11. Other comments: House Bill 209 was introduced at the request of the Virginia Insurance Continuing Education Board (Board). The proposed legislation modernizes the Continuing Education (CE) process for agents subject to Virginia CE requirements. It allows a producer a period of time during which he has the opportunity to correct any errors and effect compliance with CE requirements; the current CE program does not allow for any grace period. The State Corporation Commission Bureau of Insurance worked with the Board on the language of House Bill 209 and the changes to the CE program to improve the efficiency of its administration. Current language that provides agents the opportunity to submit late proof of compliance and the reinstatement provisions upon the payment of a monetary penalty are removed from the current

Code. Additionally, the provision requiring agents to wait 90 days before reapplying for a license has been removed as well as the requirement that a status report be issued to each agent not in compliance prior to the end of the biennium. House Bill 209 also contains numerous changes of a technical nature.

The bill has an effective date of January 1, 2013.
