

VIRGINIA ACTS OF ASSEMBLY — CHAPTER

An Act to amend and reenact § 37.2-505 of the Code of Virginia and to amend the Code of Virginia by adding in Article 1 of Chapter 5 of Title 32.1 a section numbered 32.1-137.02, relating to hospital discharge procedures.

[H 1075]

Approved

Be it enacted by the General Assembly of Virginia:

1. That § 37.2-505 of the Code of Virginia is amended and reenacted and that the Code of Virginia is amended by adding in Article 1 of Chapter 5 of Title 32.1 a section numbered 32.1-137.02 as follows:

§ 32.1-137.02. Hospital discharge procedures.

Before a hospital discharges a patient, it shall, to the extent allowed pursuant to state and federal law, inform and educate the patient, and his family when it is involved in decision making or ongoing care, about his follow-up care, treatment, and services.

§ 37.2-505. Coordination of services for preadmission screening and discharge planning.

A. The community services board shall fulfill the following responsibilities:

1. Be responsible for coordinating the community services necessary to accomplish effective preadmission screening and discharge planning for persons referred to the community services board. When preadmission screening reports are required by the court on an emergency basis pursuant to Article 5 (§ 37.2-814 et seq.) of Chapter 8, the community services board shall ensure the development of the report for the court. To accomplish this coordination, the community services board shall establish a structure and procedures involving staff from the community services board and, as appropriate, representatives from (i) the state hospital or training center serving the board's service area, (ii) the local department of social services, (iii) the health department, (iv) the Department of Rehabilitative Services office in the board's service area, (v) the local school division, and (vi) other public and private human services agencies, including licensed hospitals.

2. Provide preadmission screening services prior to the admission for treatment pursuant to § 37.2-805 or Article 5 (§ 37.2-814 et seq.) of Chapter 8 of any person who requires emergency mental health services while in a city or county served by the community services board.

3. Provide, in consultation with the appropriate state hospital or training center, discharge planning for any person who, prior to admission, resided in a city or county served by the community services board or who chooses to reside after discharge in a city or county served by the board and who is to be released from a state hospital or training center pursuant to § 37.2-837. The discharge plan shall be completed prior to the person's discharge. The plan shall be prepared with the involvement and participation of the consumer or his representative and must reflect the consumer's preferences to the greatest extent possible. The plan shall include the mental health, mental retardation, substance abuse, social, educational, medical, employment, housing, legal, advocacy, transportation, and other services that the consumer will need upon discharge into the community and identify the public or private agencies that have agreed to provide these services.

4. Provide information, if available, to all hospitals licensed pursuant to Article 1 (§ 32.1-123 et seq.) of Chapter 5 of Title 32.1 about alcohol and substance abuse services available to minors.

No person shall be discharged from a state hospital or training center without completion by the community services board of the discharge plan described in this subdivision. If state hospital or training center staff identify a consumer as ready for discharge and the community services board that is responsible for the person's care disagrees, the community services board shall document in the treatment plan within 30 days of the person's identification any reasons for not accepting the person for discharge. If the state hospital or training center disagrees with the community services board and the board refuses to develop a discharge plan to accept the person back into the community, the state hospital or training center or the community services board shall ask the Commissioner to review the state hospital's or training center's determination that the person is ready for discharge in accordance with procedures established by the Department in collaboration with state hospitals, training centers, and community services boards. If the Commissioner determines that the person is ready for discharge, a discharge plan shall be developed by the Department to ensure the availability of adequate services for the consumer and the protection of the community. The Commissioner also shall verify that sufficient state-controlled funds have been allocated to the community services board through the performance contract. If sufficient state-controlled funds have been allocated, the Commissioner may contract with a

57 private provider, another community services board, or a behavioral health authority to deliver the
58 services specified in the discharge plan and withhold allocated funds applicable to that consumer's
59 discharge plan from the community services board in accordance with subsections C and E of
60 § 37.2-508.

61 B. The community services board may perform the functions set out in subdivision A 1 in the case
62 of children by referring them to the locality's family assessment and planning team and by cooperating
63 with the community policy and management team in the coordination of services for troubled youths
64 and their families. The community services board may involve the family assessment and planning team
65 and the community policy and management team, but it remains responsible for performing the
66 functions set out in subdivisions A 2 and A 3 in the case of children.
