238 provided in subdivision 7 c, the amount deducted on any individual income tax return in any taxable
239 year shall be limited to \$4,000 per prepaid tuition contract or savings trust account. No deduction shall
240 be allowed pursuant to this section if such payments or contributions are deducted on the purchaser's or
241 contributor's federal income tax return. If the purchase price or annual contribution to a savings trust
242 account exceeds \$4,000, the remainder may be carried forward and subtracted in future taxable years
243 until the purchase price or savings trust contribution has been fully deducted; however, except as

a. If the payment is received in installment payments, then the recognized gain, including any gain recognized in taxable year 2005, may be subtracted in the taxable year immediately following the year in which the installment payment is received.

b. If the payment is received in a single payment, then 10 percent of the recognized gain may be subtracted in the taxable year immediately following the year in which the single payment is received. The taxpayer may then deduct an equal amount in each of the nine succeeding taxable years.

12. For taxable years beginning on and after January 1, 2007, an amount equal to 20 percent of the sum paid by an individual pursuant to Chapter 6 (§ 58.1-600 et seq.), not to exceed \$500 in each taxable year, in purchasing for his own use the following items of tangible personal property: (i) any clothes washers, room air conditioners, dishwashers, and standard size refrigerators that meet or exceed the applicable energy star efficiency requirements developed by the United States Environmental Protection Agency and the United States Department of Energy; (ii) any fuel cell that (a) generates electricity using an electrochemical process, (b) has an electricity-only generation efficiency greater than 35 percent, and (c) has a generating capacity of at least two kilowatts; (iii) any gas heat pump that has a coefficient of performance of at least 1.25 for heating and at least 0.70 for cooling; (iv) any electric heat pump hot water heater that yields an energy factor of at least 1.7; (v) any electric heat pump that has a heating system performance factor of at least 8.0 and a cooling seasonal energy efficiency ratio of at least 13.0; (vi) any central air conditioner that has a cooling seasonal energy efficiency ratio of at least 13.5; (vii) any advanced gas or oil water heater that has an energy factor of at least 0.65; (viii) any advanced oil-fired boiler with a minimum annual fuel-utilization rating of 85; (ix) any advanced oil-fired furnace with a minimum annual fuel-utilization rating of 85; and (x) programmable thermostats.

306 is made or the taxable year in which the 12-month period expires.

307 E. There shall be added to or subtracted from federal adjusted gross income, as the case may be, the
