, and support space needed to provide modern state-of-the-art instruction.
348				
349				
350				
351				
352				
353				
354	Virginia Community College System	Replace Exterior Windows and Doors, Rappahannock	12	Provides for the replacement of all exterior windows and doors at its Glenss and Warsaw campuses. Replacement will reduce utility costs in both heating and cooling seasons.
355				
356				
357				
358				
359	Virginia Community College System	Renovate Phase I Academic and Administration Building, Eastern Shore	16	Provides for the renovation of the existing 42,000 square foot Academic and Administration Building originally completed in 1974. Although selected areas of this building have had some minor alterations over the years, it has not undergone extensive renovations aimed at bringing it up to current codes and standards.
360				
361				
362				
363				
364				
365				
366				
367	Virginia Community College System	Relocate Observatory and Great Dismal Swamp Education Center, Tidewater - Chesapeake Campus	17	Provides for the relocation of an observatory from the Portsmouth campus to the Great Dismal Swamp. The relocation and development of the college's observatory in the swamp will allow for collocation with an educational facility at the Great Dismal Swamp Refuge in partnership with the City of Chesapeake and the U.S. Fish and Wildlife Service. The proposed facility will include 5,500 square feet of Tidewater Community College space to provide a biology laboratory, preparatory spaces, two classrooms, a rooftop observatory and a remote observatory located in the Great Dismal Swamp.
368				
369				
370				
371				
372				
373				
374				
375				
376				
377				
378				
379				
380	Virginia Community College System	Construct Student Service & Learning Resources Center, Christanna Campus, Southside Virginia	18	Provides for the construction of a 35,000 square foot learning resource center on the college's Daniel campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
381				
382				
383				
384				
385				
386				

387	Virginia Community	Renovate Main Building,	19	Project provides for a comprehensive renovation of
388	College System	Lord Fairfax		the main academic and administration building on
389				the Middleton campus. The main building was built
390				in 1970.
391				
392	Virginia Community	Renovate Academic	21	Provides for the renovation of various classrooms
393	College System	Classrooms and		and laboratories throughout the college to meet
394		Laboratories, Tidewater		college-approved minimum technology standards.
395				While all instructional spaces in proposed new or
396				renovated facilities will meet these standards, 158
397				existing instructional spaces are not included in
398				requests to be completed within the next six years.
399				
400	Virginia Community	Construct Addition to	22	Constructs an addition to the Learning Resource
401	College System	Learning Resource Center,		Center (built in 1972). The addition would include
402		Patrick Henry		a multi-media research and development classroom
403				laboratory, model technology training center,
404				center for distance learning with video production
405				capabilities, video conferencing room for faculty,
406				staff, and community use, regional magnet school
407				for technology, and related support spaces.
408				
409	Virginia Community	Renovate and Repair	24	Provides for renovations to complete exterior and
410	College System	Exterior/Interior Structures,		interior structural repairs on various campus
411		Thomas Nelson		buildings.
412				
413	Virginia Community	Construct Maintenance	26	Constructs a 3,000 gross square foot maintenance
414	College System	Building, Germanna		building on the Fredericksburg campus. The
415				proposed building will contain high bay service
416				areas with operable service doors to house large
417				building and ground maintenance equipment,
418				supplies, and associated offices.
419				
420	Virginia Community	Construct Network	27	Constructs, or acquires through a capital lease, a
421	College System	Operations Center,		new 9,000 square foot facility to house the
422		Tidewater		college's network operations center. The center will
423				provide a modern enterprise data center for
424				management of the college's wide area network
425				(WAN) and services that support administration
426				and instruction at the college's four campuses,
427				remote centers, and other off-campus sites.
428				
429	Virginia Community	Construct Canopies,	29	Provides for the expansion to the existing campus
430	College System	Virginia Highlands		canopy system. Canopies connect the three original
431				buildings built on campus in 1969. The project
432				would expand the canopy system to extend to the
433				three additional buildings that have been built since
434				1969.
435				
436	Virginia Community	Construct New Classroom	33	Constructs a new 20,000 square feet Classroom and
437	College System	and Administration		Administration Building on the Weyers Cave
438		Building, Blue Ridge		College campus.
439				
440	Virginia Community	Construct Engineering and	34	Renovates academic space for the engineering and
441	College System	Industrial Technology		industrial technology program.
442		Building, Danville		
443				
444	Virginia Institute of	Construct a Consolidated	1	Provides for the construction a new 25,000 square
445	Marine Sciences	Scientific Research Facility		foot building to provide research, office and
446				technology space for the Marine Advisory
447				Services, the Center for Coastal Resource
448				Management, the physical sciences modeling
449				group, and the publication/communication and
450				computer centers in a single facility.
451				

