## HOUSE BILL NO. 1298

## AMENDMENT IN THE NATURE OF A SUBSTITUTE

(Proposed by the Senate Committee for Courts of Justice  
on March 7, 2012)

(Patron Prior to Substitute—Delegate Albo)

A BILL to amend the Code of Virginia by adding a section numbered 19.2-56.2, relating to application for and issuance of search warrant for a tracking device; installation and use; penalty; emergency.

**Be it enacted by the General Assembly of Virginia:**

**1. That the Code of Virginia is amended by adding a section numbered 19.2-56.2 as follows:**

§ 19.2-56.2. Application for and issuance of search warrant for a tracking device; installation and use.

A. As used in this section, unless the context requires a different meaning:

"Judicial officer" means a judge, magistrate, or other person authorized to issue criminal warrants.

"Law-enforcement officer" shall have the same meaning as in § 9.1-101.

"Tracking device" means an electronic or mechanical device that permits a person to remotely determine or track the position or movement of a person or object. "Tracking device" includes devices that store geographic data for subsequent access or analysis and devices that allow for the real-time monitoring of movement.

"Use of a tracking device" includes the installation, maintenance, and monitoring of a tracking device but does not include the interception of wire, electronic, or oral communications or the capture, collection, monitoring, or viewing of images.

B. A law-enforcement officer may apply for a search warrant from a judicial officer to permit the use of a tracking device. Each application for a search warrant authorizing the use of a tracking device shall be made in writing, upon oath or affirmation, to a judicial officer for the circuit in which the tracking device is to be installed, or where there is probable cause to believe the offense for which the tracking device is sought has been committed, is being committed, or will be committed.

The law-enforcement officer shall submit an affidavit, which may be filed by electronically transmitted (i) facsimile process or (ii) electronic record as defined in § 59.1-480, and shall include:

1. The identity of the applicant and the identity of the law-enforcement agency conducting the investigation;

2. The identity of the vehicle, container, item, or object to which, in which, or on which the tracking device is to be attached, placed, or otherwise installed; the name of the owner or possessor of the vehicle, container, item, or object described, if known; and the jurisdictional area in which the vehicle, container, item, or object described is expected to be found, if known;

3. Material facts constituting the probable cause for the issuance of the search warrant and alleging substantially the offense in relation to which such tracking device is to be used and a showing that probable cause exists that the information likely to be obtained will be evidence of the commission of such offense; and

4. The name of the county or city where there is probable cause to believe the offense for which the tracking device is sought has been committed, is being committed, or will be committed.

C. 1. If the judicial officer finds, based on the affidavit submitted, that there is probable cause to believe that a crime has been committed, is being committed, or will be committed and that there is probable cause to believe the information likely to be obtained from the use of the tracking device will be evidence of the commission of such offense, the judicial officer shall issue a search warrant authorizing the use of the tracking device. The search warrant shall authorize the use of the tracking device from within the Commonwealth to track a person or property for a reasonable period of time, not to exceed 30 days from the issuance of the search warrant. The search warrant shall authorize the collection of the tracking data contained in or obtained from the tracking device but shall not authorize the interception of wire, electronic, or oral communications or the capture, collection, monitoring, or viewing of images.

2. The affidavit shall be certified by the judicial officer who issues the search warrant and shall be delivered to and preserved as a record by the clerk of the circuit court of the county or city where there is probable cause to believe the offense for which the tracking device has been sought has been committed, is being committed, or will be committed. The affidavit shall be delivered by the judicial officer in person; mailed by certified mail, return receipt requested; or delivered by electronically transmitted facsimile process or by use of filing and security procedures as defined in the Uniform Electronic Transactions Act (§ 59.1-479 et seq.) for transmitting signed documents.

3. By operation of law, the affidavit, search warrant, return, and any other related materials or pleadings shall be sealed. Upon motion of the Commonwealth or the owner or possessor of the vehicle,

SENATE SUBSTITUTE

HB1298S1

60 container, item, or object that was tracked, the circuit court may unseal such documents if it appears  
61 that the unsealing is consistent with the ends of justice or is necessary to reasonably inform such person  
62 of the nature of the evidence to be presented against him or to adequately prepare for his defense.

63 4. The circuit court may, for good cause shown, grant one or more extensions, not to exceed 30 days  
64 each.

65 D. 1. The search warrant shall command the law-enforcement officer to complete the installation  
66 authorized by the search warrant within 15 days after issuance of the search warrant.

67 2. The law-enforcement officer executing the search warrant shall enter on it the exact date and time  
68 the device was installed and the period during which it was used.

69 3. Law-enforcement officers shall be permitted to monitor the tracking device during the period  
70 authorized in the search warrant, unless the period is extended as provided for in this section.

71 4. Law-enforcement officers shall remove the tracking device as soon as practical, but not later than  
72 10 days after the use of the tracking device has ended. Upon request, and for good cause shown, the  
73 circuit court may grant one or more extensions for such removal for a period not to exceed 10 days  
74 each.

75 5. In the event that law-enforcement officers are unable to remove the tracking device as required by  
76 subdivision 4, the law-enforcement officers shall disable the device, if possible, and all use of the  
77 tracking device shall cease.

78 6. Within 10 days after the use of the tracking device has ended, the executed search warrant shall  
79 be returned to the circuit court of the county or city where there is probable cause to believe the offense  
80 for which the tracking device has been sought has been committed, is being committed, or will be  
81 committed, as designated in the search warrant, where it shall be preserved as a record by the clerk of  
82 the circuit court.

83 E. Within 10 days after the use of the tracking device has ended, a copy of the executed search  
84 warrant shall be served on the person who was tracked and the person whose property was tracked.  
85 Service may be accomplished by delivering a copy to the person who, or whose property, was tracked  
86 or by leaving a copy with any individual found at the person's usual place of abode who is a member of  
87 the person's family, other than a temporary sojourner or guest, and who is 16 years of age or older and  
88 by mailing a copy to the person's last known address. Upon request, and for good cause shown, the  
89 circuit court may grant one or more extensions for such service for a period not to exceed 30 days  
90 each. Good cause shall include, but not be limited to, a continuing criminal investigation, the potential  
91 for intimidation, the endangerment of an individual, or the preservation of evidence.

92 F. The disclosure or publication, without authorization of a circuit court, by a court officer,  
93 law-enforcement officer, or other person responsible for the administration of this section of the  
94 existence of a search warrant issued pursuant to this section, application for such search warrant, any  
95 affidavit filed in support of such warrant, or any return or data obtained as a result of such search  
96 warrant that is sealed by operation of law is punishable as a Class 1 misdemeanor.

97 **2. That an emergency exists and this act is in force from its passage.**
