6. Budget Amendment Necessary: No

7. Fiscal Impact Estimates: Indeterminate with minimal savings

8. Fiscal Implications: This bill eliminates and reduces several boards and commissions and consolidates some of their responsibilities into state agencies to streamline state government. Minimal savings will be achieved through the resulting elimination or reduction of reimbursement costs to board members and the administrative costs of the supporting agencies. Savings are not expected to exceed \$100,000 general fund and \$50,000 in nongeneral funds. Lesser savings may result when responsibilities of the consolidated boards

and commissions are passed onto their supporting agencies, which may require additional agency staff time. However, VDACS and DGS are identified in the bill as receiving additional responsibilities and both agencies testify that the bill does not provide a fiscal impact to their agency. The overall fiscal impact of this bill is indeterminate but may result in a total estimated maximum savings of \$150,000 annually.

- 11. Other Comments:** On January 16, 2010, Governor McDonnell issued Executive Order No. 2 (2010), establishing the Governor's Commission on Government Reform and Restructuring to conduct a review of Virginia state government. The Commission was tasked with identifying opportunities for creating efficiencies in state government, including streamlining, consolidating, or eliminating redundant and unnecessary agency services, governing bodies, regulations and programs. As a result of their work, the Commission issued a report to the Governor on December 1, 2010 that contained 133 recommendations for improving state government. This bill is resulting legislation from the Commission's work on consolidating boards and commissions.