452	Virginia Institute of Marine Sciences	Expand the Fisheries Science Building	2	Provides for the construction of a new 13,900 square foot laboratory and office building adjacent to the Fisheries Science Building. The current facility is at its maximum size allowed by the building code for its construction type.
453				
454	Virginia Institute of Marine Sciences	Replace the Oyster Hatchery	3	Constructs a new oyster hatchery with laboratory space for algae culture, larvae culture, and saltwater treatment and polishing; a 10,000 gallon standing water tower reservoir for storage of clean saltwater for fish and shellfish when environmental conditions will not allow pumping water from the York River; storage space for research equipment; a conference/education meeting space; emergency generator; and expansion and improvement of the flow-through nursery located outside the building.
455				
456				
457				
458				
459				
460				
461				
462				
463				
464	Virginia Military Institute	Improve Post Infrastructure, Phase I	2	Provides for the upgrades or repairs of aging or failing campus infrastructure, including replacing water distribution piping, boiler replacement, lighting upgrade, and sewer line replacement.
465				
466				
467				
468	Virginia Military Institute	Improve Public Safety and Security on Post, Phase I	3	Provides for the construction of a Post police station facility, inclusion of a centralized command and communications center in the Post police facility, installation of a centralized fire and security monitoring system, installation of a centralized building access monitoring system through door controls and video surveillance of critical areas, installation of an emergency communication alert system for the Post, and construction modifications to Post buildings and infrastructure.
469				
470				
471				
472				
473				
474				
475				
476				
477				
478	Virginia Military Institute	Renovate Post Hospital	4	Provides for the renovation of the Post hospital, a historic two-story masonry structure built in 1870. All of the building systems are antiquated and in need of major upgrade. This project will make the building accessible to the disabled, replace windows and doors, upgrade finishes, repair the roof, correct exterior water intrusion issues, replace the HVAC and electrical systems and reconfigure the building space to better address the programmatic needs for this facility.
479				
480				
481				
482				
483				
484				
485				
486				
487				
488	Virginia Military Institute	Improve Admissions and Financial Aid Offices	5	Provides for renovations to the existing admissions office, and conversion and renovation of the adjacent building #29 to the financial aid office.
489				
490	Virginia Military Institute	Improve Historic Preservation Sites, Phase I	7	Provides for modest improvements to preserve the historic elements of three structures. These facilities, the Commandants Quarters, the Turman House, and the Cabell House, are contributing historical buildings to the VMI Historic District which was listed as both a National Register property and a National Historic Landmark in 1974.
491				
492				
493				
494				
495				
496				
497				
498				
499				
500	Virginia Museum of Fine Arts	Renovate Robinson House	1	Provides for the demolition of the interior of the building, removal of asbestos, repair and reinforcement of structure, and replacement of major systems, including fire suppression systems. An addition will be constructed to provide an elevator and accessible emergency stairs and restrooms. The Robinson House is a, an 1850's farmhouse, is a historically significant building to the Boulevard Historic District.

520	Virginia Polytechnic Institute and State University	Renovate Liberal Arts Building	4	Provides for the renovation of a building that was constructed in 1899 as a YMCA building. The building currently houses Theater Arts programs and the School of the Arts instructional program. The renovation of the building will allow a complete exterior refurbishment and interior renovation to provide new academic spaces.
521				
522

524				
525				
526				
527				
528	Virginia Polytechnic Institute and State University	Construct Newman Library Addition - ARC	8	Provides for the construction of a 5,000 gross square foot addition to the east side of Newman Library between the existing loading dock and Squires Student Center. The addition will contain high-density, self-supporting, heavy-duty storage shelving and an automated, robotic retrieval system capable of handling up to one million volumes. The new space will increase the ability to efficiently store and quickly retrieve materials without delay and without additional staff or floor space.

