The Governor shall submit such bill or bills for consideration by the General Assembly as are necessary to implement such alternative financings, and shall include in "The Budget Bill" submitted pursuant to § 2.2-1509 proposed appropriations from general fund revenues for the remaining one-half of the required biennial appropriation.

The Governor shall submit such bill or bills for consideration by the General Assembly as are necessary to implement such alternative financings.

2. In implementing the provisions of this section, the amount of general funds to be included in the biennial appropriation for the capital outlay plan *and the additional appropriation for transportation projects* shall be calculated on a year-to-year basis, but may be apportioned on a biennial basis; provided, however, that the combined total of general fund appropriations and alternative financing mechanisms for the capital outlay plan included in "The Budget Bill" submitted pursuant to § 2.2-1509 shall equal at least two percent of the projected general fund revenues for the biennium.

112 § 33.1-23.05. Revenue-sharing funds for systems in certain counties, cities, and towns.

113 A. From revenues made available by the General Assembly ~~after January 1, 2008,~~ and appropriated
114 for the improvement, construction, or reconstruction of the systems of state highways, the
115 Commonwealth Transportation Board ~~shall~~ *may* make an equivalent matching allocation to any county,
116 city, or town for designations by the governing body of up to ~~\$4~~ *\$10* million ~~in county, city, or town~~
117 ~~general funds~~ for use by the county, city, or town to improve, construct, or reconstruct the highway
118 systems within such county, city, or town. After adopting a resolution supporting the action, the
119 governing body may request revenue-sharing funds to improve, construct, or reconstruct a highway
120 system located in another locality, between two or more localities, or to bring subdivision streets, used
121 as such prior to ~~July 1, 1992~~ *the date specified in § 33.1-72.1*, up to standards sufficient to qualify them

for inclusion in the state primary and secondary system of highways. All requests for funding shall be accompanied by a prioritized listing of specified projects.

B. The allocation of funds to localities shall be only for the purposes set forth in subsection A. In allocating funds under this section, the Board shall give priority (i) first when such project is administered by the county, city, or town, either directly or by contract with another entity, (ii) second, when such county, city, or town commits more local funding than the amount of revenue-sharing funding requested, and (iii) third when the allocation will accelerate an existing project in the Six-Year Improvement Program or the locality's capital plans. Any funds remaining may be applied to any other project that requires an equivalent matching allocation from the governing body to allocations that will accelerate projects in the Commonwealth Transportation Six-Year Improvement Program or the locality's capital plan.

C. The Department will contract with the county, city, or town for the implementation of the project or projects. Such contract may cover either a single project or may provide for the locality's implementation of several projects during the fiscal year. The county, city, or town will undertake implementation of the particular project or projects by obtaining the necessary permits from the Department of Transportation in order to ensure that the improvement is consistent with the Department's standards for such improvements. At the request of the locality, the Department may provide the locality with engineering, right-of-way acquisition, and/or construction services for a project with its own forces. The locality shall provide payment to the Department for any such services. If administered by the Department, such contract shall also require that the governing body pay to the Department within 30 days the local revenue-sharing funds from its general fund upon written notice by the Department of its intent to proceed. Any project having funds allocated under this program shall be initiated in such a fashion where at least a portion of such funds have been expended within two subsequent fiscal years of allocation. Any revenue-sharing funds for projects not initiated after two subsequent fiscal years of allocation may be reallocated at the discretion of the Commonwealth Transportation Board.

D. Total Commonwealth funds allocated by the Board under this section shall not exceed \$50 \$200 million in any one fiscal year and no less than \$15 million each fiscal year, subject to appropriation for such purpose.

E. No more than three months prior to the end of any fiscal year in which less than the full program allocation has been allocated by the Board to specific governing bodies, those localities requesting the maximum allocation under subsection A may be allowed an additional allocation.

E. The funds allocated by the Commonwealth Transportation Board under this section shall be distributed and administered in accordance with the revenue-sharing program guidelines established by the Board.

§ 33.1-23.1. Allocation of funds among highway systems.

A. The Commonwealth Transportation Board shall allocate each year from all funds made available for highway purposes such amount as it deems reasonable and necessary for the maintenance of roads within the interstate system of highways, the primary system of state highways, the secondary system of state highways and for city and town street maintenance payments made pursuant to § 33.1-41.1 and payments made to counties which have withdrawn or elect to withdraw from the secondary system of state highways pursuant to § 33.1-23.5:1 and for revenue sharing pursuant to § 33.1-23.05.

B. After funds are set aside for administrative and general expenses and pursuant to other provisions in this title which provide for the disposition of funds prior to allocation for highway purposes, and after allocation is made pursuant to subsection A of this section, the Commonwealth Transportation Board may allocate each year up to 40% 10 percent of the funds remaining for highway purposes for the undertaking and financing of rail projects that, in the Board's determination, will result in mitigation of highway congestion. After the forgoing allocations have been made, the Board shall allocate the remaining funds available for highway purposes, exclusive of federal funds for the interstate system, among the several highway systems for construction first pursuant to §§ 33.1-23.1:1 and 33.1-23.1:2 and then as follows:

1. Forty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to the primary system of state highways, including the arterial network, and in addition, an amount shall be allocated to the primary system as interstate matching funds as provided in subsection B of § 33.1-23.2.

2. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to urban highways for state aid pursuant to § 33.1-44.

3. Thirty percent of the remaining funds exclusive of federal-aid matching funds for the interstate system shall be allocated to the secondary system of state highways.

C. In addition, the Commonwealth Transportation Board, from funds appropriated for such purpose in the general appropriation act, shall allocate additional funds to the Cities of Newport News, Norfolk,

183 and Portsmouth and the County of Warren in such manner and apportion such funds among such
184 localities as the Board may determine, unless otherwise provided in the general appropriation act. The
185 localities shall use such funds to address highway maintenance and repair needs created by or associated
186 with port operations in those localities.

187 D. Notwithstanding the foregoing provisions of this section, the General Assembly may, through the
188 general appropriations act, permit the Governor to increase the amounts to be allocated to highway
189 maintenance, highway construction, either or both.

190 § 33.1-23.4:01. Allocation of proceeds of Commonwealth of Virginia Transportation Capital Projects
191 Revenue Bonds.

192 The Commonwealth Transportation Board shall allocate, use, and distribute the proceeds of any
193 bonds it is authorized to issue on or after July 1, 2007, pursuant to subdivision 4f of § 33.1-269, as
194 follows:

195 1. A minimum of ~~20%~~ 20 percent of the bond proceeds shall be used for transit capital consistent
196 with subdivision A 4 g of § 58.1-638.

197 2. A minimum of ~~4.3%~~ 4.3 percent of the bond proceeds shall be used for rail capital consistent with
198 the provisions of §§ 33.1-221.1:1.1 and 33.1-221.1:1.2.

199 3. The remaining amount of bond proceeds shall be used for paying the costs incurred or to be
200 incurred for construction of transportation projects with such bond proceeds used or allocated as follows:
201 (a) (i) first, to match federal highway funds projected to be made available and allocated to highway and
202 public transportation capital projects *to the extent determined* by the Commonwealth Transportation
203 Board, for purposes of allowing additional state construction funds to be allocated to the primary, urban,
204 and secondary systems of highways pursuant to subdivisions B 1, B 2, and B 3 of § 33.1-23.1; (b) (ii)
205 next, to provide any required funding to fulfill the Commonwealth's allocation of equivalent revenue
206 sharing matching funds pursuant to § 33.1-23.05 *to the extent determined by the Commonwealth*
207 *Transportation Board*; and (c) (iii) third, to pay or fund the costs of statewide or regional projects
208 throughout the Commonwealth. Costs incurred or to be incurred for construction or funding of these
209 transportation projects shall include, but are not limited to, environmental and engineering studies,
210 rights-of-way acquisition, improvements to all modes of transportation, acquisition, construction and
211 related improvements, and any financing costs or other financing expenses relating to such bonds. Such
212 costs may include the payment of interest on such bonds for a period during construction and not
213 exceeding one year after completion of construction of the relevant project.

214 4. The total amount of bonds authorized shall be used for purposes of applying the percentages in
215 subdivisions 1 through 3.

§ 33.1-23.8. Creation of the Virginia Transportation Infrastructure Bank.

A. There is hereby created in the state treasury a special nonreverting, revolving loan fund that is a subfund of the Transportation Trust Fund, known as the Virginia Transportation Infrastructure Bank. The Bank shall be established on the books of the Comptroller. The Bank shall be capitalized as recommended by the Governor, and appropriated by the General Assembly, and the appropriations shall be paid into the state treasury and credited to the Bank. Repayment of loans and interest earned on the moneys in the Bank shall be credited to the Bank. Any moneys remaining in the Bank, including interest thereon, at the end of each fiscal year shall not revert to the general fund but shall remain in the Bank. The Bank shall be managed and administered by the Manager subject to certain specific rights of the Commonwealth Transportation Board as set forth in this article or the management agreement. Notwithstanding anything to the contrary set forth in this article or in the management agreement, the Commonwealth Transportation Board will have the right to determine the projects for which loans or other financial assistance may be made provided by the Bank. Moneys in the Bank shall be used solely for the purposes enumerated in subsections C and D.

B. The Commonwealth Transportation Board and the Virginia Resources Authority are authorized to enter into a management agreement under which the Virginia Resources Authority will manage and administer the Bank, which may include provisions (i) setting forth the terms and conditions under which the Virginia Resources Authority will advise the Commonwealth Transportation Board on the financial propriety of providing loans or other financial assistance to prospective eligible borrowers or other project sponsors, (ii) setting forth the terms and conditions under which the substantive requirements of subsections C through F and § 33.1-23.11 will be applied and administered, and (iii) authorizing the Virginia Resources Authority to disburse from the moneys in or payable to the Bank the reasonable costs and expenses the Virginia Resources Authority may incur in the management and administration of the Bank and a reasonable fee to be approved by the Commonwealth Transportation Board for the Virginia Resources Authority's management and administrative services.

