This subsection shall not apply to gas systems and pipeline facilities owned or operated by any county, city, or town.

B. For the purposes of pipeline facilities used in the intrastate transportation of gas, all as defined in the federal regulations promulgated under 49 U.S.C. § 60101 et seq., as amended, and the federal pipeline safety laws, and notwithstanding any other provision of law, any person, limited liability company, business entity or association of individuals failing or refusing to obey Commission orders relating to the adoption or enforcement of regulations for the design, construction, operation, and maintenance of intrastate pipeline facilities and temporary or permanent injunctions issued by the Commission shall be fined such sums not exceeding the fines and penalties specified by 49 U.S.C. § 60122 (a) (1), as amended. Should the operation of such order be suspended pending an appeal, the period of such suspension shall not be computed against the person in the matter of his liability to fines or penalties. This subsection shall not apply to gas systems and pipeline facilities owned or operated by any county, city, or town.

C. After each inspection, an exit interview with any county, city, or town shall be conducted prior to promptly reporting to the United States Department of Transportation. This subsection shall not authorize the Commission to impose civil penalties or fines on any county, city, or town and shall not authorize the Commission to exercise jurisdiction over the rates, charges, services, facilities, or service territory of any county, city, or town providing gas service except as is otherwise provided by law.

D. *Except as may be otherwise expressly provided by law, investigative notes and other correspondence and information furnished in confidence by a public service company to any employee or member of the Commission with respect to a pipeline safety inspection or an investigation conducted pursuant to this section shall not be disclosed to any person.