531				
532				
533				
534				
535				
536	Virginia Polytechnic Institute and State University	Construct Academic and Student Programs Building	10	Provides additional instructional space, dining services, and student services on the north side of campus. The proposed project is envisioned as a 91,200 gross square foot, five story building. The building plan includes two floors of instructional space, two floors of dining service space, and one floor of student union space. The two lower floors will be dining services, the third floor will be student union space, and the top two floors will be instructional space.
537				
538				
539				
540				
541				
542				
543				
544	Virginia Polytechnic Institute and State University	Address Fire Alarm Systems and Access	11	Provides for needed campus improvements in several educational and general facilities resulting in improvements to accessibility, installation of fire alarm systems, and updates to the needs assessment and planning which are beyond the scope of the Maintenance Reserve program. This project envisions significant accessibility and safety improvements in various campus buildings and exterior campus facilities.
545				
546				
547				
548				
549				
550				
551				
552	Virginia State University	Renovate Lockett Hall	2	Includes upgrading electrical, plumbing and heating systems, installing central air conditioning and an elevator, upgrading the restrooms to provide handicap access, upgrading the exterior of the building, remediating and abating lead and asbestos, upgrading the interior finishes and communication system, and building a research greenhouse to handle modern research in botany, medicinal plants, and biotechnology.

573				

574	Christopher Newport University	Construct Integrated Science Center, Phase II	2	Constructs a 110,000 square foot academic building (already funded) and renovate 38,000 square feet of an existing academic building. This is the renovation phase of a combined project. The new Integrated Science Center will provide state-of-the-art laboratories, classrooms, faculty offices and research facilities for Biology, Chemistry, Environmental Science, and Psychology. The building will be fully integrated with an enclosed connector between the existing and new structures. The Integrated Science Center will house more than 50 faculty, 25 laboratories and 11 classrooms designed for teaching and research.
575				
576				
577				
578				
579				
580				
581				
582				
583				
584	Department of Conservation & Recreation	Construct Visitor Center/Environmental Education Center, Five State Parks	2	Funds five visitor center/environmental education facilities for major parks in the system. Each building will be 4,500 to 5,000 square feet and built to LEED standards.
585				
586				
587				
588	Department of Conservation & Recreation	Develop Infrastructure, New River Trail State Park	4	Funds renovation of a number of historic facilities for park use, such as conversion of the old Austinville mining office into a visitor center, including construction of a campground and equestrian campground.
589				
590				
591				
592	Department of Corrections	Construct Western Training Facilities	5	Constructs a training facility in the western part of the state.
593				
594				
595				
596	Department of Mental Health, Mental Retardation, and Substance Abuse Behavioral Health and Developmental Services	Repair/Replace Campus Infrastructures	2	Funds the repair/replacement of faulty utilities at state facility. Also includes the repair or replacement of damaged sidewalks, curbs, and parking lots to ensure safe access for staff and residents
597				
598

600				
601				
602				
603				
604				
605				
606	George Mason University	Construct Physical Plant addition	4	Constructs a 30,000 gross square foot physical plant facility, and renovates the existing 12,000 square feet to correct code and safety issues and realign the existing building to the needs of the physical plant. Constructed in 1974, the current physical plant building was designed to support a significantly smaller and less active campus than the current University. The current Physical Plant Building does not meet building, environmental, or energy codes, Occupational Safety and Health Administration (OSHA) codes, and Americans with Disabilities Act (ADA) regulations.
607				
608				
609				
610				
611				
612				
613				
614				
615				
616	George Mason University	Construct Satellite Cooling and Heating Plant	5	Constructs an addition to the university-wide central heating and cooling system. The project will add capacity to the central distribution system through the addition of boilers and chillers in the west sector of the Fairfax campus. Placement of new capacity in the west sector near demand sources will reduce distribution losses, while retaining the ability to service the entire campus.
617				
618				
619				
620				
621				
622				
623				
624				
625				
626	James Madison University	Renovate Johnston Hall	3	Provides for the renovation of Johnston Hall, constructed in 1929 as a student residence hall, and converted to faculty offices in the early 1970s.
627				
628				
629				
630	James Madison University	Renovate Moody Hall	4	Provides for the renovation of Moody Hall, opened in 1961 as a general-purpose classroom and faculty office facility.
631				
632				
633				
634	James Madison University	Renovate Moody Hall	4	Provides for the renovation of Moody Hall, opened in 1961 as a general-purpose classroom and faculty office facility.
635				
636				
637				
638	James Madison University	Renovate Moody Hall	4	Provides for the renovation of Moody Hall, opened in 1961 as a general-purpose classroom and faculty office facility.
639				