306 C. 1. Moneys deposited in the Bank shall be used for the purpose of making loans and other
307 financial assistance to finance projects.

308 2. Each project obligation shall be payable, in whole or in part, from reliable repayment sources
309 pledged for such purpose.

310 3. The interest rate on a project obligation, if any, shall be determined by reference to the current
311 market rates for comparable obligations, the nature of the project and the financing structure therefor,
312 and the creditworthiness of the eligible borrower and any other project sponsors.

313 4. The repayment schedule for each project obligation shall require the amortization of principal
314 beginning no later than five years following substantial project completion and a final maturity date of
315 not more than 35 years following substantial project completion.

316 D. A portion not to exceed 20 percent of the capitalization of the Bank may be used for grants or
317 interest rate subsidies to localities to finance projects.

318 E. The pledge of reliable repayment sources and other property securing any project obligation may
319 be subordinate to the pledge securing any other senior debt obligations incurred to finance the project.

320 F. Notwithstanding subdivision C 4, the Manager may at any time following substantial project
321 completion, reduce, defer or cancel payments on a project obligation if the project is unable to generate
322 sufficient revenues to pay the scheduled payments.

323 G. No loan or other financial assistance may be provided or committed to be provided by the Bank
324 in a manner that would cause such loan or other financial assistance to be tax-supported debt within
325 the meaning of § 2.2-2713 or be deemed to constitute a debt of the Commonwealth of Virginia or a
326 pledge of the full faith and credit of the Commonwealth but shall be payable solely from legally
327 available moneys held by the Bank.

328 H. The Bank is not authorized or empowered to be or to constitute a bank or trust company within
329 the jurisdiction or under the control of the Commonwealth or an agency thereof or the Comptroller of
330 Currency of the U.S. Treasury Department; or a bank, banker, or dealer in securities within the

332 of the United States or of the Commonwealth.

333 I. The Commonwealth Transportation Board or the Manager may direct the Comptroller to establish
334 federal and state accounts or subaccounts as may be necessary to meet any applicable federal law
335 requirements or desirable for the efficient administration of the Bank in accordance with this article.

336 § 33.1-23.9. Eligibility and project selection.

337 A. Any entity constituting an eligible borrower or a project sponsor is eligible to apply for a loan or
338 other financial assistance from the Bank to finance a project.

339 B. Notwithstanding subsection A, only localities are eligible to apply for a grant or an interest rate
340 subsidy from the Bank.

341 C. All applicants for a loan must file an application with the Manager, which must include all items
342 determined by the Manager to be necessary and appropriate for the Commonwealth Transportation
343 Board to determine whether or not to approve the loan, including the availability of reliable repayment
344 sources to retire the project obligation as well as creditworthiness.

345 D. Any locality applying for a grant or interest rate subsidy must demonstrate, among other things
346 as determined by the Manager, that the project cannot be financed on reasonable terms or would
347 otherwise be financially infeasible without the grant or interest rate subsidy.

348 E. Each applicant for a loan or other financial assistance must demonstrate that the project is of
349 local, regional or statewide significance, and it meets the goal of generating economic benefits,
350 improving air quality, reducing congestion, and/or improving safety through enhancement of the state
351 transportation network. Another criterion to be considered is whether or not the loan or other financial
352 assistance will enable the project to be completed at an earlier date than otherwise feasible.

353 F. All projects for which a loan or other financial assistance is provided must meet and remain in
354 compliance with the policies and guidelines established by the Commonwealth Transportation Board and
355 the Virginia Resources Authority.

356 § 33.1-23.10. Grants from the Commonwealth Transportation Board.

357 The Commonwealth Transportation Board may make grants of money or property to the Bank for the
358 purpose of enabling it to carry out its corporate purposes and for the exercise of its powers. This
359 section shall not be construed to limit any other power the Commonwealth Transportation Board may
360 have to make grants to the Bank.

361 § 33.1-23.11. Acquisition of project obligations.

362 A. The Manager shall have the power and authority to cause the Bank to purchase or otherwise
363 acquire, on terms as defined by the Manager, project obligations to evidence or guarantee loans or
364 other financial assistance (which for purposes of this section shall not include grants and interest rate
365 subsidies) provided to finance or refinance the costs of any project. The Manager may also sell any
366 project obligations so acquired and apply the proceeds of such a sale to the making of additional loans
367 and the provision of other financial assistance for financing or refinancing the cost of any project or for

any other corporate purpose of the Bank.

B. The Manager may require, as a condition to provision of a loan or other financial assistance and the acquisition of any project obligations, that the eligible borrower or other project sponsor or sponsors covenant to perform any of the following:

1.