640	Jamestown-Yorktown	Replace Yorktown	1	Provides for the construction of a new museum to
641	Foundation	Museum		address the following: (1) accommodate expected
642				visitation (2) replace exhibitory that has exceed its
643				useful life (3) provide a properly sequenced visitor
644				experience and eliminate visitor wayfinding issues,
645				and (4) provide an adequately sized changing
646				gallery to provide a more effective impetus for
647				repeat visitation.
648				
649	Longwood University	Renovate French Hall for	1	Provides for the renovation of space for
650		Relocated Technology		Information and Instructional Technology Services
651		Center		(IITS), a department that has doubled in size in
652				nine years as the University has expanded its
653				enrollment and use of technology.
654				
655	Longwood University	Construct Physical Plant	2	Provides for the construction of a 58,452 square
656		Building		foot physical plant building to house trades shops,
657				equipment storage, staff members, project
658				document storage, and controlled spaces for
659				maintenance parts inventory and daily operations.
660				The current grounds department has only one
661				office; the remaining staff members share a garage
662				with equipment and stored supplies. Much of the
663				expensive equipment used by the department must
664				be stored outside, open to the elements, and subject
665				to theft.
666				
667	Longwood University	Renovate and Expand	4	Provides for the renovation of 12,000 square feet
668		Wygat Hall		and construction of an addition totaling 24,000
669				square feet. It will house classrooms, practice
670				rooms, recital hall, faculty offices, and other rooms
671				associated with an academic music department.
672				
673	Old Dominion	Construct a Systems	1	Supports the construction of a new 50,000 square
674	University	Research and Academic		feet systems research and academic building on the
675		Building		Norfolk campus. This four-story facility will
676				include modern instructional and research space as
677				well as faculty and administrative offices and
678				support space. The design will encourage
679				unprecedented levels of research collaboration and
680				cooperation across disciplines that are often
681				housed in separate departments within separate
682				disciplines and colleges.
683				
684	Old Dominion	Renovate and Construct	2	Combines 4,000 square feet of renovations to the
685	University	Child Development		university's existing child development center with
686		Centers		a new two-story, 20,176 square feet addition on the
687				Norfolk campus with the construction of a new
688				30,000 child development and early childhood
689				education program facility at the university's
690				higher education center located in Virginia Beach.
691				
692	Old Dominion	Renovate the Education	3	Renovates 45,000 square feet of the College of
693	University	Building		Education on the Norfolk campus. This is the
694				central location for all of the College's
695				administrative offices and support spaces, labs, and
696				classroom facilities. In addition to the require
697				system upgrades for utility and maintenance
698				efficiencies, the facility will also require structural
699				renovations to establish new classroom layouts.
700				

701	Old Dominion University	Renovate Spong and Rollins Halls	4	Creates a consolidated service destination for all of the university's daily administrative, business, and student financial service functions within the renovated Spong and Rollins Halls. Spong Hall (39,374 square feet ) and Rollins Hall (49,564 square feet) are two of the original buildings on the Norfolk campus. Once completed, these combined facilities will house the Office of Finance, Office of Financial Aid, Human Resources, University Auditor, Office of the Registrar, Office of Environmental Health and Safety, Equal Employment Opportunity Office, and the support functions of the Office of Admissions.
702				
703				
704				
705				
706	Old Dominion University	Construct a New Facilities Support Building	5	Acquires approximately four acres of property and constructs a new facilities support building to accommodate the Division of Facilities to include departmental offices, shops, storage facilities, and general warehousing.
707				
708				
709				
710				
711	Radford University	Construct Graduate/Professional Degree Building	2	Provides for 70,000 square feet for the graduate education program. This is a major focus at Radford University, and graduate students make up 11.5 percent of the RU student body.
712				
713				
714				
715				
716	Southwest Virginia Higher Education Center	Construct New Wing	1	Constructs 35,000 square feet of new space and renovates 13,787 square feet of existing space to provide for additional classrooms, faculty offices, research labs, and conference space.
717				
718				
719				
720				
721	The College of William and Mary	Renovate Tucker Hall	2	Repairs/replaces deteriorated building systems and installed equipment and provides upgrades to classrooms to meet the demands of the modern teaching environment to include standard, presentation, and multimedia classrooms. Other work includes connecting to telecommunications systems, installing a fire sprinkler system, addressing handicap accessibility issues, and conducting a complete exterior restoration.
722				
723				
724				
725				
726	University of Virginia	Upgrade Ruffner Hall	3	Provides for the repair and/or replaces of major infrastructure systems in Ruffner Hall, originally constructed in 1973. The project includes a structural evaluation and replaces building systems including HVAC, flooring, electrical, fire alarm system, sprinklers, masonry, roofing, skylights, doors, windows, hardware, interiors, signage, furnishings, site work, and plumbing. It also removes asbestos and lead based paint.
727				
728				
729				
730				
731	University of Virginia	Construct Ivy Stacks, Phase II	4	Provides for construction of a 30,000 gross square foot facility to accommodate growth in library collections and provide space for technical and curatorial functions of the library. The project includes high density shelving, media storage, a preservation lab, and a new collections processing and handling facility.
732				
733				
734				
735				
736	University of Virginia	Replace North Chiller Plant Chillers	5	Provides for the replacement of four aging 1,200-ton chillers that are nearing the end of their useful life with new chillers to reliably serve the needs of the health sciences precinct. This plant serves the most critical facilities at the university including the university hospital, patient clinics, animal care facilities, and critical research facilities as well as offices, classrooms, dining, and administrative areas.

769	UVA's College at Wise	Renovate Wyllie Library	2	Converts the Wyllie Library into an academic classroom building to provide additional classrooms, study space, and faculty offices.
770				
771				
772				
773	Virginia Commonwealth University	Renovate Sanger Hall, Phase II	2	Provides for the second phase of a four-phase project to upgrade 50,000 square feet of instructional and research laboratories in Sanger Hall, the largest instructional and research facility at the university, and provides the core teaching space for many of the health-related disciplines. The project scope includes reconfiguration and modernization of spaces and upgrades to environmental systems.

777				
778				
779				
780				
781				
782				
783	Virginia Commonwealth University	Renovate Student Services Building, MCV Campus	3	Renovate the VMI Building , originally constructed in 1925, located on the university's MCV Campus. This renovation is required to co-locate student service activities in an area which is central to campus and within easy pedestrian access to instructional and clinical facilities. The renovation will allow the university to vacate service offices from existing instructional facilities so that academic activities may be more efficiently co-located. The renovation also includes upgrades to building systems.

790				
791				
792				
793				
794				
795	Virginia Community College System	Renovate Academic Classrooms and Administrative Building, Rappahannock	1	Provides for the renovation of academic classrooms and administrative support buildings at Rappahannock Community College.
796				
797				
798				
799				
800	Virginia Community College System	Construct Student Services - Learning Resources Building, Southside Virginia	4	Provides for the construction of a 35,000 square foot Learning Resource Center on the college's Daniel Campus. The new building would include a library, multi-media learning resource center and a student service center for admissions, counseling, financial aid, and other related support spaces.
801				
802				
803				
804				
805				
806				
807	Virginia Community College System	Renovate Stone Hall Building, Patrick Henry	7	Provides for the renovation of Stone Hall constructed in 1974. The scope of the renovations include classrooms, faculty offices and a large multipurpose room. The renovations are needed to meet current code requirements for restrooms, accessibility, fire and life safety, ventilation and energy efficiency.
808				
809				
810				
811				
812				
813				
814				
815	Virginia Community College System	Renovate Bird and Nicholas Halls, John Tyler - Chester Campus	13	Provides for a comprehensive renovation and upgrade of Bird Hall, Goynes Hall, and the Nicholas Center on the college's Chester campus. Completing the renovations will improve academic programmatic function and classroom innovation.
816				
817				
818				
819				
820				
821	Virginia Community College System	Construct Learning Resources Center, Tidewater - Chesapeake Campus	15	Constructs a 50,000 square foot building to accommodate a new Learning Resources Center on the Chesapeake campus. Dramatic enrollment growth on the campus since construction of the existing Learning Resources Center within the Pass Building has rendered that space insufficient to support the resource needs of the campus. In addition, the space layout is inefficient for contemporary Learning Resources Center functions.
822				
823

825				
826				
827				
828				
829				
830				
831				
832	Virginia Community College System	Construct Workforce Development Center, Northern Virginia - Woodbridge Campus	23	Provides for the construction of a new 55,000 square foot workforce development center to support office, classroom and computer laboratory areas.
833				
834				
835				
836				

837	Virginia Community College System	Construct New Building for Trucking Program, Tidewater - Portsmouth Campus	25	Provides for the construction of a new 29,500 square foot facility to house the trucking program, currently located on the existing Portsmouth campus in the City of Suffolk. This proposal would construct a new Regional Trucking Program Facility as part of the relocation of the Portsmouth campus.
838				
839				
840				
841				
842	Virginia Community College System	Construct Workforce Solutions and Academic Training Center, Fauquier Campus, Lord Fairfax	28	Provides for the construction of 45,000 square foot facility to provide 13 academic classrooms, (two classrooms of 1,200 square feet, four classrooms of 900 square feet, four classrooms of 725 square feet and three classrooms of 450 square feet.)
843				
844				
845				
846				
847	Virginia Community College System	Expand and Renovate Phase III Academic Building, Northern Virginia - Loudoun Campus	30	Provides for the renovation/renewal of the 33-year-old, 77,735 gross square foot Loudoun Campus Phase I main administrative/classroom building. This building contains classrooms, computer labs, faculty and administrative offices, the Learning Resources Center, a bookstore, and a cafeteria.
848				
849				
850				
851				
852	Virginia Community College System	Renovate Bisdorf Phase II Academic Building, Northern Virginia - Alexandria	32	Provides for the renovation/renewal of the 27-year-old, 60,000 gross square foot Phase II classroom building. This building contains classrooms, computer labs, and faculty offices.
853				
854				
855				
856				
857	Virginia Military Institute	Renovate Science Building	1	Provides for the renovation of the Science Building. Renovations are required to support a change in the core curriculum related to accreditation and the planned increase in the size of the Corps of Cadets. The goal is to increase the number of math, science, and engineering graduates.
858				
859				
860				
861				
862	Virginia Military Institute	Renovate Moody Hall	6	Provides for the renovation of Moody Hall, which was constructed in 1969 and primarily supports alumni, faculty and staff and cadet functions and activities. The facility also houses some office space for the admissions office. It is frequently used for educational and administrative meetings and conferences. The building is aging and emergency repairs are increasingly costly.
863				
864				
865				
866				
867	Virginia Polytechnic Institute and State University	Construct Chiller Plant, Phase I	3	Provides the construction of a central chiller plant building on the southwest area of campus with capacity to hold 12,000-tons of chilling service, install 2,000 tons of chiller output, and install distribution piping. This project received \$480,000 detail planning in Chapter 1.
868				
869				
870				
871				
872	Virginia Polytechnic Institute and State University	Renovate Cyber Arts and Creative Technologies Laboratory	5	Provides for the creation of a Cyber Arts Studio and Creative Technologies Laboratory will be the first instructional space at Virginia Tech able to fully support emergent pedagogy in creative technologies to enrich programs and student learning in ways that have not historically been possible. By renovating Shultz Hall to the Cyber Arts Studio and Creative Technologies Laboratory, the university will provide the place and infrastructure to fully immerse the university and the extended outreach community into a 21st century exploration of a place and space where art, humanities, science, engineering & technology intersect.

902				

903	Virginia Polytechnic Institute and State University	Construct Classroom Building	6	Provides for the construction of a 64,250 gross square foot building with 36 large-size classrooms on the north side campus in the core a instruction activity. The university has developed a three phase plan to improve the classroom inventory.
904				
905				
906				
907				
908	Virginia Polytechnic Institute and State University	Construct Veterinary Medicine Instruction Addition	7	Provides for the construction an addition of about 32,300 gross square feet of instructional space to provide adequate classrooms, to relieve overcrowding of the existing facility, and to accommodate planned hires. The project includes three new classrooms and teaching laboratories, 50 faculty spaces, and renovations of some existing space to minimize the amount of new construction. These issues must be addressed to meet the requirements of the American Veterinary Medical Associations' Council on Education, which is the accrediting body for the College of Veterinary Medicine.

966				

967	Department of Behavioral Health and Developmental Services	Construct New Sexually Violent Predator Facility	5	Constructs a second facility for the treatment of civilly committed sexually violent offenders. The current facility has a capacity of only 300 and it is anticipated that it will be at capacity before the end of FY 2012. Includes both planning and construction costs.
968				
969				
970				
971				
972	Department of Forensic Science	Expand Western Forensic Laboratory Facility	2	Provide for purchase of a property adjacent to the department's Roanoke Lab. The purchase will expand the current facility by an estimated 55,000 square feet.
973				
974				
975				
976				
977	Department of Mental Health, Mental Retardation, and Substance Abuse Behavioral Health and Developmental Services	Replace Facility Roofs	1	Includes all four phases of roof replacement at state facilities. Project would replace roofs that are beyond repair.
978				
979				
980				
981				
982	Department of Mental Health, Mental Retardation, and Substance Abuse Behavioral Health and Developmental Services	Replace Support Service Facility at Eastern State Hospital	6	Replaces a food service facility that was designed and built in 1954 for 1800 patients. The existing facility is several times too large to economically and efficiently provide service to the current population at Eastern State Hospital. The proposed facility will serve 300 patients from an appropriately sized facility. A new patient cafeteria will also be provided within this facility. The facility will also replace a warehouse/purchasing space and a buildings & grounds/transportation space.
983				
984				
985				
986				
987	Department of Veterans Services	Construct Veterans Care Center in Hampton Roads	2	Provides funding for a proposed facility that encompasses 240 beds within about 165,000 square feet, and includes domiciliary care (assisted living), skilled nursing, an Alzheimer's unit and perhaps a unit for the treatment of spinal cord injuries. The department has submitted, and USDVA funding is pending for a new Veterans Care Center in Hampton Roads, Virginia.
988				
989

991				
992	George Mason University	Prince William Life Sciences		
993				
994				
995				
996				
997	James Madison University	Renovate West Wing Hospital	1	Provides for the renovation of the West Wing of the Rockingham Memorial Hospital complex, purchased by James Madison University in 2005.
998				
999				
1000				
1001				
1002	James Madison University	Renovate and Expand Duke Hall	2	Provides for the renovation and expansion of Duke Hall at James Madison University. Duke was opened in 1967 as a classroom, studio and faculty office facility for the fine arts. Originally, Duke housed the university's Music, Theatre and Art Departments. Today it contains classrooms, studios and faculty offices for School of Art and Art History and the main stage theatre of the School of Theatre and Dance.

Today it contains classrooms, studios and faculty offices for School of Art and Art History and the main stage theatre of the School of Theatre and Dance.
1023				

1024	Norfolk State University	Construct a New Nursing and General Classroom Building	1	Project supports the construction of a new building to house research, instructional, and support services for the Department of Nursing as well as general instructional classrooms on the Norfolk campus. This project includes both the demolition of the old Norfolk Community Hospital, originally intended to house the nursing program and general classrooms, and the construction of a new 130,300 square feet facility at a different location on campus to conform to the university's master plan. The new facility will provide state of the art space and infrastructure, replacing aged inadequate classroom and laboratory spaces.

1035	Norfolk State University	Renovate and Expand the Hamm Fine Arts Building	2	Addresses disability access limitations, inadequate storage, lack of sound proof music rooms, and poorly ventilated art classrooms. The renovation/expansion will support the existing arts program, permit the existing band program to expand, and bring the facility into building code compliance.
1036				
1037				
1038				
1039				
1040	Radford University	Construct College of Science and Technology Building	1	Provides for a new building to house mathematics, statistics, computer science and technology, and information science systems. Currently, the distance between the disciplines limits day-to-day interdisciplinary collaboration for both faculty and students. Bringing these disciplines together into a new building will promote a strong synergy among the computational sciences and open additional space on campus for the expansion of the natural sciences.

1188				
1189	Virginia State University	Renovate and Expand Daniel Gym	3	Provides reconfigured optimal space for the Departments of Health and Physical Education, as well as the Recreation and Dance Bachelor of Science programs. Renovation efforts would include: upgrading the HVAC, restructuring interior walls to accommodate course offerings, upgrading and repairing interior finishes, upgrading plumbing and electrical systems, and modernizing the locker rooms. Major renovations are also needed to the natatorium to provide for the comfort and safety of both participants and spectators. A proposed 26,451 square feet expansion would provide new electronic classrooms, seminar rooms, courts, studios, offices and a training and wellness center. A storm water master plan and new or expanded storm water management facility are also important components of this project.

1211				

1212	Department of Mental	Repair/Replace Boilers,	3	Continues the phased renovations of the boilers,
1213	Health, Mental	Heat Distribution and		heat distribution and HVAC systems and addresses
1214	Retardation, and	HVAC Systems		the most critical needs for the various facilities.
1215	Substance Abuse			This request will address the detailed needs of state
1216	Behavioral Health and			facilities in three parts. Part A deals with
1217	Developmental Services			renovation of heat distribution systems, Part B
1218				addresses boilers and boiler plant auxiliary
1219				equipment and Part C will upgrade deficient
1220				building heating, ventilation and air conditions
1221				systems. The project includes funding for all
1222				phases.
1223				
1224	George Mason	Construct Campus Library	3	Constructs a 150,000 gross square foot addition to
1225	University	addition, Phase I		the existing Fenwick Library to reposition it as the
1226				main research library and as the central hub,
1227				connecting the Johnson Center, Arlington and
1228				Prince William campus libraries. The addition will
1229				help meet the needs and demands of a growing,
1230				increasingly residential, undergraduate student
1231				population, with a strong focus on graduate
1232				education and research.
1233				
1234	George Mason	Construct Academic	6	Constructs a new 150,000 gross square foot
1235	University	VII/Research III, Phase I		academic building to serve the College of Health
1236				and Human Services. Projected enrollment growth
1237				must be supported by the addition of space for
1238				academic, instructional, research, and clinical
1239				support located within a new facility. The building
1240				will also provide new classroom space to replace
1241				rooms removed by ongoing renovations and
1242				upgrades.
1243				
1244	University of Virginia	Renovate New Cabell Hall	1	Provides for renovations to support core functions
1245				of the College of Arts and Sciences' mission. The
1246				building, originally constructed in 1950, is in need
1247				of general renewal to support its present program
1248				activity. The project renovates 50 centrally
1249				managed classrooms, 390 faculty offices and
1250				includes updates to all major building systems to
1251				provide modern functionality and address code and
1252				accessibility compliance.
1253				
1254	Virginia State University	Construct a multipurpose	1	Supports the construction of a multipurpose center
1255		center		to accommodate programmatic needs of various
1256				academic, cultural, athletic, entertainment
1257				functions and the extension of outreach programs
1258				into the surrounding counties.
1259				
1260	\$75,000,001 to \$100,000,000			
1261				
1262	Agency or Institution	Project Title	Priority	Description
1263				
1264	Department of Mental	Replace Forensic Unit at	7	Replaces within a single building, all of the
1265	Health, Mental	Central State Hospital		appropriate residential, treatment program, and
1266	Retardation, and			administrative support functions necessary to a
1267	Substance Abuse			secure forensic mental health facility meeting
1268	Behavioral Health and			today's standards. In addition the new buildings
1269	Developmental Services			would be both energy and staff efficient by design.
1270				Includes both planning and construction costs.
1271				

1272	The College of William and Mary	Construct Integrated Science Center, Phase III	1	Provides approximately 120,000 square feet of additional classroom, laboratory, office, and support space to the Integrated Science Center Complex to accommodate the Department of Applied Science and the Computational Science Program. This facility will provide teaching and research space designed for maximum flexibility to meet the challenging needs of science instruction and accommodate student and faculty research in the sciences, applied science, and mathematics.

## Above \$100,000,000

1283	Agency or Institution	Project Title	Priority	Description
1284				
1285	Department of Corrections	Construct Charlotte County prison	4	Construct a 2,000-bed medium security prison.
1286				
1287	Department of Corrections	Construct New Medical Facilities at Powhatan	4	Constructs a new 150-bed hospital at Powhatan Correctional Center.
1288				
1289				
1290	Department of General Services	Renovate Supreme Court Interior	1	Renovates the Supreme Court building which was originally constructed in 1919 as the Federal Reserve Bank of Richmond. The present building consists of the original structure and several additions constructed prior to approximately 1951. The Supreme Court Building is a Richmond landmark and is eligible for nomination to both Virginia and National historic registers. This project addresses the renewal of all interior building systems and upgrade to present day building code, environmental quality, life safety, accessibility and functional standards.
